LC 1.40/2:

About
FLIC/FEDLINK

The Federal Library and Information Center Committee (FLICC) was created in 1965 as the Federal Library Committee by joint action of the Library of Congress and the Bureau of the Budget (currently the Office of Management and Budget). FLICC's purpose is to achieve better utilization of fedeal library and information center resources and facilities through professional development, promotion of services, and coordination of available resources.

FLICC is also responsible for making recommendations of federal library and information policies, programs, and procedures to federal agencies and to others concerned with libraries and information centers.

FEDLINK (the Federal Library and Information Network) is a cooperative program of FLICC. The network offers any federal agency, through its library, information center, or other information-oriented office, the opportunity to enhance the information resources available to meet the requirements of its personnel.

FEDLINK was established in 1978 to allow federal libraries to participate in the Online Computer Library Center (OCLC). Using FEDLINK service contracts, federal libraries, information centers, and other offices obtain services directly from commercial sources. The contracts usually provide substantial discounts not available to individual customers. For both large- and small-volume users, this approach secures favorable terms assuring lower costs.

Through FEDLINK, agencies have cost-effective access to a number of information and operations support services including online reference data-bases from the major vendors, online cataloging, interlibrary loan, acquisitions, and serials control from bibliographic utilities, and ordering services of book jobbers and serials subscription agencies.

The FEDLINK program for electronic database retrieval services operates under the Library of Congress' Delegation of Procurement authority granted from the General Services Administration. Arrangements for initiation and payment for these and other appropriate services are authorized by the Economy Act and are governed by interagency agreements executed by participating federal agencies and the Library of Congress, acting on behalf of FLICC.

In addition to providing cost-effective library bibliographic services and other library services and products for member libraries and information centers, the network has functioned as a center for evaluating new library technologies.

For further information about our services, write FLICC, Library of Congress, Washington, DC 20540, or telephone the FEDLINK FISCALL HOTLINE, (202) 245-5270, 71. The Fax number is (202) 245-5273.

Mary Berghaus Levering
FLICC Executive Director

Introduction

The FY '91 *FEDLINK Services Directory* has been compiled and published to provide FEDLINK member agencies with comprehensive descriptions and prices of FEDLINK services for the fiscal year. A continuing goal of the directory is to facilitate your interaction with both FEDLINK Fiscal Operations and current FEDLINK vendors.

The FY '91 *FEDLINK Services Directory* contains datasheets listing actual FY '91 services and pricing after all basic ordering agreements for FY '91 have been completed by the Library of Congress Contracts and Logistics. We suggest that you remove the FY '90 directory from its binder and replace it with this FY '91 edition.

This year's *FEDLINK Services Directory* also includes a section on *Differences for FY '91* (page 6) which lists: the new services and vendors for FY '91; vendor name and ID changes for FY '91; and FY '90 services not available in FY '91.

The FY '91 *FEDLINK Services Directory* lists FEDLINK Services according to: 1) FEDLINK Service ID; 2) Company Name; and 3) Subject. These indices begin on page 6.

If you need further information on FEDLINK services, please call the FEDLINK Vendor Services Coordinator on the FEDLINK Fiscal Hotline at (202) 245-5270. As a reminder, the FY '91 *FEDLINK Services Directory* is also available on ALIX, the FEDLINK electronic bulletin board.

Your comments and suggestions for improvements in the FEDLINK program and help in identifying needed services would be most helpful to us at FEDLINK. We look forward to serving you and greatly appreciate your continuing cooperation and support.

Mary Berghaus Levering
Executive Director,
Federal Library and Information
Center Committee

How to Get FEDLINK Services *(excerpted from the FY'91 FEDLINK Services Registration Package)*

The basis for your agency's use of services through the FEDLINK program is an interagency agreement (IAG) between your agency and the Library of Congress (LC). The following describes the sequence of steps (from completing the Services Registration Form to establishing an IAG with the Library of Congress) necessary to use FEDLINK services. See the *Registration Process for FEDLINK Services* section, page 6, for detailed information on the registration process.

- **Registration (Step 2 of Illustration, next page)**

To register for services available through the FEDLINK program in FY '91, you will need to complete and return the enclosed FY '91 Services Registration Form. (Please see the section *Completing The Services Registration Form* section, page 15, for instructions and deadlines). Read this entire package before completing the form, especially noting the information in the sections on *Registration Process*, page 6, *General Policies*, page 9, and *Special Considerations for FY '91*, page 10. Retain these instructions and a copy of your completed form for your records.

- **Initiation of an Interagency Agreement (Steps 3 and 4)**

Upon receipt of your completed Services Registration Form, FEDLINK Fiscal Operations will prepare an interagency agreement (IAG) which covers all your requested services. The IAG will also include the FY '91 FEDLINK service fees as well (please see page 18). The Library of Congress Financial Services Directorate (FSD) will sign the IAG and send it to your point of contact, the person at your agency coordinating the interface with FEDLINK.

- **Verification by Point of Contact (Step 5)**

Upon receipt of the IAG, the point of contact should then secure the appropriate signatures at your agency. The signed IAG should be returned to FEDLINK within thirty (30) days of the date of the IAG, as specified on the transmittal memorandum. To fulfill a local procedure or requirement, attach any appropriate funding documents (such as a purchase order, MIPR, NAVCOMP 2275, etc.)

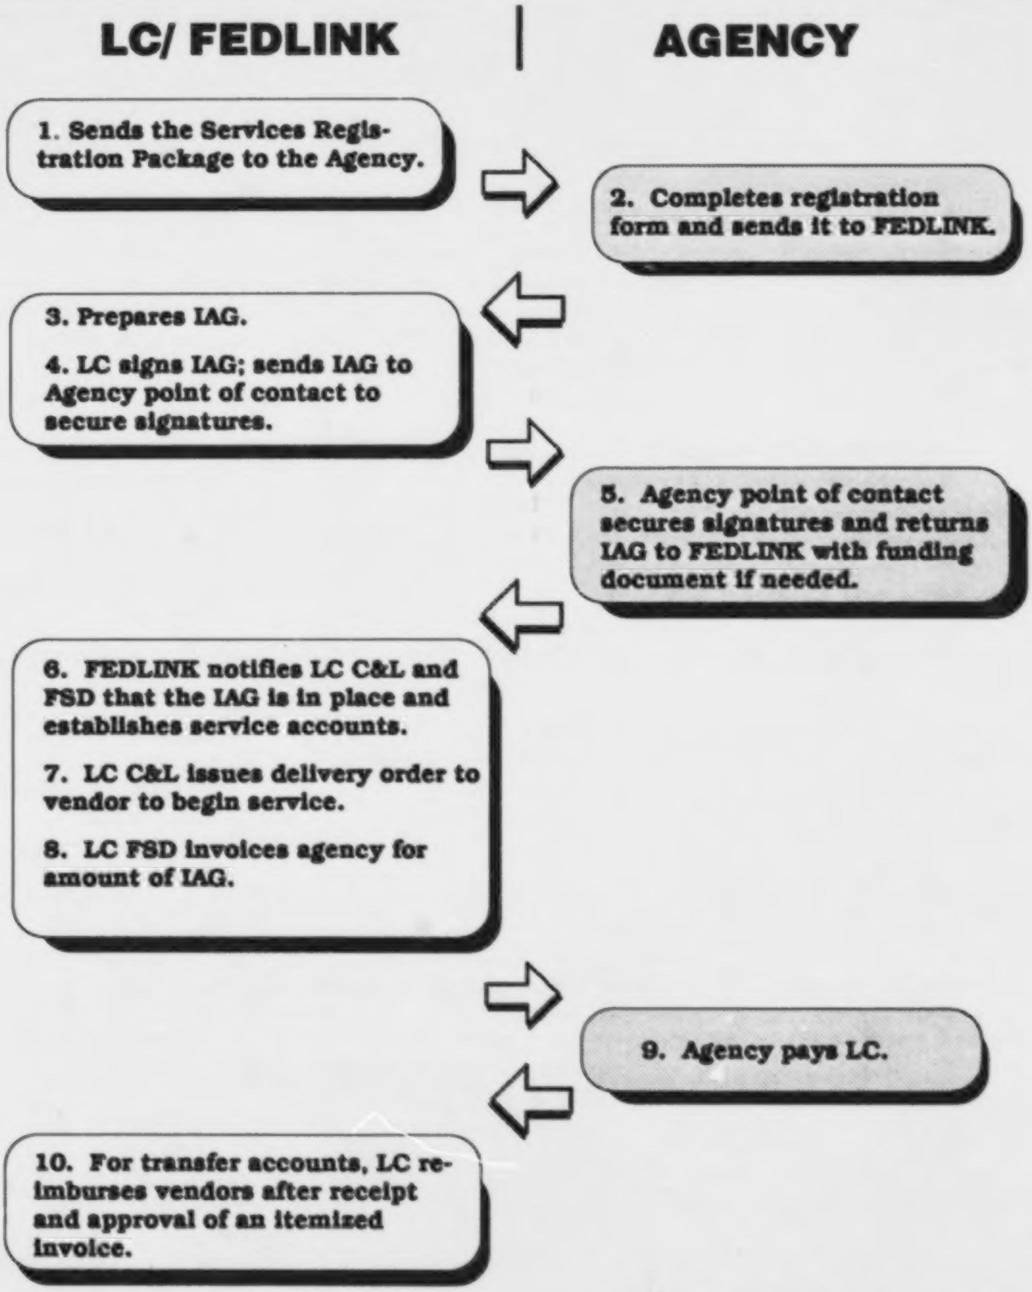
- **Initiating Service (Step 6 and 7)**

Upon receipt of the signed IAG by FEDLINK, LC Contracts & Logistics Services (LC C&L) will issue delivery orders to the appropriate vendor(s) to either begin, renew, cancel, or convert your service(s). In addition, FEDLINK will establish internal accounts for any service for which you have requested the transfer payment option.

- **Transfer of Funds to the Library of Congress (Steps 8-10)**

Per your activity's instructions on the signed IAG, the Library of Congress Financial Services Directorate will issue a Standard Form 1080 (voucher for transfers between appropriations and/or funds) for the total value of the IAG, or will utilize OPAC (Online Payment and Collection system) to effect the actual transfer of funds from your agency to the Library of Congress.

How to Get FEDLINK Services (continued)



LC/ FEDLINK

AGENCY

1. Sends the Services Registration Package to the Agency.

2. Completes registration form and sends it to FEDLINK.

3. Prepares IAG.

4. LC signs IAG; sends IAG to Agency point of contact to secure signatures.

5. Agency point of contact secures signatures and returns IAG to FEDLINK with funding document if needed.

6. FEDLINK notifies LC C&L and FSD that the IAG is in place and establishes service accounts.

7. LC C&L issues delivery order to vendor to begin service.

8. LC FSD invoices agency for amount of IAG.

9. Agency pays LC.

10. For transfer accounts, LC reimburses vendors after receipt and approval of an itemized invoice.

Differences for FY '91

• FLICC/FEDLINK Services and Vendors for FY '91

a. Vendors/Services Added: New vendors and services for FY '91 are:

- Advanced Technology, Inc. (AT)
- CACI, Inc. (KF)
- CADIS (KD)
- Chadwyck-Healey, Inc. (CH)
- Control Data Business Info. Svc. (CD)
- Facts on File (FF)
- Global Transactions, Inc. (GT)
- Innovative Technology (TL)
- Janes Information Group (JN)
- Library Corp. (LC)
- Lotus Development Corp. (LO)
- OCR Services, Inc. (OS)
- Procurement Automation Inst. (PI)
- Systems Exploration (SX)
- Thomas Evans (TH)

b. Vendor Name and ID Changes: Pergamon Orbit Infoline, Inc. has changed its name to ORBIT Search Services. Prentice Hall Information Network (PHINET) is now Maxwell, McMillian Business and Financial Division (PH), as indicated on the attached *FY '91 FLICC/FEDLINK Services and Vendors List*. Service ID (AV) has been assigned to DRI/McGraw-Hill which is a successor to McGraw-Hill Information Services.

• FY '90 Services Not Available in FY '91

a. The following vendors did not submit proposals for FY '91 and their services are no longer available through FEDLINK:

- American Medical Computing, Ltd. (AA)
- Baseline II, Inc. (BN)
- CMC Research, Inc. (CM)
- Comline International Corp. (CB)
- CRC Systems (CE)
- Donnelly Marketing Information (DN)
- Dwight's Energydata, Inc. (DY)
- Info Globe (IG)
- Institute for Scientific Research (UI)
- Marcive, Inc. (MI)
- National Information Services (NA)
- NYNEX Info. Resources (NY)
- Shared Information Resources & Technologies Inc. (SIRTech) (SE)
- State Net (SB)
- Vu-Text Information Services (VT)
- Wright's Investor Services (WS)

b. Aviation Online, a FEDLINK service in FY '90, is not available through FEDLINK in FY '91. Aviation Online was recently acquired by DRI/McGraw-Hill. However in FY '91 McGraw-Hill did not offer the Aviation Online service as part of their FEDLINK FY '91 proposal. Therefore, Aviation Online is not available through FEDLINK in FY '91, and agencies wishing to use the service must make their own local arrangements.

FY '91 Datasheets on FEDLINK Services

The following pages of *FY '91 Datasheets on FEDLINK Services* give brief descriptions, and pricing and contact information for each service offered through the FY '91 FEDLINK program. The datasheet entries are arranged alphabetically by company name. Refer to the indicies beginning on page 7 to locate the FEDLINK Service ID, Company Name, or Subject you need.

If there is any discrepancy between the information in these datasheets and the respective BOAs, the BOAs shall prevail

COMPANY: Ambassador Book Service, Inc. **SERVICE ID:** AB

SERVICE: Specialized Books **BOA NUMBER:** H74203

BASIC SERVICES:

Publications: Ambassador Book Service (ABS) offers a comprehensive range of firm order services to the government, corporate, medical, college, university and other special libraries. ABS can provide both US and non-US materials in the following categories: Association, Audio-Visual, Foreign, Government, Legal, Medical, Non-English Language, and Scientific-Technical. ABS maintains an inventory of over 40,000 volumes, many of which are automatically supplied by the scientific, technical, business, university press and medical publishers with whom ABS is a recognized agent. ABS regularly places special orders with publishers for items not in stock. To facilitate the supply of imported publications, ABS maintains reciprocal agreements with booksellers in England, France, Germany, Spain, Portugal, Switzerland, Australia and South America.

Orders: Customers may place orders by mail, or may communicate toll free via the telephone, fax, Book Order Express, ABS E-Mail, ABS ONLINE, or PC-based ABS Book Acquisitions System. For regular firm orders, ABS seeks a one week turnaround from publishers, will claim from the publisher after 45 days, and again after 30 days.

OPTIONAL SERVICES:

Physical Processing: For paperbacks, ABS can provide Lyfguard coverups or Ambassabind binding.

Automated Order Control System: Customers may dial in to the ABS Online system which prompts the user through the entire ordering process. The Book Acquisitions System (BAS) is a PC-based system whose feature include order entry, order cancellation, order claiming, fund accounting and report generation and for toll free electronic transmission of order information to ABS. BAS interfaces with *Books in Print Plus*.

PRICING: See the attached schedule B for FY'91 pricing information.

ACCOUNT TYPE: Transfer Pay or Direct Pay

RESTRICTIONS: A Blanket Purchase Agreement issued by a contracting officer will authorize users to place orders with the vendor. Only individuals authorized on the BPA may place orders and the aggregate of all individual orders may not exceed the NTE amount identified on the user's BPA. Individual orders in excess of $25,000 must be placed by a contracting officer: for Transfer Pay an LC Contracting officer, for Direct Pay a local contracting officer.

MARKETING:

Company Name: Advanced Technology, Inc **Service ID:** 61

Service Name: CONQUEST/ BUSINESSLINE **Contract #:** H74039B0A

Service Description:

Advanced Technology offers a variety of demographic and geographic databases that have been compilled and produced by Donnelley Marketing Information Services (DMIS)

The CONQUEST databases provide a valuable tool for government agencies to use for such functions as: site location studies, transporation analyses, facilities/budget justification analyses, and legislative compliance studies.

The available databases are as follows and are available on CD-ROM

CONQUEST, Simmons Market Research Bureau Standard, MRI Product File, Autofacts, Income By Age of Head of Household, Byways, Extended Income Ranges, Territory Planning & Realignment, DRG Forecasting Models, Hospital Utilization File, Hospital Provider of Service File, Physician Specialty Counts, Physician's Reference File, BusinessLINE Basics, BusinessLINE Registry. The BusinessLINE Registry contains, on three (3) CD ROM disks, locations and associated information for more than 8,000,500 commercial establishments.

Also available, on magnetic tape, are two (2) databases: ZIProfile and CLUSTERPLUS.

Pricing Description:

See the attached schedule B pricing pages.

Account Type: Optional Pay Transfer or Direct **Carryover:** NO

COMPANY: Baker and Taylor Books **SERVICE ID:** BA

SERVICE: General Books **BOA NUMBER:** H74212

BASIC SERVICES:

Baker & Taylor Books (B&T) maintains an extensive inventory of current trade, trade paperback, mass market paperback, library binding, short and net discount materials. B&T can also provide textbooks in hardcover and paperback. B&T collection development and management services designed to assist in the building of library collections include selection lists, retrospective purchasing, opening day collections, do-not-exceed fund control, approval programs, book leasing services, and school selection guides. B&T offers services to support mini-network library organizations in the administration of acquisitions activity.

OPTIONAL SERVICES:

Approval Plan: The B&T approval plan allows libraries to construct a profile based on subject or publisher. The BASIS approval plan, for smaller libraries, provides notification slips of titles available in the library's profiled areas.

Physical and Technical Processing: B&T can supply physical and technical processing of books. Customers can request catalog cards or MARC output with Dewey or LC call numbers and LC or Sears subject headings. B&T can supply circulation kits (cards, pockets, and labels), barcodes and cover-ups and reinforced bindings.

Automated Order Control System: B&T offers a PC based system for order control. The B&T Link software has three modules: 1-Ordering, 2-Database (1.2 million title on CD-ROM) and 3-Inventory (weekly updates of titles in stock and on order).

PRICING: See the attached Schedule B pricing information. B&T has special pricing for purchase of trade and trade paperback materials by mini-network organmizations (multiple copy purchases with multiple ship-to addresses); contact the vendor or LC C&L for information.

ACCOUNT TYPE: Transfer Pay or Direct Pay

RESTRICTIONS: A Blanket Purchase Agreement issued by a contracting officer will authorize users to place orders with the vendor. Only individuals authorized on the BPA may place orders and the aggregate of all individual orders may not exceed the NTE amount identified on the user's BPA. Individual orders in excess of $25,000 must be placed by a contracting officer: for Transfer Pay an LC Contracting officer, for Direct Pay a local contracting officer.

COMPANY: Brodart Company **SERVICE ID:** BD

SERVICE: General Books **BOA NUMBER:** H74307

BASIC SERVICES:

Brodart maintains an inventory of over 150,000 titles from which it can supply trade, trade paperback, mass market paperback, library binding, short and net discount books and textbooks. Books not in inventory are regularly ordered from the publishers. Brodart's collection development and management services include customized selection lists, opening day collections, do-not-exceed fund control, and book leasing services. Brodart offers services to support mini-network library organizations in the administration of acquisitions activity.

OPTIONAL SERVICES:

Approval Plan: The McNaughton Book Leasing service is available under the Brodart FEDLINK BOA.

Physical and Technical Processing: Brodart can provide physical, technical and complete processing of books. Physical processing can include a circulation kit (card, pocket, label), bar code labels, Lyfguard covers and Duralam binding of paperbacks. Cataloging informaiton can be delivered on cards or MARC tape.

Automated Order Control System: Customers may communicate with Brodart's online system via based Book Express Plus (BEP) and Online Acquisition System II (OLAS II) systems allow libraries to place regular and rush orders, search the 1.5 million record Brodart master title file database and perform basic fund accounting, and a BISAC. The PC Rose PC based system allows customers to enter information locally and then transmit order data to Brodart.

PRICING: See the attached Schedule B pricing information.

ACCOUNT TYPE: Transfer Pay or Direct Pay

RESTRICTIONS: A Blanket Purchase Agreement issued by a contracting officer will authorize users to place orders with the vendor. Only individuals authorized on the BPA may place orders and the aggregate of all individual orders may not exceed the NTE amount identified on the user's BPA. Boston Spa, Wetherby
West Yorkshire, LS23 7BQ
UNITED KINGDOM

Telephone: 0937 54 6049, FAX 0937 54 6333

Note: The current agreement (H74200) has been extended through Sept. 30, 1991.

COMPANY: Blackwell North America **SERVICE ID:** BN

SERVICE: General Books **BOA NUMBER:** H74204

BASIC SERVICES:

Blackwell North America can provide trade, trade paperback, mass market paperback, library binding, short and net discount general books. BNA can provide college-level textbooks both in hardcover and paperback. BNA can fill orders for current, forthcoming and backlist titles. BNA maintains substantial inventories of trade materials in facilities in Oregon and New Jersey and through its affiliate, B. H. Blackwell in Oxford, England, BNA can provide general materials published in the UK and elsewhere. BNA offers services to support mini-network library organizations in the administration of acquisitions activity.

OPTIONAL SERVICES:

Approval Plan: BNA offers approval plans based on subject and/or publisher. Customers can designate a preference for automatic provision of books or for forms/slips only. A wide variety of management reports and bibliographic collection development tools are available as well.

Physical and Technical Processing: Based on a customer profile, BNA can provide physical, technical, or complete processing of books. BNA can supply a circulation kit (pocket, circulation card, spine labels), barcode labels, VINABIND binding of paperbacks, Class A binding for paperback reinforcement, and KAPCO processing for paperback coverups. Catalog card sets or MARC records on 9-track tape with Dewey, LC, or NLM call numbers, and LC, Sears, or NLM subject headings are also available.

Automated Order Control System: BNA offers a PC based order system through which customers can transmit orders, queries, claims and cancellations to BNA via the GEISCO telecommunications network. The PC-Order system interfaces with *Books In Print Plus*. For approval plan customers BNA provides a diskette with New Title Announcements (PC-NTAS). For collection development, verification, and instant ordering, customers may dial in to BNA's New Titles Online (NTO) database.

PRICING: See the attached Schedule B pricing information.

ACCOUNT TYPE: Transfer Pay or Direct Pay

RESTRICTIONS: A Blanket Purchase Agreement issued by a contracting officer will authorize users to place orders with the vendor. Only individuals authorized on the BPA may place orders and the aggregate of all individual orders may not exceed the NTE amount identified on the user's BPA. Individual orders in excess of $25,000 must be placed by a contracting officer: for Transfer Pay an LC Contracting officer, for Direct Pay a local contracting officer.

COMPANY: Blackwell North America **SERVICE ID:** BN

SERVICE: Specialized Books **BOA NUMBER:** H74204

BASIC SERVICES:

Publications: Blackwell North America (BNA) will provide scholarly, scientific and technical, and specialized publications including medical and legal publications. BNA's relationship with B. H. Blackwell, Ltd., Oxford, England also permits BNA to provide its customers books published outside the United States and not otherwise distributed in the US. Blackwell can furnish all publisher types, language and imprints for the following categories: Association, Foreign, Government, Legal (except subscription and "pocket-part" services), Medical, Non-English Language and Scientific-Technical. BNA does not maintain materials in the audio-visual category. Upon request, BNA can provide out-of-print titles from the US, Canada, the United Kingdom and Europe.

Orders: Customers may place orders via mail, toll free telephone online using Blackwell's PC Order/PC Order Plus or NTO, electronic mail, or a number of turnkey acquisitions systems.

OPTIONAL SERVICES:

Approval Plan: BNA offers approval plans based on subject and/or publisher. Customers can designate a preference for automatic provision of books or for forms/slips only. A wide variety of management reports and bibliographic collection development tools are available as well.

Physical and Technical Processing: Based on a customer profile, BNA can provide physical, technical, or complete processing of books. BNA can supply a circulation kit (pocket, circulation card, spine labels), barcode labels, VINABIND binding of paperbacks, Class A binding for paperback reinforcement, and KAPCO processing for paperback coverups. Catalog card sets or MARC records on 9-track tape with Dewey, LC, or NLM call numbers, and LC, Sears, or NLM subject headings are also available.

Automated Order Control System: BNA offers a PC based order system through which customers can transmit orders, queries, claims and cancellations to BNA via the GEISCO telecommunications network. The PC-Order system interfaces with *Books In Print Plus*. For approval plan customers BNA provides a diskette with New Title Announcements (PC-NTAS). Company Name: BRS Information Technologies, Inc. **Service ID:** BR

Service Name: BRS Search Service and BRS Colleague **Contract #:** H74052BOA

Service Description:

o BRS Search Service:

The BRS Search Service provides access to over 145 comprehensive databases in all areas of business, medicine/pharmacology, the life and physical sciences, social sciences, and humanities. BRS also produces several unique and important databases. The service offers many special features including: the CROS Database (a combined index to BRS databases), SDI (a cost-effective current awareness service) and MENUS (a friendly menu-driven interface as a searching alternative to the command mode of the Search Service software).

o BRS After Dark: Certain databases are available at greatly reduced rates if used during low demand times, ie, M-F 6pm-4am(ET), Sat 6am-2am(ET), Sun 9am-4am(ET).

o BRS Colleague:

The BRS Colleague Service concentrates on health care and biomedicine, however, virtually all the BRS Search databases are available under the Colleague service. Unique libraries are the Comprehensive Core Medical Library (CCML) which includes the full text of almost 70 major medical journals and textbooks and the AIDS library.

Pricing Description:

Pricing provided is FY91 pricing.

During FY91, FEDLINK members will receive a $12.50 per hour discount from the published hourly charges as displayed on the attached pricing pages.

Account Type: Optional Pay - Transfer or Direct

Marketing Representative: David C. MacDonald

Address: BRS Information Technologies
8000 Westpark Drive
McLean, Virginia 22102

Telephone: (703) 442-0900 or 1-800-345-4277

Notes: BRS Service is now available more hours each week.

Monday - Friday	6:00a.m. - 4:00a.m.
Saturday	6:00a.m. - 2:00a.m.
Sunday	9:00a.m. - 4:00a.m.

(Eastern Time)

You may contact BRS for detailed descriptive literature as well as a copy of their contract with the Library of Congress.

* These databases are available to teaching institutions via BRS/Instructor passwords.
● These databases are full-text, or include full-text printing features.

* Document charges are based on the fields printed. These figures indicate the range of charges for both online and offline printing. Detailed document charges are available online in BRS/FILE.
† This represents the Open Access Plan which is the highest possible rate. Advance Purchase and Monthly Instrument subscribers, subtract your hourly discount from the figure in this column to calculate your hourly rate.

OPTIONS

OFFLINE PRINTING

The BRS/Search Service provides offline printing of search results in most databases. The cost of offline printing is the sum of the document charges plus postage and $1.00 handling charge for each daily mailing of offline prints.

SAVED SEARCHES

The cost of a Permanent Save is $2.25 per month. There is no charge for Temporary Saves.

LINK COMMAND

The charge for a successful LINK is $1.50. The LINK feature is currently available for automatic LINKing from bibliographic documents in MEDLINE (MESH, MESZ, MRAI) and HLTH to full-text documents in Comprehensive Core Medical Library (CCML).

SDI (CURRENT AWARENESS) SERVICE

For users who need the latest information as it becomes available, the BRS/Search Service provides an automatic SDI, or current awareness, feature for the databases listed. This feature permits you to enter a search strategy that will be processed automatically. BRS sends you the results as the database is updated.

The SDI pricing format is a single bundled rate for each database listed except CCON. The bundled rate covers postage (U.S. & Canada), handling, and the cost of the first 15 citations. Additional citations are billed as indicated in the rate schedule.

TELECOMMUNICATIONS

Telecommunications within the U.S. and Canada are billed by BRS at the following rates:

Telenet:	$12.00 per hour
Tymnet:	$12.00 per hour
Telenet In-WATS:	$33.00 per hour
Tymnet In-WATS:	$33.00 per hour
Telenet via Datapac:	$18.00 per hour
Tymnet via Datapac:	$18.00 per hour
BRSNET - Europe:	$10.00 per hour
BRSNET - Australia:	$29.00 per hour

BRS is also available through the IBM Information Network at the rate of $13.50 per hour plus IBM charges.

FOOTNOTES

1. ASFG has an additional charge of $.25 per page for offline printing.
2. This figure represents a total per page charge, rather than a per document charge.
3. Lower charges available to subscribers to the print version only.
4. Lower charges available to members only. Contact OCLC for details.
5. NLM has instituted the following surcharge for non-U.S. users (outside the U.S. and its possessions): $3 per connect hour and $.02 per offline document.
6. The document charges listed apply to printed full-text documents. The text of articles is not available for all documents; the maximum document charges for printing bibliographic record is $.20 online, and $.35 for offline printing.
7. This figure represents the charge for printing "all" or "F5." Printing certain combinations of fields may result in a higher charge.
8. EMIS has special subparagraph accounting. The total charge for printing a document will depend on the length of the record and the fields selected. See BRS/FILE for detailed information.
9. This charge applies to printing AF or CONT. If you print ALL, F5, or AR, there is an additional $.50 (online or offline) charge for each AR subparagraph displayed.
10. Practice database rate for all BRS/Search Service customers is $10.00 per hour plus telecommunications. Offline prints are not available.

APPROVED

JULY 1990

DATABASES AND RATES

BRS/After Dark is a menu-driven service offering the most popular BRS databases at reduced rates for evening and weekend users.

One-Time Registration Fee:

Group Accounts:

$175.00	Includes two passwords, two *Colleague User Manuals* and customer support services.
$15.00	Per additional password.

Individual Accounts:

$95.00	Includes one password, one *Colleague User Manual* and customer support services.

Free Time in Practice Databases:

New password holders may search in the Practice Databases for two hours free of charge during the first 90 days after the receipt of their Colleague password.

After that period, the Practice Databases cost $12.00 per hour (Prime Time) and $10.00 per hour (Non-Prime Time).

Automatic Discounts:

5-15 hours per month:	3%
15-25 hours per month:	9%
25 hours or more:	15%

Volume discount credits are applied only to Prime Time connect time (excluding mail services).

Monthly Minimums:

Group Account:	$50.00
Individual Account:	$20.00

All charges for information access and optional Colleague features apply toward the monthly minimum with the exception of mail services.

Monthly Minimum Service Fee for Colleague Mail:
(credited toward use of Colleague Mail services):

Individual	$1.25
Group (per ID up to maximum of $12.50)	.50

07/90

System Hours:

Colleague is available from 6 a.m. to 4 a.m. Eastern Time (E.T.), Monday thru Friday, 6 a.m.-2 a.m. Saturday, and 9 a.m. to 4 a.m. E.T. on Sunday.

Prime Time Hours:	6 a.m.-6 p.m. local time, Monday-Friday.
Non-Prime Time Hours:	After 6 p.m. local time, Monday-Friday; weekends; and holidays.

Customer Services:

Customer Services is available in the U.S. from 8 a.m.-10 p.m. E.T., Monday thru Friday; and 9 a.m.-5 p.m. on Saturday and Sunday. Call (800) 289-4277 in the U.S. and Canada, or collect at (703) 442-0900. In Europe, the BRS Customer Services Department can be reached in London on (01) 993-9962 or toll-free (within the UK) on (0800) 289512 between 8:30 a.m. and 5:30 p.m. (UK time) Monday through Friday. In the Australasian region, contact the BRS Customer Services Department in Sydney on (02) 360-2691 or toll-free (within Australia) on (008) 22-6474 between 9:00 a.m. and 5:00 p.m. (Eastern Australian time).

Pricing Notes:

The rates listed for individual databases are subject to change. For the most current rates, please consult the database's online description or call Customer Services at (800) 289-4277. These prices include customer support, connect time, U.S. telecommunications and search modifications.

Format charges listed are the charges for displaying a single document in the long or tailored display formats. The charge for displaying documents in title-only format is $0.02; the charges for short and medium format will vary.

There is a flat $1.50 charge for the LINK features which allows the user to automatically view the full text of a journal article in CCML identified during a search of one of the MEDLINE databases. Appropriate connect time and format charges also apply.

The cost for SAVE is $2.25 and Online SORTing is $1.00.

* Documents displayed in title-only format cost $0.02 apiece during both Prime and Non-Prime Times.

**Documents printed offline using the Print & Mail (PM) will incur applicable format charges, $1.00 for handling and postage.

All prices given are for the continental USA. Alaska, Hawaii, Puerto Rico, the Virgin Islands and Canada incur an additional $6.00 per hour telecommunications charge. Australian customers incur a $US15.00 per hour telecommunications charge. European customers may access BRS Colleague via BRSNET. For further information on international access, please contact your local Colleague representative.

Footnotes:

(1) NLM has instituted the following surcharge for non-U.S. users (i.e. outside the U.S. and its possessions) of MEDLINE, Health Planning & Administration and CANCERLIT: $3.00 per hour and $.02 per offline document.

(2) This figure represents a total per page charge, rather than a per document charge.

(3) Title-only display format is not available in this database.

(4) Total charge for documents displayed in medium format will vary with the number of HITS paragraphs printed, at $.27 per HIT.

(5) Lower charges available to subscribers of the print version only.

Colleague Encore Service

No matter what the specialty, it's a major problem these days to try to keep up with what's being published in the numerous medical journals now in existence. Traditional answers to the problem of staying up-to-date, such as scanning a few journals each month or talking to colleagues, are time-consuming and not comprehensive.

The Colleague Encore (CE) Service is the answer to this need! Colleague subscribers have the capability to store a search strategy at the end of a search and have the Colleague computer automatically process the strategy against the database each time it is updated. The resulting references are automatically mailed to the user. The beauty of the CE Service is that the search will have to be typed into the computer only once! From then on, the Colleague computer does all the work! Also note that the first 15 citations are free.

Company Name: STN International **Service ID:** CA

Service Name: CHEMICAL ABSTRACTS SERVICE **Contract #:** H74006BOA

Service Description:

STN International (the scientific and technical information network) is an international online system that gives you direct access to the world's best scientific and technical files and makes it easy for you to search and cross-search them. There are presently over 40 files available on STN and these are summarized on the following pages. These files are offered cooperatively by the American Chemical Society (ACS), Fachinformationszentrum Energie, Physik, Mathematik GmbH (FIZ Karlsruhe), and the Japan Information Center of Science and Technology (JICST). STN's files have been chosen to complement and enhance eah other, and they have been selected and designed to meet your more specific scientific data searching requirements.

A truly international system, STN offers databases that originated in several different countries and are based on information from all over the world. Advanced telecommunications services link the STN computer facilities in the U.S. and the Federal Republic of Germany to most nations, allowing searchers around the world to log into STN to access information. (A direct telecommunications facility also links Japan to the network.)

A nonprofit service, STN exists to promote the advancement of the worldwide scientific community by improving the international exchange of scientific and technical information. Unique among online vendors, STN is not owned by any single group or organization. STN is a joint service, sponsored and offered by the ACS, FIZ Karlsruhe, and JICST, with substantial support from the Japan Association for International Chemical Information (JAICI), STN's interim Japanese service center.

A document delivery service is also available for access to journals of the American Chemical Society, all U.S.patents from 1971 relating to the chemical industry. The document delivery service is covered by BOA N74056 which is extended through December 31, 1990.

Pricing Description: Prices provided are FY91 prices.

(see the following pages for the pricing description)

Account Type: Optional Pay - Transfer or Direct

Marketing Representative: Andrew E. Diwik

Address:
STN International
c/o Chemical Abstracts Service
2540 Olentangy River Road
P.O.Box 3012
Columbus, Ohio 43210-0012

Telephone: 800-848-6538 614-447-3600

Notes: You may contact STN and request descriptive literature as well as a copy of their contract with the Library of Congress.

	o First message page (5K)	Page	FREE	FREE
	o Additional pages	Page	0.05	0.05
	o Monthly storage fee (per K)	Per K	0.50	0.50

Notes: Charges for sending messages are based on the number of message addressees and the numb of message pages. There is no addressee fee for sending a message to an STN Service ma ID or for sending a copy to yourself. There is no addressee fee for the first message addressee. The charge for additional addressees is determined by multiplying the lowe applicable rate with the total number of additional addressees. The size of a message page is 5K (5120 bytes), which corresponds to approximately 71 lines of 72 text charact A monthly storage charge is based on the number of kilobytes (K) of space occupied by t message you have read and not deleted (in your mail file and in your folders) and by th name lists you have defined. One K (1024 bytes) of storage corresponds to approximatel 14 lines of 72 text characters.

Attachment 2

Database Titles **Database Specifications & Summaries**

AAASD

Producer: The Aluminum Association, Inc.
Coverage: 1990 Version of the Aluminum Standards and Data Handbook published by the Aluminum Association
File Size: Coverage through 1988
Updates: 1% of the File reloaded every 2-3 Years
File Type: Numeric/Property Data
Content: Materials

The Aluminum Standards and data from the Aluminum and composition limits, typical (average) mechanical and physical properties, and minimum tensile properties of commercial wrought aluminum alloys. Also included are serviceability and application data about all of the alloys.

ALFRAC

Producer: United States Department of Commerce
National Institute of Science and Technology
Coverage: Current Data
File Size: 30,000 records on 500 lots of 21 aluminum alloys
Updates: Reloaded periodically - major update planned for late 1991
File Type: Numeric/Property
Content: Materials

The Aluminum Fracture toughness database (ALFRAC) is a compilation of the results of individual plane strain fracture toughness and, in some cases, associated unevaluated notch-tensile test results for aluminum alloys. The database contains a considerable amount of backup on the testing procedures and parameters indicating the degree to which the results, notably the plane-strain fracture toughness values, Klc, meet the validity requirements of ASTM Standard Method E 399.

ANABSTR

Producer: The Royal Society of Chemistry
Coverage: 1980 to present
File Size: 130,000 citations
Updated: Monthly with 1,000 citations
File Type: Bibliographic
Content: Chemistry

ANABSTR (Analytical Abstracts) covers the worldwide literature on analytical chemistry. Citations contain abstracts (since 1984), names and CAS Registry Numbers of chemical substances, and index terms. The identified elements and compounds (Analyte), the analyzed media (Matrix) or the applied analytical methods (Concept) can be searched.

MARTUF

Producer: Dr. Martin Prager
Materials Property Council
Coverage: Current Data
File Size: Results of about 20,000 individual tests covering the toughness of steels
Updated: Periodically
File Type: Numeric/Property
Content: Materials

MARTUF is a database containing the results of tests on 11 steel alloys, 12 test types with an average of 2 test types per lot covering the toughness of steels identified as most important by the Ship Structures Committee and the U.S. Coast Guard. The support information is particularly complete for this file, including the composition, fabricating practice, and, where applicable, the welding procedures for each of the test samples. Test results have been gathered from the literature; unpublished data has been obtained from producers and agencies.

MDF

Producer: Materials Information
ASM International
Coverage: 1982 to the present
File Size: 11,000 alloy records
Updates: Monthly with 100 alloy records
File Type: Numeric/Property
Content: Materials

The Metals Datafile (MDF), produced by Materials Information in association with ASM and the Institute of Metals, provides extensive numeric materials data. It includes more than 11,000 records covering ferrous and nonferrous alloys. Sources of the data are literature citations from engineering and materials science journals, handbooks, and data sheets.

MH5

Producer: U.S. Department of Defense and Federal Aviation Administration
Coverage: 1987-1989
File Size: 100,000 records
Updates: Reloaded semi-annually
File Type: Numeric/Property
Content: Materials

The MIL-HDBK-5 (MH5) database contains numeric design, mechanical and physical properties for metallic aerospace materials. This database corresponds to the design tables from the Military Standardization Handbook MIL-HDBK-5E, Metallic Materials and Elements for Aerospace Vehicle Structures through Change Notice 2, with the exception of the fastener information (Chapter 8). The contents include steels, high-temperature metals, and aluminum, magnesium and titanium alloys, and all properties covered in the standard design tables.

MPDSEARCH

Producer: Materials Property Data Network, Inc.
Coverage: Current data
File Size: 100 records
Updates: 2-4 times annually
File Type: Numeric/Property
Content: Materials

MPDSEARCH is the guide to computerized materials property databases worldwide. It includes not only the materials property databases available on STN International® and the MPD Network, but approximately one hundred others as well. Included are online and other computer-readable data sources for materials property data which are either publically accessible or privately held.

STEELTUF

Producer: Electric Power Research Institute (EPRI)
Structural Mechanics Group
Coverage: Current data
File Size: 2,900 records
Updates: Periodically
File Type: Numeric/Property
Content: Materials

The STEELTUF database contains unevaluated, individual test results characterizing the toughness of more than 100 grades of steels used in the power industry. The database contains values from more than 15,000 tests. The dominant type of data is Charpy notched bar impact energy, together with the supporting tensile properties.

TRCTHERMO

Producer: Thermodynamic Research Center
Texas Engineering Experiment Station
Coverage: Current Data
File Size: 7,000 substance records
Updates: Updated quarterly
File Type: Numeric/Property
Content: Chemistry

The TRCTHERMO File is a numeric file which contains the evaluated data of the Thermodynamic Research Center. The File features the most frequently used thermodynamic data, including, when available: boiling point, critical compressibility, critical constants, density, dynamic viscosity, ehthalpy, entropy, Gibbs energy function, heat capacity information, melting point, molecular (formula) weight, phase transition information, refractive index, second virial coefficient, surface tension, and vapor pressure.

Company Name: Commerce Clearing House, Inc. **Service ID:** CC
Service Name: CCH ACCESS/ ELSS (Elect. Leg. Search Service) **Contract#:**H74057BOA

Service Description:
CCH ACCESS:

CCH ACCESS is Commerce Clearing House's state-of-the-art electronic legal research and information retrival system. The currnt focus is Federal and State taxation with the following databases or "Libraries" available:

CCH News Library: Contains summaries of Federal and state tax developments reflected in CCH's Tax Day Report.
Federal Taxes Library: Contains the electronic versions of the following CCH publications: Standard Federal Tax Reporter,Federal Estate and Gift Tax and Federal Excise Tax Reporter,Tax Transactions Library, IRS Publications and Internal Revenue Manual. Also Contains full texts of the current IRS Code,court decisions from 1913-present,Irs rulings and Cumulative Bulletin documents.
Federal Tax Archives Library- Contains the IRS Code And explanatory tax materials going back to 1978.
State Taxes Library- Contains electronic version of CCH State Tax Reporters and full text of state tax laws.

ELSS Electronic Legislative Search System:

A legislative bill tracking system. The database contains CCH editorially prepared summary notices of new bill introductions and their corresponding legislative histories for the current regular and special legislative sessions of the 50 states and the US Congress. The database is updated daily and is available for research on a 24 hour, 7 day per week basis. All customers have access to the entire database and may retrieve information by: Subject; Bill Number; Jurisdiction; Sponsor; Date of Action; and Type of Action. A local phone call connects the user's communicating teletype compatible equipment to the database.

Pricing Description: Prices provided are FY91 prices.

CCH **ACCESS:**

Use charges are $20.00/hour at 300 or 1200 baud.

ELSS Electronic Legislative Search System:

Costs incurred will be for actual system usage only. Fees are as follows:

Hours per month	Charge
0-3 hrs.	$235/hr.
4-8 hrs	$220/hr.
over 8 hrs.	$175/hr.

Account Type: Optional Pay - Transfer or Direct

Marketing Representative: Michael C. Carter
Address: Commerce Clearing House, Inc.
1301 Pennsylvania Avenue, N.W.
Suite 1100
Washington, D.C. 20004

Telephone: 202-626-2280 or 1-800-248-3248

Notes: You may contact Commerce Clearing House for descriptive literature and a copy of their contrat with the Library of Congress.

Company Name: Control Data Business Information Services (BIS) **Service ID:** CD

Service Name: American Profile/Eurabank/Valport/X/Market **Contract #:** H74061BOA

Service Description:

o AMERICAN PROFILE

American Profile allows administrators, planners and researchers access to demographic and economic information by combining selected public access to resources with data available solely through companies of the Dun & Bradstreet Corporation. American Profile includes four large proprietary databases that cover the following: Any geographic area of interest in the U.S. can be defined quickly and easily, and the information displayed in a variety of formats. Demographic reports provide a comprehensive socioeconomic picture including the capability to detail the demographic clusters comprising a specific area: economic reports complement the demographic profiles by describing the commercial environment; geographic reports display all of the geographic units in the market area, including census tracts, minor civil divisions, or zip codes; and the comparison, contrast and columnar reports provide information about two or more areas simultaneously in a single, concise format.

EURABANK -- Contains financial information based on the fiscal year-end annual report statements of 4,500 banks in more than 220 countries. This current information provides the database with statements from the most recent five years of representative banks from all worldwide banking center.

VALPORT--A comprehensive portfolio valuation system that contains price, earnings, dividend, and other stastical information on over 60,000 securities.

X/MARKET-- X/MARKET contains business information on 465,000 U.S. establishments in more than 950 industries, including all establishments with 20 or more employees in all Standard Industrial Classifications (SIC). These establishments account for 95% of all U.S. industrial output.

Databases available either on CD-ROM or diskette include:

TRINET-- A marketing and research database that includes information on over 7 million public and private business locations in all sectors of industry.
Also available is the **EURA-CD and EURADISK** that contain essentially the same information available in the on-line databases. These are updated on a weekly basis for EURADISK and monthly for EURA-CD.

Pricing Description: Pricing provided is FY91 prices.

Account Type: Optional Pay - Transfer or Direct

Company Name: Compusearch Software Systems **Service ID:** CF

Service Name: FAR On-Line and FARsearch **Contract #:** H74042BOA

Service Description:

o FAR Online:

A database retrieval and search service which provides local dial-up network access from almost 500 cities in the U.S. Databases consist of federal government procurement regulations. All databases are full text and are continuously updated to ensure timely and accurate information. The regulations are used by the government and industry for the award and administration of proposals and contracts. All databases may be searched for any word or phrase and any part, subpart, section, subsection, provision or clause may be retrieved and displayed. Databases are kept up to date on a continual basis, with updates generally available online within 5 working days of publication of official changes by the FAR Secretariat, DAR Council, etc. FAR On-Line is available 24 hours per day, seven days per week through the Telenet packet switching network. Telenet provides hundreds of local access numbers throughout the U.S. and connections to networks in over 55 other countries.

o FARsearch:

A CD-ROM based database with over 30 databases available in any combination on a single CD-ROM disc. FARsearch offers a flexible search technique that allows for a search of a single word, or by any section or part number.

Pricing Description: Prices provided are FY91 prices.

FAR Online Service:

Installation One Time Charge:

Per Invoiced Account	$80.00
Per Professional ID	$40.00
Per Password Change	10.00
Per ID/PW Deletion	5.00

Usage Charge:	With Monthly Minimum	No Monthly Minimum
Minimum Per Account	$80.00	N/A
Minimum Per ID	$15.00	N/A
Per Connect Hour	$48.00	$60.00

The price of the service is all-inclusive. There are no hidden network charges, nor are there charges for each search or retrieval.

Account Type: Optional Pay - Transfer or Direct **Carryover:** NO

Company Name: Chemical Information Systems, Inc. **Service ID:** CI

Service Name: Online Information Retrieval Service **Contract #:** H74013BOA

Service Description:

The CIS is a collection of over 50 online computerized databases that allows the search and retrieval of chemical information. While each database on the system deals with a unique aspect of chemical information, all of the databases are linked by a common software system. This allows easy crossover between databases and the combining of results files through the use of Boolean operations. The CIS allows full-text searching and retrieval of databases containing information such as toxicity and environmental data, safety and handling information, emergency response, physical and chemical properties, mass spectra and much more. A complete structure and nomenclature search system is available that allows over 350,000 chemicals to be identified by chemical name and tradename, structure, molecular formula and molecular weight. The CIS is available 24 hours per day, seven days a week, worldwide to all subscribers. The features of each component of the CIS are as follows:

AQUIRE - Aquatic Information Retrieval
ARTHUR - Pattern Recognition and Analysis Program
CASR - Chemical Activity Status Report
CCRIS - Chemical Carcinogenicity Research Information System
CESARS - Chemical Evaluation Search and Retrieval System
CHEMLAB - The Chemical Modeling Laboratory
CHRIS - Chemical Hazard Response Information System
CNMR - Carbon 13 Nuclear Magnetic Resonance Search System
CTCP - Clinical Toxicology of Commercial Products
DERMAL - Dermal Absorption
DOF - Drug Information Fulltext
ENVIROFATE - Environmental Fate
FRSS - Federal Register Search System
GENETOX - Genetic Toxicity
GIABS - Gastrointestinal Absorption Database
IFIS - Industry File Index System
IRSS - Infrared Search System
ISHOW - Information System for Hazardous Organics in Water
MAIL - Electronic Mail System
MERCK - Merck Index Online
MLAB/CLAB - Modeling Laboratory
MSDS - Material Safety Data Sheets
MSSS - Mass Spectral Search System
NMRLIT - Nuclear Magnetic Resonance Literature Search System
OHM/TADS - Oil and Hazardous Materials/Technical Assistance Data System
PDR ON-LINE - Physicians' Desk Reference Online
PHYTOTOX - Effects of Organic Chemicals on Terrestrial Plants
RTECS - Acute Toxicity Data from the NIOSH Registry of Toxic Effects of Chemical Substances
SANSS - Structure and Nomenclature Search System
SUSPECT - Suspect Chemicals Sourcebook
THERMO - Thermodynamic Property Values Database
TSCAPP - Toxic Substances Control Act Plant and Production Data
TSCATS - Toxic Substances Control Act Test Submissions
WMSSS - Wiley Mass Spectral Search System

Pricing Description: Pricing provided is FY91 pricing.
(see attached pricing description)

EDIT	30	NMRLIT	65	XMODEM	30
ENVIROFATE	65	OHM/TADS	65		

Certain user options cause a temporary use of a specific database, transparently to the user. While exercising such options, the user will be charged that database's rate, regardless of the database in use when the option was entered. These options, and their rates, are as follows:

Option	$Rate/Hour	Option	$Rate/Hour	Option	$Rate/Hour
CODEN	90	OTSHOW	65	TPSHOW	65
MSHOW	80	REG	90	TSHOW	90
NIOSH	90	SSHOW	90	WSHOW	90

Note 1:

The CIS permits users to store search specifications for certain specialized functions (e.g., structures for chemical searching, mass spectra for identification of samples), as well as save search "hit lists" for future use (e.g., as a search target for later updates, or in conjunction with future strategies) and machine-readable images of search displays ("print-to-a-file") for editing, manipulation, or reprinting. All are billed on a storage-used basis:

$.04/file/day, plus $.04/2560 characters/day

Note 2:

Use of MAIL for electronic messaging is billed at a standard hourly rate of $30/hour. In addition, the recipient is billed for the storage used by the messages created, per Note 1.

Note 3:

The CIS provides two editors plus a "print-to-a-file" capability, to allow users to create machine-readable forms of the display records and then manipulate them at will. The editors are billed at a standard hourly rate of $30/hour; the storage used is billed per Note 1.

Documentation Prices

The following all include mail or UPS Ground shipping in the United States. Faster service is available, and is billed at cost.

User's Guide to The CIS: $46.00 (includes binder; additional binders: $5.75).

Component/Database Manuals (*marks recently rewritten manuals).

Document Delivery Services

TSCATS (TSCA Test Submission) source documents are available, and can be ordered online, as fiche or hard copy:

Microfiche: $1.20/pane
Printed Reports: $.40/page

GIABS and AQUIRE source documents are available, and can be ordered online. Price: $20.25/document, plus a copyright fee of $1.00 to $5.00, depending upon the source.

Company Name: Congressional Quarterly

Service ID: CQ

Service Name: WASHINGTON ALERT

Contract #: H74066BOA

Service Description:

o WASHINGTON ALERT:

Washington Alert is comprised of 10 databases. Most databases are updated daily.

Pricing Description: (Prices provided are FY91 prices.

CORE SERVICE:

- Bill status information
- Committee and Floor Schedules
- Congressional Record Abstracts
- Full text of Congressional Quarterly's Weekly Report
- Roll Call vote results
- Member profiles
- Announcements of documents available from GPO
- Full text of CQ newsletters
- Special CQ reports and reference files
- Many other features

TOTAL	$7,700

Optional Services (available only with purchase of Core Service):

o Full text of bills	$2,000
o Full text of Congressional Record	$2,200
o Full text of CRS Bill Digest	$1,000
o Full text of Committee Reports	$2,000
o Full text of Reuter Transcript Serv.	$2,500
o Full text of Federal Register	$3,500

Note: Telecommunications charges (domestic) outside Washington, DC local dialing area will be billed at $15/hr on the Telenet network.

Account Type: Optional Pay - Transfer or Direct

Marketing Representative: Sherri Locke

Address:
Congressional Quarterly
1414 22nd Street, N.W.
Washington, D.C. 20037

Telephone: 202-822-1412

Notes: Contact Congressional Quarterly for descriptive literature as well as a copy of their contract with the Library of Congress.

Company Name: DataTimes **Service ID:** DA

Service Name: Online Information Retrieval Service **Contract #:** H74005BOA

Service Description:
o DATATIMES

From any computer terminal, DataTimes instantly brings you full text articles, statistics, and reports. You will find valuable information on people, places, businesses and events from the United States, Canada, Australia and The Far East. To pinpoint information close to home, use your city's newspaper database to research clients, competition, prospects and market trends. For a broader perspective, use a combination of newspapers, newswires and financial databases to investigate the nation's politics, labor issues, corporate acquisitions and industry trends. DataTimes is the only online source that provides the valuable combination of The Washington Post, Congressional Quarterly, The Wall Street Journal and The Associated Press Newswire. 80% of the information carried by DataTimes is exclusive and cannot be accessed through any other service.

Access the international databases to follow world-wide issues involving monetary systems, trade practices, global politics and economic forecasts. DataTimes unique international strength is its database representation in nearly every major Canadian market and its comprehensive Australian databases.

Databases include: Associated Press Newswire, Associated Press Political Newswire, Austrialian Newspaper Network, The Arkansas Gazette, Baton Rouge Morning Advocate & State-Times, Chicago Newspaper Index, The Chicago Sun-Times, The Daily Oklahoma City Times, The Daily Texan, The Dallas Morning News, The Harrisburg Patriot, Houston Chronicle, The Journal Record, Minneapolis Star and Tribune, The Orange County Rgister, The San Diego Union and The Tribune, San Francisco Chronicle, The Seattle Times, St. Petersburg Times, USA Today, The Washington Post, The Wall Street Journal, Dow Jones News, Dow Jones News Archive, The Business Lbrary, Business and Finance Report, Dow Jones Tracking Service, Dow Jones QuickSearch, Wall Street Week, Insider Trading Monitor, Japan Exonomic Daily, Investext, Disclosure Online, Media General Financial Services, Economic and Foreign Exhcnage Survey, Zacks Corporate Earnings Estimator, Words of Wall Street, Enhanced Current Quotes, Dow Jones Future Quotes, Dow Jones Historical Quotes, Historical Dow Jones Average, Fidelity Investor's Express, News/Retrieval World Report, News/Retrieval Sports Report, News/Retrieval Weather Report, Magill Book Reviews, Comp-u-store Online, Official Airline Guide, MCI Mail, American Express, Cineman Movie Reviews, Peterson's College Selection Service, Academic American Encylclopedia

Pricing Description: Pricing provided is FY91 pricing.

Option A - $105.00/hour ($75.00 monthly maintenance, no minimum) plus $10/hr.telcom charge.

Option B - $165.00/hour (no minimum, $15.00 per month maintenance fee) plus $10/hr. telcom charge.

Both options incur a $85.00 start-up fee (one time).

Dow Jones News/Retrieval and the International databases offered through DataTimes are billed at $171/hr. Additional fees are associated with selected Dow Jones News/Retrieval databases.

Account Type: Optional Pay - Transfer or Direct

Notes: You may contact DataTimes and request descriptive literature as well as a copy of their contract with the Library of Congress.

Company Name: Digital Directory Assistance, Inc. **Service ID:** DD

Service Name: CD-ROM Based Information Service **Contract #:** H74011

Service Description:

Phonedisc(R) CD-ROM: Phonedisc is a CD-ROM product which can contain up to 60 million white-page telephone listings. Each listing can be fully indexed by name, address, telephone number and ZIP Code. The compression techniques used in Phonedisc production easily allow all listings for 50% of the United States to reside on a single disc. Access time is less that 1 second for any search. When used to replace obsolete hardcopy searches, expensive cross referencing documentation and fiche, Phonedisc can quickly pay for itself in the time saved.

Phonedisc Software: Phonedisc software is menu-driven. In less than 15 minutes, beginners easily learn to do searches.

Hardware Requirements: Phonedisc currently works on an IBM PC, XT, AT or 100% compatibles and any CD-ROM reader using Microsoft CD-ROM Extensions, Version 2.0 or greater.

Phonedisc DiscNortheast: Phonedisc New York and New England contains all the published white-page telephone listings of New York Telephone Company and New England Telephone and Telegraph Company and the U.S. Toll-Free 800 Directory, with listings obtained from AT&T and other sources. Prices vary according to area(s) desired and frequency of updates.

Company Name: DIALOG Information Services, Inc. **Service ID:** DI

Service Name: Online Information Retrieval Services **Contract #:** H74009BOA

Service Description:

o Basic Information Retrieval Service:

The more than 280 databases on DIALOG contain in excess of 120 million records and cover virtually every subject area. The information available on DIALOG can range from a directory-type listing of companies, associations or famous people - to an in-depth financial statement for a particular company - to a citation with bibliographic information and an abstract referencing a journal, conference paper or other original source - to the complete text of a journal article. The search capabilities of DIALOG make it the most powerful online system of its type; many special features are available as well. These include the electronic mail service, DIALMAIL, which allows instantaneous mail delivery worldwide; the online ordering service, DIALORDER, which enables searchers to order the complete text of documents online; and the SDI (current awareness) service which allows a user to have a search run automatically every time the selected file is updated. Selected databases permit the creation of statistical reports, the printing of output on adhesive-backed mailing labels and the output of records in a tagged format to allow manipulation and post-processing of the data. Introductory and advanced training classes and extensive system documentation are available.

o Knowledge Index:

Knowledge Index is a low-cost evening and weekend service designed for the home computer user. The more than 50 databases available on Knowledge Index contain over 25 million references covering a wide variety of subjects. Search strategy on Knowledge Index is simpler than on the standard DIALOG service, and can be easily learned using a self-instructional manual, the Knowledge Index User's Workbook. No training is necessary to use the service, and none is offered. Knowledge Index is a comprehensive reference service for the entire family. In addition, Knowledge Index searchers have access to the electronic mail service, DIALMAIL, which allows the user to send messages, post announcements on bulletin boards and join conferences with other Knowledge Index users.

o DIALOG Business Connection:

DIALOG Business Connection is an applications-oriented service for the business professional. Menu-driven and simple to use, DIALOG Business Connection contains valuable business information from the top names in the field. Business Research Corporation; Disclosure Information Group; Dun and Bradstreet, Inc.; Market Data Retrieval, Inc; Official Airline Guides, Inc; Predicasts; Standard & Poor's Corp; Thomas Publishing Co. Inc; and Trinet, Inc.

The service is organized into five sections: Corporate Intelligence, Financial Screening. Products and Markets, Sales Prospecting, and Travel Planning. No training or special knowledge is required to obtain instant results from DIALOG Business Connection. The searcher merely chooses the type of information desired, and menus within each of the sections enable the user to retrieve results specifically tailored to his or her needs. A subscription to DIALOG Business Connection includes a user's manual and a special version of DIALOGLINK software. DIALOG Business Connection is available the same hours as the standard DIALOG service.

o Medical Connection:

Medical Connection is an easy to use, comprehensive service for the biomedical researcher or the medical professional. Menu-driven and command search modes are available, allowing the new or experienced searcher maximum flexibility. Databases available via DMC are grouped into three categories: the Medical Reference Library including databases such as Medline, Embase and Drug Information Fulltext; the Bioscience Reference Library for databases such as Biosis and the Life Sciences Collection; and the General Reference Library with access to Magazine Index, the Academic American Encyclopedia and other broad information sources. A subscription to the DIALOG Medical Connection includes a reference manual and optional DIALOGLINK PC Communications software; no training is necessary.

o DIALOG OnDisc ERIC(tm):

DIALOG OnDisc ERIC is the first database mode available in the new DIALOG CD ROM service. In addition to the complete search functionality of the DIALOG online retrieval system, DIALOG OnDisc offers an easy menu mode which allows walk-up use by library users. A fixed annual subscription price allows unlimited access to DIALOG OnDisc for users and library staff, simplifying the budgeting process. The ERIC database, offering comprehensive coverage of more than 700 educational journals, is available in two versions: complete (1966 to present) and current (1981 to present). Both versions are updated with new information quarterly. Future databases in the DIALOG OnDisc family will include Medline.

o DIALMAIL:

DIALOG's electronic mail service is automatically available to all DIALOG and KNOWLEDGE INDEX searchers. In addition, non-searchers wishing to use DIALMAIL may apply for a mail-only password which allow access to the service. In addition to the delivery of messages both online and via U.S. Mail, DAILMAIL also offers public and private conferences and bulletin boards, and the ability for users to direct search results to their DIALMAIL inboxes. DAILMAIL users are able to communicate with each other, with DIALOG staff, and with database suppliers via this easy-to-use service.

Pricing Description: Prices provided are FY91 prices.
(see attached price list)

FEDLINK members receive a $15.00/connect hour discount on the DIALOG information retrieval services.

Account Type: Transfer Pay Only

DIALOG INFORMATION SERVICES, INC.

ITEM NO.	SUPPLIES/SERVICES	QUANTITY	UNIT	UNIT PRICE	AMOUNT
4005	**DISCOUNT SCHEDULE** Discounts on CDROM products will be granted according to the following table, and notes below	2-4	Ea.	10%	
		5-9	Ea.	12%	
		10-29	Ea.	15%	
		30+	Ea.	20%	

Notes:
The discounts shown above apply to new subscriptions and subscription renewals made during the period of this Agreement.

Discounts shown are for the total quantity of subscriptions and renewals, and apply to the order as it is placed. Example:

a. An order, the first, is placed for 2 subscriptions. Both products are elible for a 10% discount.

b. An order, the first, is placed for 1 subscription. No discount is given. A subsequent order is placed for 4 subscriptions. This second order brings the total to 5. Subscriptions 2-5 are eligible for a 12% discount, but the price for the first subscription is not retroactively affected.

Any product mix may be used in cumulating the quantity.

Company Name: Dow Jones & Company, Inc. **Service ID:** DJ

Service Name: Online Information Retrieval Service **Contract #:** H74019BOA

Service Description: Dow Jones News/Retrieval is the premier electronic information service offering easy access to current up-to-the-minute business and financial news and information about specific companies, markets, industries or investments to historical information that provides business, financial or marketing perspective. With more than 40 databases of information Dow Jones News/Retrieval provides exclusively full-text articles from The Wall Street Journal back to January 1984 and stories from the Dow Jones News Service, as recent as 90 seconds. The service includes Dun's Financial Records, with comprehensive financial information on 750,000 public and private companies; Disclosure Online, which provides company profiles and other data on 10,000 public companies; Investext, which features full-text research reports from top analysts; QuickSearch, which obtains information from several News/Retrieval sources in one command; Business Dateline, which provides full text selected articles from over 140 regional business journals; and Business Library, with selected articles from Forbes, Fortune, Money, Inc., Financial World, and PR Newswire.

Pricing Description: Prices provided are FY91 prices.

DOW JONES NEWS/RETRIEVAL:

Corporate Membership Plan:	$75.00 monthly subscription fee 33-1/3% discount on standard usage (prime or non-prime) No start-up fee; 10 free hours
Standard per-minute charge:	Prime Time: $o.70 to $2.90 Non-Prime: $0.14 to $1.00

(Detailed cost information is attached)

Account Type: Optional Pay - Transfer or Direct

Marketing Representative:

ITEM 1001b
START-UP FEES

Membership Plans

Dow Jones News/Retrieval is available under three membership plans.

■ Corporate Membership

If you access News/Retrieval 1-1½ hours per month during prime time, you should consider the Corporate Membership Plan, which can yield substantial savings over standard per-minute charges.

- ☐ $75 monthly membership fee per account per location
- ☐ 33⅓ % discount on standard prime and non-prime time, per-minute charges and 2400-baud information unit charges.
- ☐ 10 free hours*
- ☐ No annual service fee

■ ~~Standard Membership~~

- ☐ ~~$29.95 start-up fee per account~~
- ☐ ~~3 free hours*~~
- ☐ ~~$18 annual service fee waived first year~~
- ☐ ~~Standard per-minute charges apply~~
- ☐ ~~Membership limited to new subscribers on a one-time only basis.~~

■ ~~Blue Chip Membership~~

~~If you access News/Retrieval 1-1½ hours per month during non-prime time hours, Blue Chip Membership per-minute discounts can save you money over standard charges.~~

- ☐ ~~$29.95 start-up fee per account~~
- ☐ ~~$95 annual membership fee per account per location~~
- ☐ ~~33⅓ % discount on standard non-prime time, per-minute charges and 2400-baud information unit charges~~
- ☐ ~~3 free hours*~~
- ☐ ~~No annual service fee~~

ITEM NO. 1002a

Database Usage Charges - Special Fees

//DB (Dun's Financial Records PLUS℠) has additional charges of $24 for each History and Operations report, $42 for each Company Profile, $79 for each Financial Records report or $96 for "ALL" (Company Profile plus Financial Records report). **//DB is not available to Canadian customers.**

//DSCLO (Disclosure Database®), **//SP** (Standard & Poor's Online®), **//WATCH** (Corporate Ownership Watch) and **//WORLDSCOPE** (Worldscope®) have a document charge of $9 per company search during prime time and $3 per company search during non-prime time (three Disclosure ownership files have additional document charges of $9 each during prime time and $3 each during non-prime time).

//FIDELITY (Fidelity Investor's EXPRESS™) has a monthly account fee of $12, but no per-minute charge for access.

//INVEST (Investext®) has an additional charge of $1.25 for each *Information Unit* (1,000 characters including spaces and return keys) transmitted at all baud rates. Neither the 2400-baud Information Unit charge nor Corporate/Blue Chip discounts apply.

//MCI (MCI Mail®) has no per-minute charge for access. There is a $25 annual mailbox fee. Charges for sending a letter vary depending on the type of delivery. See //FYI for details and how to register.

//QUICK (Dow Jones QuickSearch℠) The "ALL" command is charged at a flat rate of $45 each time it is used. There are no per-minute or document charges. Free-time offers do not apply to the "ALL" command. When making individual QuickSearch selections, document charges apply to Corporate Ownership Watch, Disclosure and Standard & Poor's and Information Unit charges apply to Investext.

//RTQ (Dow Jones Real-Time Quotes℠) requires special monthly exchange fees. Call Customer Service at 1-609-452-1511 for information.

//TEXT & TEXTM (Dow Jones Text-Search Services℠) "ALL" command has an additional $.40 per-minute surcharge during both prime and non-prime time.

//TRACK (Dow Jones Tracking Service℠) has a monthly storage fee of $8 per password.

//TRADELINE (Tradeline®) has additional charges:

Screening Reports	$5.00 per screening plus $0.25 per issue listed
Profit & Loss Reports	$1.00 per report plus $0.15 per issue listed
Price History Reports	$0.05 per daily, weekly, monthly or quarterly quote
Dividend Report	$0.15 per dividend
Stock Snapshot	$1.25 per issue
Directory (Issue Lookup)	$0.25 per search

REMINDER: Special fees are excluded from start-up free time offers.

***FEDLINK FY '91 Services Directory*, April 1991**

Company Name: D-S Marketing, Inc. **Service ID:** DS

Service Name: DATA-STAR Online Info Retrieval Service **CONTRACT #:**H74012BOA

Service Description:
Data-Star offers a wide range of databases (over 200) in the fields of:

Biology/Medicine
Chemical
Reference Databases
Free Training Files
Official Airline Guide
Business
News Databases
Technology
System Files
TRADSTAT

The Data-Star system is simple to use, and is normally available 22 hours of every day. Due to maintenance, the system is not available during the following hours: 0430 to 0600 Monday thru Friday and 0600 to 0900 on Saturdays.
Data-Star currently serves as a gateway to Fiz Technik, a German vendor specilizing in engineering and industrial management information.

Pricing Description: Pricing provided is FY91 pricing.

(See pricing on attached sheets)

data-star
A service of Radio-Suisse

World Trade Statistics Database

Tradstat holds official government import/export information on all reported commodities (over 60,000 products) from Europe, Japan, Canada, Taiwan, South America and the USA. This computer-based system was developed in conjunction with several of the world's major chemical companies brought together by the EPCA (European Petrochemical Association). It has now expanded to provide comprehensive trade for all industry sectors.

Tradstat simplifies and speeds access to meaningful import/export details. It replaces the cumbersome books available from individual governments, which are generally several months out of date. Through this computerised approach, relevant statistics can be obtained at the touch of a terminal key rather than by the painstaking process of working through several books. An easy-to-use menu gives immediate access to any of the 24 report formats.

The import/export data provided is used in a wide variety of business areas, from market research to distribution. The statistics provide the basis on which to make decisions concerning new markets and pricing, with the ability to react to trends and new developments.

The Database

Monthly and annual import/export figures detailing trade between the rest of the world and

FRANCE
BELGIUM
NETHERLANDS
GERMANY
ITALY
UK
IRELAND
SPAIN
PORTUGAL
NORWAY
SWEDEN
FINLAND
AUSTRIA
SWITZERLAND
USA
CANADA
BRAZIL
ARGENTINA
JAPAN
TAIWAN
HONG-KONG

Stored by detailed customs product code classifications (e.g. Harmonised System), the data includes

- **Reporting Country**
- **Trading Countries**
- **Port Breakdown**
- **Monthly Figures**
- **Cumulative Year to Date Figures**
- **Values**
- **Prices**
- **Weights**
- **Alternative Quantities (volume/units)**

The Service

Statistics are acquired directly from the customs offices of the reporting countries on computer tape. The database is updated immediately on their receipt, making Tradstat the most up-to-date service available.

Reports

Instant analyses are available through online communication with the database, or you can request 'standing orders' to receive regular trade updates for your product.

Standard reports on a selected product allow the data to be presented in a variety of ways. For example:

- ∇ ***Ranked reports*** showing volume, value and price of trade between a reporting country and its key trading partners
- ∇ ***Trend reports*** giving annual month-by-month trends by volume, value and price
- ∇ ***Deduced trading trends*** for non-reporting countries
- ∇ ***Matrix reports*** comparing figures supplied by reporting countries

Features

- ∇ Relevant data only
- ∇ Simple menu and help command
- ∇ Latest monthly figures
- ∇ Product code look-up
- ∇ Choice of currencies
- ∇ Choice of quantity (weight, units, volume)
- ∇ Monthly cross-exchange rate
- ∇ Standing order reports
- ∇ Downloading capabilities
- ∇ Customised client reports

MAIL

DATA-MAIL

Data-Mail is Data-Star's electronic mailbox service. Use Data-Mail to communicate easily with Data-Star Help-Desks, database producers and other users, and to receive SDIs and Printoffs at your terminal the day after processing.

Access Data-Mail

Use Data-Star NUA: **+22846431007014**
You will see the Radio Suisse Services menu:

```
1 DATASTAR
2 DATAMAIL
3 OFFICIAL AIRLINE GUIDE
4 PRESS
9 DISCONNECT
ENTER YOUR CHOICE_:
```

Choose Data-Mail by typing **2** or **MAIL**. Change to Data-Mail from Data-Star by typing

..C MAIL

If you have not registered as a Data-Mail customer on the Data-Star Agreement, the first time you do this the system will prompt you through a questionnaire. During this registration process (which is free of charge), you will receive information on Data-Mail. You will be asked to give your Mailname (last name, initial, first name), and to agree to Data-Mail terms. We will then verify your subscription entry and have your Mailname validated within the next 24 hours.

Read and send messages

Commands

SCAN	Displays a summary of the messages in one of your files.
READ	Displays one or more messages on your terminal.
COMPOSE	Helps you to compose a message. Prompts you for all parts of the message. End message with a carriage return, a dot (.) and another carriage return.
SEND	Sends the message you have composed.
ANSWER	Helps you to compose a reply to the message you have just read.
FORWARD	Forwards to other subscribers one or more of the messages that have been sent to you.
DELETE	Deletes messages or files that you no longer need.
FILE	Stores messages in files. Creates new files when necessary.
HELP	Gives full details of all Data-Mail commands.
LOGOUT	Ends the Data-Mail session.

The file where all your messages both sent and received are kept is called **CHRONO**. **SCAN CHRONO** to see these. To keep this file small, messages older than 7 days will automatically be deleted from the **CHRONO** file.

You can send messages to:

- ∇ London Help-Desk
- ∇ Bern Help-Desk
- ∇ Frankfurt Help-Desk
- ∇ USA Help-Desk
- ∇ Paris Help-Desk
- ∇ Goteborg Help-Desk

10. OTHER SERVICES

Official Airline Guides

The Official Airline Guides, Electronic Edition Travel Service, is the world's largest provider of unbiased, comprehensive and accurate travel information. It provides users with scheduled flight information on over 600 airlines worldwide, fares, seat availability, hotel details and other travel related information.

Features include:

- ∇ Over 2 million worldwide direct and connecting flights
- ∇ Flights in chronological order around the specified departure time
- ∇ Over 950,000 worldwide fares
- ∇ Rules and restrictions applicable for each fare
- ∇ Fares are linked to flights
- ∇ Weekly update of flights - 60,000 changes on average
- ∇ Daily update of fares - averaging 55,000 changes nightly
- ∇ Information on 37,000 hotels and motels
- ∇ Nearest airport listing
- ∇ Easy-to-use commands
- ∇ In-depth country information worldwide including population, geography and history
- ∇ Passport, visa and health information
- ∇ Public holidays
- ∇ Currency exchange rates
- ∇ Travel industry news items
- ∇ Worldwide cruises

PRESS

This service brings you news as stories break during the day. Initially news is contributed from the Swiss News Agency, in both French and German, and by USA TODAY.

The new stories are added as they are produced by the journalists, the data being updated every few minutes.

The PRESS service is menu-driven. The news is divided into sections selectable by title.

PRESS contains only today's news. The data is archived on Data-Star. Back data can be found in:

ATSA for Swiss News in French
SDAA for Swiss News in German and
USAA for USA TODAY.

11. ASSOCIATED SERVICES

FIZ TECHNIK

FIZ Technik specialises in engineering and industrial management information and is the leading provider in this field in Germany. FIZ Technik provides references to technical and business literature, to manufacturers, products and contacts, and references to technical standards and specifications.

Production of Databases

FIZ Technik continuously evaluates the technical, scientific and business literature in the following areas:

- Mechanical engineering and production engineering (DOMA)
- Electrical engineering, electronics power engineering, data processing, measurement and control (ZDE)
- Biomedical engineering (MEDITEC)
- Management and organisation (BEFO)

These databases are also made available on magenetic tape.

Document Delivery

FIZ Technik supplies full-text copies of the original documents. Orders can be placed in writing, by telephone or online via your terminal.

Company Name: Global Transactions, Inc. **Service ID:** GT

Service Name: JUSTIS CD-ROM **Contract #:** H74014BOA

Service Description:

- **JUSTIS CD-ROM**

JUSTIS CD-ROM is the Celex official Legal Database of the European Economic Community. CELEX is produced by the European Commission and is organized into the following sectors: Treaties; Legal Acts; Secondary Legislation; Preparatory Works; and Case Law. Each of the sectors of the database represents part of over 60,000 documents, 24,000 laws currently in force, in full text, with document number , full title, dates of publication, history, and cross references. The Case Law sector contains abstracts of all cases heard by the European Court of Justice since 1961.

The search software is resident on the individual CD-ROM to facilitate the use of the product and information contained thereon. The CD-ROM is updated twice yearly.

Pricing Description:

IOD - H74216 BcA

Section B - Document Per Page Rate

$.30 per page additional for each order filled from a Staffed Source.

Page charges are not applied to documents retrieved from the IOD Biomedical Collection or the IOD NTIS Report Collection

Section C - Copyright Fee

IOD checks all documents to determine if there are copyright fees applicable. When a copyright fee is applicable, the client is billed at cost.

Section D - Ordering Processing

$1.00 per item ordered manually (telephone, mail, facsimile)

Manual order processing fee is not applied to documents retrieved from the IOD Biomedical Collection or the IOD NTIS Report Collection.

Section E - Citation Verification Fee

IOD will verify document citations when required and assess for FEDLINK clients at a flat rate of $7.50.

Section F - Cancellation Fee

$3.00 send back charge per unfilled order.

Section G - Priority Service Fee

$13.00 per item

The priority service fee is applied to all RUSH orders and is non-refundable for cancelled items.

Section H - Delivery Charges

1. Regular Order Delivery

   Regular orders will be delivered by U.S. postage at no charge.

2. Overnight Express Delivery

   Documents up to 25 pages: $17.00 per item
   Documents 25 pages or more: $28.00 per item

IOD - H74216-BoA

3. Facsimile Delivery

$20.00 per document plus $.50 per page
Maximum number of pages per document that IOD will deliver by facsimile transmission is 30.

Section I - Administrative Services Fee

A ten percent administrative fee for support services will be applied to the total of each order.

CHAPTER II - DISCOUNTS

Group Volume Discounts

IOD offers group volume discounts. Documents ordered by members of the FEDLINK contract will be billed at a discounted document rate. That rate is determined by the total number of orders placed and filled each month by all members of FEDLINK as a group. (See Chapter I, Section A for volume discount rates.)

Company Name: Information Handling Services Service ID: IM

Service Name: Haystack BOA #: H74046BOA

Service Description:

• HAYSTACK: An electronic database and software system that allows immediate and complete online identification of nearly 13 million parts and products in the Federal Supply System. Haystack is offered in a full range of delivery options including single-user CD-ROM systems, on
line systems with custom telecommunications and standalone multiple-user LAN
based systems. Included with the Haystack system is training by a Field Support Group, a toll free hotline and extensive online help. The following databases are included in Haystack:

- Commercial and military part numbers for nearly 13 million items
- National Stock Numbers (NSN) and the National Item Identification Number (NIIN) that the Government has assigned to each item (MCRL)
- Federal Supply Class (FSC)
- Item descriptions for each part including technical characteristics • The Commercial Activity Government Entity (CAGE) code for all manufacturers, including names and addresses (formerly known as FSCM, FSCNM, and NSCM codes)
- Army Master Data File (AMDF)
- MOE rule data
- Procurement history file
- SPCC Data MIAPL, CRT, APLs and Standard Data Element Dictionary
- ASO Data P2300/2310/2330
- Navy Master Repairable Item List (MRIL)
- DO43 Air Force Interchangeability and substitutability Files
- DO49 Air Force Master Material Support Record
- Navy Master Data File (MLN)
- Cross-Reference Index to Military Specification and Standards
- Pricing and Stocking information for most items of supply

Haystack is offered online, as a multi-user on-site system and a CD-ROM system. On line access is provided through the two major commercial telecommunications networks Tymnet and Telenet US or worldwide. On-site access is provided through the use of PC-based CD-ROM systems. CD-ROM is provided in either a two drive, three drive or four drive system (depending on the number of databases subscribed to.) Access can be obtained in even the most remote locations or areas where the highest security if necessary. Haystack is updated on a continuing basis to ensure accurate and complete coverage. Information in the database can be obtained using keyword, part number, manufacturer's name, NSN, NIIN, FSC, CAGE and any combination of the above. A user may also choose the Parametric Search capability, allowing you to search a part by its technical characteristics. Part numbers can be located regardless of placement of special characters like dashes and slashes, improving accuracy. The system is available 24 hours per day, 7 days per week, with the exception of scheduled maintenance on Sundays. Haystack also provides monthly usage tracking for budget allocations.

Pricing Description: Please see the attached FY'91 pricing information.

Company Name: Information Handling Services **Service ID:** IM

Notes: You may contact the vendor to request descriptive literature as well as a copy of their FY'91 Basic Ordering Agreement (BOA) with the Library of Congress. (BOA number is given above.) If there is any discrepancy between the information on this data sheet and the terms and conditions in the BOA, the BOA shall prevail.

Company Name: Mead Data Central **Service ID:** ML

Service Name: LEXIS and NEXIS **Contract #:** H74038

Service Description:

o LEXIS - is the world's largest full-text legal information retrieval service with over 350,000 subscribers.

o NEXIS - is a full text electronic information service. The NEXIS service contains a selection of 140+ publications, including 14 national and international wire services. An archive of many of the publications goes back 5-10 years. The publications cover a variety of material from the fields of business, finance, politics, technology and general news. The menu-driven system allows the user to search material using any word or combination of words (free-text) or in many cases by using index terms supplied by the publisher.

Full descriptions of the LEXIS and NEXIS services as well as other Mead Data Central services appear on the following pages.

Pricing Description: (See the following pages for FY '91 pricing.)

Account Type: Optional Pay - Transfer or Direct

Marketing Representative: Margaret Hutchison

Address:
Mead Data Central
1050 Connecticut Avenue
Suite 1090
Washington, D.C. 20036

Telephone: 202-785-3550 or 800-368-5868

Notes: You may contact Mead Data and request descriptive literature as well as a copy of their contract with the Library of Congress.

November 19, 1990

Patricia R. Gardner
Acting Chief, Contract and Logistics
U.S. Library of Congress
1701 Brightseat Road
Landover, MD 20785

Dear Ms. Gardner:

As agreed during your recent conversations with Ms. Hutchinson and Ms. Russell, Mead Data Central, Inc., is submitting a request for modification of Basic Ordering Agreement Number H-74038, dated October 1, 1990, between MDC and the Library of Congress. The new terms and conditions will be effective November 1, 1990 and, as agreed by the parties, MDC's October invoices will be governed by the provisions of the current BOA.

I have enclosed the modified pages from the current BOA incorporating the following changes:

> (1) The FEDLINK standard rate remains unchanged (e.g. $120 for LEXIS®/NEXIS® single files), but the Transfer Pay rate will now provide for a $20 per hour discount (e.g. $100 for LEXIS/NEXIS single files). Commitment rates A and B will now provide for a $17.50 and a $37.50 per hour discount respectively. The enclosed Price Summaries show the rates per hour at the standard FEDLINK rate and for each discount level.
>
> (2) FEDLINK will be required to make quarterly prepayments of $500,000 each on or before November 20, 1990, December 15, 1990, March 15, 1991, and June 15, 1991. If a quarterly payment is not made promptly, the Transfer Pay rate will be increased by $ 5 per hour (e.g. $105 for LEXIS/NEXIS single files) for the next quarter.
>
> (3) MDC will make no claim for interest on invoices submitted to the Library of Congress during any period while there is a positive prepayment balance on the Library's account.
>
> (4) The FEDLINK Identification Number will be the only customer identification required on invoices and other documents submitted to the Library by MDC. The Library waives the requirement that MDC use the Interagency Agreement Number and Delivery Order Number on such documents.

(5) FEDLINK will not reject invoices based on insufficient funds during the period while there is a positive Transfer Pay prepayment balance on the Library's account at MDC and the Library will put in place procedures that will minimize such rejections if and when the Transfer Pay prepayment balance is exhausted during a quarter.

We have also added language with respect to our new hours of service that will take effect in early January.

Although it has not been easy to arrive at new rates that meet our concerns and objectives while providing a transition toward your goals for the FEDLINK program, I believe that the renegotiation has been beneficial to both your staff and mine. We now have a better understanding of your direction for the FEDLINK program, and we believe that you learned more about our corporate polices and objectives as well as our perspective on the needs and requirements of the customer agencies. We have also established a constructive working relationship with both the contracting and FEDLINK staff members.

Ms. Hutchinson and Ms. Russell will be working with you over the next few months to implement these modifications and to explore alternative pricing structures that may be desirable for FY1992. We share your desire to have the Request for Proposal out early in 1991, so that FY1992 contracts can be in place by early summer. That should allow your staff, the vendors and the customer agencies to make a smoother transition between fiscal years.

Sincerely yours,

G. M. (Mert) McGill
Vice President, Marketing and Sales
Legal Information Services

(1) Connect Time Charges for The LEXIS Service

(1a) Category 1a

Connect Time Charge per Hour

Most individual files in the LEXIS service; the Auto-Cite service; the Shepard's Citations service; and the Lexsee® and Lexstat™ features

FEDLINK rate	$120.00
FEDLINK Transfer Pay rate.	$100.00
FEDLINK Commitment A rate.	$102.50
FEDLINK Commitment B rate.	$82.50

See Exhibit 1 for a complete list of files in this category.

The charge while browsing any document retrieved through the LEXSEE or LEXSTAT features will be at the Category 1a rates.

USE OR DISCLOSURE OF DATA CONTAINED ON THIS SHEET IS SUBJECT TO THE RESTRICTION ON THE TITLE PAGE OF THIS PROPOSAL.

(1b) Category 1b — Connect Time Charge per Hour

Most federal tax files

FEDLINK rate	$92.00
FEDLINK Transfer Pay rate	$72.00
FEDLINK Commitment A rate	$74.50
FEDLINK Commitment B rate	$54.50

See Exhibit 2 for a complete list of files in this category.

(1c) Category 1c — Connect Time Charge per Hour

Most files in the MILTRY and PUBCON Libraries; the U.S. Code files (including USCODE, USCS and PUBLAW); the CFR and Federal Register files (including ALLREG); the Congressional Record files (including RECORD); and the PRESDC, FAR and agency FAR files in any LEXIS or NEXIS library

FEDLINK rate	$110.00
FEDLINK Transfer Pay rate	$ 90.00
FEDLINK Commitment A rate	$ 92.50
FEDLINK Commitment B rate	$ 72.50

See Exhibit 3 for a complete list of files in this category.

USE OR DISCLOSURE OF DATA CONTAINED ON THIS SHEET IS SUBJECT TO THE RESTRICTION ON THE TITLE PAGE OF THIS PROPOSAL.

(1d) Category 1d — Connect Time Charge per Hour

LEXIS small group files; and most files created through Custom File Selection[8]

FEDLINK rate	$145.00
FEDLINK Transfer Pay rate	$125.00
FEDLINK Commitment A rate	$127.50
FEDLINK Commitment B rate	$107.50

See Exhibit 4 for a complete list of files in this category.

A Custom File Selection that is the equivalent of a higher priced group file will incur a charge equivalent to that for the group file.

(1e) Category 1e — Connect Time Charge per Hour

All LEXIS OMNI and large group files; and TMEGT, TMUS, TMFOR, and TMPORT in the BNA and FEDTAX libraries

FEDLINK rate	$180.00
FEDLINK Transfer Pay rate	$160.00
FEDLINK Commitment A rate	$162.50
FEDLINK Commitment B rate	$142.50

See Exhibit 5 for a complete list of files in this category.

USE OR DISCLOSURE OF DATA CONTAINED ON THIS SHEET IS SUBJECT TO THE RESTRICTION ON THE TITLE PAGE OF THIS PROPOSAL.

(1f) Category 1f — Connect Time Charge per Hour

All files originating in the INCORP and LIENS libraries; INCORP and LIENS files in any other LEXIS or NEXIS library; the BILLS and CNGRES files in the GENFED library; the BILLS file in the CODES and ENVIRN libraries; and the DESIGN, PLANT and UTIL files in the PATCOP library

FEDLINK rate	$240.00
FEDLINK Transfer Pay rate	$220.00
FEDLINK Commitment A rate	$222.50
FEDLINK Commitment B rate	$202.50

See Exhibit 6 for a complete list of files in this category.

(1g) Cross-filed Materials[9]

Files cross-filed into the LEXIS service from other MDC services retain the Connect Time and Printing Charges from their original libraries.

USE OR DISCLOSURE OF DATA CONTAINED ON THIS SHEET IS SUBJECT TO THE RESTRICTION ON THE TITLE PAGE OF THIS PROPOSAL.

(2) Connect Time Charges for NEXIS and Related Services

(2a) Category 2a

Connect Time Charge per Hour

Individual publication files in the NEXIS, APOLIT and MEDIS services; individual company news and brokerage house files in the COMPNY library of the LEXIS Financial Information service; and individual publication files in the INTNEW (International News) and REPORT (Country Analysis Reports) libraries and all files in the ALERT library in the LEXIS Country Information service

FEDLINK rate	$120.00
FEDLINK Transfer Pay rate.	$100.00
FEDLINK Commitment A rate	$102.50
FEDLINK Commitment B rate	$ 82.50

See Exhibit 7 for a complete list of files in this category.

USE OR DISCLOSURE OF DATA CONTAINED ON THIS SHEET IS SUBJECT TO THE RESTRICTION ON THE TITLE PAGE OF THIS PROPOSAL.

(2b) Category 2b — Connect Time Charge per Hour

The QUOTES library and most files in the COMPNY library of LEXIS Financial Information service

FEDLINK rate	$145.00
FEDLINK Transfer Pay rate.	$125.00
FEDLINK Commitment A rate	$127.50
FEDLINK Commitment B rate	$107.50

(2e) Category 2e	

The NEXIS OMNI file; the ALL file in the LEXPAT library; and the TOPICS and REGION files in the LEXIS Country Information service

FEDLINK rate	$260.00
FEDLINK Transfer Pay rate.	$240.00
FEDLINK Commitment A rate.	$242.50
FEDLINK Commitment B rate.	$222.50

USE OR DISCLOSURE OF DATA CONTAINED ON THIS SHEET IS SUBJECT TO THE RESTRICTION ON THE TITLE PAGE OF THIS PROPOSAL.

Eastern time to 2:00 a.m., Eastern time and 6:00 a.m. to 10:00 p.m. Eastern time on Saturday, Sunday, New Year's Day and Christmas day. However, effective January 5, 1991, the services will be available from 2:05 a.m. - 2:00 a.m. (Eastern time), Monday through Friday; from 2:05 a.m. to midnight on Saturday; and from 12:00 a.m. to 2:00 a.m. and 10:00 a.m. to 10:00 p.m. on Sunday. To provide necessary maintenance for MDC's computer system, MDC may, upon ten days' notice to the Government, designate up to two days in each calendar year on which the Service will not be available. Please refer to Part Nine of the Cost Proposal for MDC's representations and warranties.

5.2 System Response Time.

Two classes of response time are important to an effective and efficient CALR system: search time and browse time. The LEXIS/NEXIS services will process a search in an average of 20 seconds or less. The services will respond to a browse command approximately 90% of the time in an average of one second or less. In addition, LEXIS/NEXIS completes all searches in their entirety (including phrases and proximity searches) before the display of results. Response times are based on averages as of the 2nd quarter, 1990. MDC maintains a complete set of systems

3.1.2 Participant identification.

LOC waives the requirement for the Delivery Order Number and the Interagency Agreement Number to be used in correspondence and other documents. The FEDLINK ID will be used in lieu of these numbers.

3.2.2 Information provided on invoice.

LOC waives the requirement for the Delivery Order Number and the Interagency Agreement number to appear on invoices and related documents. The FEDLINK ID will be used in lieu of these numbers. Exhibit 3.2.2 provides a table showing the relationship between phrases that are commonly used on MDC invoices and the corresponding contract line item number (CLIN) from Schedule B.

3.2.3 Number of copies.

MDC will provide multiple copies of each invoice. LOC will use all reasonable efforts to deliver one copy to the Transfer Pay User within ten working days of receipt of such invoices.

3.3 Invoice Payment.

MDC assumes that FEDLINK, the Transfer Pay Users and the Direct Pay Users are all bound by these contract provisions and that all undisputed amounts will be paid promptly.

3.4 Interest Payment.

MDC assumes that FEDLINK, the Transfer Pay Users and the Direct Pay Users are all bound by these contract provisions and that all undisputed amounts, and applicable interest payments, if any, on undisputed amounts, will be paid promptly. However, MDC stipulates that it will make no claim for interest on invoices submitted to the LOC during any period while there is a positive prepayment balance on LOC's account.

3.5 Accurate and Timely Payment Information.

3.5.1 Prepayments.

Prepayments must be accompanied by the prepayment invoice or reference the prepayment invoice number, date and amount.

3.5.2 Other Payments.

Other payments must be accompanied by appropriate remittance advice, including the invoice (or the invoice number, date and amount), and a list of detailed adjustments to the invoice, unless previously provided under Section 3.5.3 below.

3.5.3 Adjustments.

All adjustments (particularly deductions) to MDC invoices must be accompanied by appropriate remittance advice which shall include at least the agency name, MDC bill group number (firm ID), dollar amount of the adjustment, and reason for any adjustment. Adjustments made for the same reason should be grouped together.

USE OR DISCLOSURE OF DATA ON THIS SHEET IS SUBJECT TO THE RESTRICTION ON THE TITLE PAGE OF THIS PROPOSAL

4.1 Initiating Direct Pay Services.

Supplemental delivery orders which increase or decrease the value of a purchase order, cancel service, or otherwise amend the participant's IAG, must be provided to MDC within five working days of their receipt by FEDLINK. The ten days notice required by MDC for cancellation of service will commence upon receipt of notice of cancellation from FEDLINK.

4.2 Participant Identification.

LOC waives the requirement for the Delivery Order Number and the Interagency Agreement Number to be used in correspondence and other documents. The FEDLINK ID will be used in lieu of these numbers.

4.5 Payment of Invoices for Direct Pay Accounts.

MDC assumes that Direct Pay Users are all bound by the provisions of Sections G.3.3 and G.3.4 above and that all undisputed amounts, and applicable interest payments, if any, on undisputed amounts, will be paid promptly.

USE OR DISCLOSURE OF DATA ON THIS SHEET IS SUBJECT TO THE
RESTRICTION ON THE TITLE PAGE OF THIS PROPOSAL

H.2 QUARTERLY SUMMARY REPORT

LOC waives the requirement for the Delivery Order Number and the Interagency Agreement Number to be used in Quarterly Reports and other documents. The FEDLINK ID will be used in lieu of these numbers.

COMPANY: The Professional's Library **SERVICE ID:** MP

SERVICE: Specialized Books **BOA NUMBER:** H74213

BASIC SERVICES:

Publications: Professional's Library will supply both materials generally available in the US and those not generally available in the US in all categories defined by FEDLINK: Association, Audio-Visual, Foreign, Government, Legal, Medical, Non-English Language and Scientific-Technical. Professional's maintains an inventory of current materials - including many military titles - but supplies most special publications through order from the publisher.

Orders: Customers may place orders through the mail, fax, or online. A quarterly newsletter highlights pre-publication information and items in stock.

PRICING: See the attached schedule B pricing information.

ACCOUNT TYPE: Transfer Pay or Direct Pay

RESTRICTIONS: A Blanket Purchase Agreement issued by a contracting officer will authorize users to place orders with the vendor. Only individuals authorized on the BPA may place orders and the aggregate of all individual orders may not exceed the NTE amount identified on the user's BPA. Individual orders in excess of $25,000 must be placed by a contracting officer: for Transfer Pay an LC Contracting officer, for Direct Pay a local contracting officer.

COMPANY: Rittenhouse Book Distributors **SERVICE ID:** MR

SERVICE: Specialized Books **BOA NUMBER:** H74202

BASIC SERVICES:

Publications: Rittenhouse Book Distributors will provide publications in print or audio-visual format in the Medical and Scientific-Technical subject categories. Both materials generally available in the US and non-US materials are available. Rittenhouse specializes in medical and allied health science materials, maintaining an extensive inventory in these areas and routinely placing special orders for items not in stock.

Orders: Rittenhouse will accept regular and rush orders via telephone, fax, US mail, electronic mail, and online through the Rittenhouse system. Rittenhouse produces catalogs of available publishers and materials.

OPTIONAL SERVICES:

Approval Plan: Rittenhouse offers an approval plan based on customer profile.

Physical and Technical Processing: Rittenhouse can provide physical, technical, or complete processing of books. Customers may request a circulation kit (pocket, circulation card, spine labels) and barcode labels. Catalog card sets or MARC records Dewey, LC, or NLM call numbers, and LC, Sears, or NLM subject headings are also available.

Automated Order Control System: Customers may dial in to Rittenhouse's online system to chekc stock and prices, place orders, track orders in process, send electronic mail, and check approval plan titles.

PRICING: See the attached schedule B pricing information.

ACCOUNT TYPE: Transfer Pay or Direct Pay

RESTRICTIONS: A Blanket Purchase Agreement issued by a contracting officer will authorize users to place orders with the vendor. Only individuals authorized on the BPA may place orders and the aggregate of all individual orders may not exceed the NTE amount identified on the user's BPA. COMPANY: Midwest Library Service **SERVICE ID:** MW

SERVICE: Specialized Books **BOA NUMBER:** H74209

BASIC SERVICES:

Publications: Midwest's areas of specialization include current and retrospective books published and distributed in the US. Midwest can supply English-language foreign publications and scientific-technical publications. Midwest maintains an inventory of current titles in these subject areas and routinely places special orders for items from small and hard-to-locate publishers.

Orders: Customers can place order through the mail, telephone, fax, electronic mail or Midwest's online system, ACQcess MLS.

OPTIONAL SERVICES:

Approval Plan: Midwest offers an approval plan which provides comprehensive coverage of university press publishing. Customers may establish profiles based on subject and non-subject and publisher.

Physical and Technical Processing: Midwest can supply physical, technical, or complete processing of books. Cataloging data is available in card and label sets, MARC tape or diskette. Dewey, LC and NLM call numbers and LC, Sears and NLM subject heading are available. Circulation kits (card, pocket, label), barcodes, and paperback cover-ups or binding are also available.

PRICING: See the attached Schedule B pricing information.

ACCOUNT TYPE: Transfer Pay or Direct Pay

RESTRICTIONS: A Blanket Purchase Agreement issued by a contracting officer will authorize users to place orders with the vendor. Only individuals authorized on the BPA may place orders and the aggregate of all individual orders may not exceed the NTE amount identified on the user's BPA. Company Name: NewsNet, Inc. **Service ID:** NS

Service Name: NEWSNET Information Retrieval Service **Contract #:** H74017BOA

Service Description:

o NEWSNET: NewsNet is a full-text online business news service providing timely, industry-specific information primarily in the form of newsletters and newswires. Over 35 industries and professions are covered including telecommunications; aerospace and defense; banking, finance, taxation and investments; education and religion; Government and law; and international business and affairs. NewsNet is composed primarily of business newsletters and eleven domestic and international newswires delivered in full-text with virtually no time embargoes (refer to the following News on NewsNet for specific titles). Since all newsletters are archived and available online, NewsNet provides a vast, time-saving source of indexed, keyworded newsletters. Using NewsNet's powerful SDI service, NewsFlash, subscribers can monitor the database continually, 24-hours per day, seven days a week for topics relevant to their areas of interest and create customized news reports daily. Because much of the database is exclusive, NewsNet is the perfect complement to broad-based, archive databases.

Pricing Description: Prices Provided are FY91 prices.

(see the following pages (B-1and B-2) for pricing description.

Account Type: Transfer Pay Only

Marketing Representative: Marilyn Hughes

Address: NewsNet, Inc.
945 Haverford Road
Bryn Mawr, Pennsylvania 19010

Telephone: 800-345-1301 or 800-537-0808 in Pennsylvania
(215-527-8030 outside the U.S.)

Notes: You may contact NewsNet and request descriptive literature as well as a copy of their contract with the Library of Congress.

L.4.1. NewsNet's complete and detailed cost breakdown follows:

NewsNet Service Rates

-->Connect Rates (per connect hour)

- o Connect rates are billed to the nearest minute. Network telecommunications charges are included (Telenet and Tymnet surcharges within the U.S. only; long distance charges, if any, are not included. Subscribers outside the U.S., refer to the NewsNet Reference Guide for details on international access.).

- o Basic Connect Charge (one-minute minimum per session):

300 and 1200 baud	$60.00/hour
2400 baud	$90.00/hour

Note: These rates are subject to premiums for higher access speeds and do not include publisher READ surcharges.

-->Subscription Fee

- o A subscription fee, payable annually ($120), semi-annually ($75), or monthly ($15) is applicable at time of sign-up.

- o The minimum subscription period is 30 days. Written notice of cancellation is required.

-->Introductory Offers

-->Multiple Account Discounts

NewsNet's Corporate Subscription Plan offers significant reductions in subscription fees, along with substantial volume discounts for usage charges.

- o Annual Subscription Fees:
  First ID..................................$120.00
  IDs 2 through 5.........................$60.00 each
  No additional subscription fees beyond 5 IDs (maximum annual subscription fee assessment is $360.00).

- o Volume Discounts
  Discounts are applied to accrued annual totals beginning at $5000.

-->READ Surcharges (service premium for display of copyrighted full text):

- o There is a one-minute minimum per service accessed.
- o Rates are determined by individual publishers.
- o Type PRICES online for a current price schedule.

-->Other Charges

```
o NewsFlash hits (delivery charge)............$0.50/hit
o TRW Reports...........................$36.00/report
                                      (plus online time)
o TRW List Charge (for TRW lists retrieved without
  retrieving any reports. Does not apply when reports
  are retrieved.)...........................$4.00/list
                                      (plus online time)
```

L.4.2. NewsNet is a privately held company.

NewsNet was founded in 1981 by Independent Publications, under the direction of John H. Buhsmer, Vice President of IPI and President of NewsNet. Commercial operation of NewsNet commenced in April 1982. NewsNet is a wholly owned subsidiary of Independent Publications, Inc. Independent Publications, Inc. is a privately held company with diverse holdings in the communications field.

L.4.3. NewsNet Commercial Price List.

The following is an alphabetical listing by title of databases and electronic editions available on NewsNet. Service codes and prices are shown for each. Validated subscribers to print editions (individuals, not companies) receive the VAL rate for READ time. All others are charged the NON-VAL rate for READ time. Only the information provider can authorize validation for the lower READ rate. Special services have no validated rates.

All prices shown are for 300 and 1200 baud access and include all telecommunications and basic access charges. Time spent SCANning headlines and conducting keyword SEARCHes are billed at a flat $60 per hour. There is a 50% premium for access at 2400 baud. There is a one-minute minimum to access any service.

Company Name: Mitsui & Company (USA), Inc. **Service ID:** NT

Service Name: NIKKEI TELECOM **Contract #:** H74004BOA

Service Description:

o NIKKEI TELECOM "JAPAN NEWS & RETRIEVAL":

Nikkei Telecom "Japan News & Retrieval" is an interactive information service covering Japan and South-East Asia. It is uniquely suited as an application for personal computers, office automation systems and organization networks. The service features 18 different menus as well as a supplementary Economic Data Codebook. Much of the information contained is translated from Japanese into English by Nikkei's own translation staff. Therefore, the information is immediately available to subscribes in usable form. The following databases are available:

- News: Full text of major articles from the Nihon Keizai Shimbun, Japan Times, Japan Economic Journal, Nikkei Newsletter on Bond and Money, Nikkei Newsletter on Commodities, Nikkei High Tech Report, Bank of Tokyo Report, Citibank Report, and Chemical Bank Report, and the monthly high-tech journals of ten Japanese Companies such as Fujitsu, Hitachi, and Toshiba.

- Text Search: All the above publications plus an additional 15 publications all with a base year of 1983 or 1985.

- Securities: Contains current and historical data on stock prices, and all publicly traded companies in Japan. Stock indices are also included.

- Bond: Current and historical data on Japanese bonds and foreign Japanese yen bonds.

- Foreign Exchange and Money: Covers current quotes, Tokyo Interbank Exchange Rates and Trading Volumes, Bank of Tokyo Exchange Rates, Tokyo Money Market Interest Rates, and Nikkei Currency Indices.

- Corporate Finance: Contains current and historical consolidated and unconsolidated income statements and balance sheets for all publicly listed companies in Japan. Also includes corporate profiles, Japan Bond Research Institute (JBRI) ratings, and Nikkei's earnings estimates.

- Nikkei Asian Corporate Data: Contains corporate identification and financial information on several thousand corporations in Korea, South-East Asia, and the People's Republic of China.

- Macroeconomic data: Sources for macroeconomic data include the approximately 5 million TIME SERIES from the NEEDS database (Nikkei Economic Electronic Database System. (Major Economic Indicators; Macroeconomic Forecast; International Trade; Industrial Data; Semiconductors and Electronics Products)

Nikkei Telecom may be accessed through any person computer: IBM; IBM compatible, MacIntosh, or dumb terminal. Works on all software communications packages. Access is by Tymnet or by calling one of Nikkei's NEEDS-NET nodes in Washington, DC, New York or Los Angeles. All communication is at 1200 BAUD.

Pricing Description:

Initial Fee: $100.00 (includes user manual & training session)
Monthly Fee: 10.00 (Maintenance)
Access Charge: $150 per hour ($2.50 per minute). There are no hidden charges for printing, downloading, or for accessing certain files.
Minium usage: 100 minutes/year or $250.00/year.
The first two hours of use during the first three days are free.

All communications charges are separate and are the responsibility of the subscriber.

Account Type: Optional Pay - Transfer or Direct

Marketing Representative: Ron Soriano

Address:
Mitsui USA
1701 Pennsylvania Avenue, N.W.
Suite 400
Washington, D.C. 20006

Telephone: 202-861-0660 or (212) 878-4097

Notes: You may contact Mitsui and request descriptive literature as well as a copy of their contract with the Library of Congress.

Company Name: American Overseas Book Company **Service ID:** OB

Service Name: Subscription Services **Contract #:** H74671BOA

Service Description:

The American Overseas Book Company will furnish all qualified personnel, facilities, equipment and supplies for the placement of new and renewal subscriptions to single or multiple addresses for domestic and foreign serials and periodicals and for related services, to members of FEDLINK.

AOBC will:

1. accept orders via OCLC, CLASS, telex, telephone or mail (Phone access - 8:00 a.m. - 7:00 p.m. EST, Monday thru Friday);
2. order ANY subscription including scientific/technical, medical, legal, association, foreign or foreign language, trade, textbook, mass market paperback, net or short discount and GPO publications;
3. order any quantity from one to thousands;
4. provide detailed lists of items ordered (order confirmation);
5. prepay for you whenever necessary to expedite delivery;
6. complete orders within 60 days for domestic titles;
7. provide management reports;
8. provide physical processing and cataloging.

Pricing Description: (Contract Option exercised via amendment 1 for one (1) year to expire 9/31/91)

Basic Subscription Service

Popular Titles	-5% to +3%
Scientific, Technical & Medical Titles	-0% to +3%

Quantity or Dollar Volume Discounts

AOBC offers a special fee schedule for procurements exceeding $500,000 as an alternative to volume discounts as follows:

Annual Billing	Fee per Subscription
$ 500,001 - $1,000,000	$12
$1,000,001 - $2,000,000	$11
$2,000,001 - $3,000,000	$10
$3,000,001 - $4,000,000	$ 9
$4,000,001 - $ +	$ 8

The cost of the subscription is based on NET cost to the vendor. For popular titles, the discount may be as high as 50%; for technical titles, no discount is generally available. The only known exception is US news and World Report, which requires agents to charge full list price.

Optional Services

Journal Check-In	$18/title
Average Price Index Report	N/C
Check-In Labels	N/C
Local Serials Catalog (non AOBC titles)	$1/title
Local Serials Catalog (AOBC titles)	N/C
Fixed Pricing Invoicing	
Percentage over Publishers List	7%
Union List	$.10/title
Telecommunications	
Time Share Dial Access	$25/hr
WATS	$35hr
Dedicated Line	$300/mo
Record Loading	$3/record

Additional Charges

Listings	$.30/record
Fiche Specification: 35mm negative, 270 frames per fiche, 2-line header	$10/fiche
Tape Specification: 9-track, 1600 BPI	$75/tape

Account Type: Optional Pay - Transfer or Direct

Marketing Representative: Cicely P. Marks

Address: American Overseas Book Company, Inc. (AOBC)
10620 Georgia Avenue #101
Silver Spring, Maryland 20902

Telephone: 301-649-7200 or FTS 202-649-7200

Notes: You may contact AOBC and request a complete packet of their descriptive literature as well as a copy of their contract with the Library of Congress.

Company Name: Online Computer Library Center **Service ID:** OC

Service Name: Online Bibliographic Utility Service **Contract #:** H74029BOA

Service Description: OCLC is a not-for-profit computer library service and research organization providing a family of information systems to a variety of libraries. OCLC operates multifunctional computer and telecommunications systems that support most major library activities, including resource sharing among institutions. Its online system provides immediate access to an extensive bibliographic database, the Online Union Catalog. Available online services include cataloging and interlibrary loan. CD450 is the ERIC database and related indices on compact disc. Available products include catalog cards, union lists, accession lists, magnetic tapes, reports related to serials control and acquisitions. OCLC has recently added EPIC to its offering and a variety of training sessions will be offered to acquaint the user community with EPIC. The EPIC service provides access to both the OCLC database and other databases using the proposed NISO standard search language which includes Boolean operators, keyword and indexed searching strategies.

Search CD450 is a series of CD-ROM based reference tools covering many subjects including records from the OCLC database as well as ERIC, NTIS, AGRICOLA, and other sources.

Training and assistance in utlizing the OCLC system are provided by the FEDLINK Network Librarians for the federal OCLC membership.

The above contract also covers the services rendered by OCLC Europe that were previously listed under a seperate service id.

Pricing Description:

(New OCLC pricing will be effective on or about July 1,1991 at which time new price lists will be available.)

Account Type: Transfer Pay Only **Carryover:** YES

Marketing Representative:

Address: Federal Library and Information Center Committee (FLICC)
Library of Congress
Room LA-1026C
Washington, D.C. 20540

Telephone: 202-707-6454

Company Name: ORBIT Search Services Inc. **Service ID:** OR

Service Name: Online Information Retrieval Service **Contract #:** H74056BOA

Service Description:

o ORBIT SEARCH SERVICE: An online information retrieval system which provides access to key scientific, technical, and patent information in over eighty databases. ORBIT offers the best and most comprehensive collection of patent information databases available online worldwide. ORBIT also offers a comprehensive group of materials sciences databases, and core and exclusive databases in the areas of engineering, energy, and chemistry. Other subjects covered by ORBIT databases are business, health, safety, the environment, computer science and various directories.

All that is required to begin searching ORBIT databases is an ORBIT user ID and a dial-up terminal or a personal computer with a modem and communications software. Access to the ORBIT Search Service computer, which is located in Reston, VA is available through two public data telecommunication networks, Tymnet and Telenet. These networks allow users to access ORBIT by dialing a local telephone number to connect to a terminal which is set in full or half duplex and which operates at 300, 1200, or 2400 BAUD. A brochure called Terminal/Micro Compatibility which provides all the requirements necessary to connect to ORBIT will be provided to the user.

Pricing Description: Prices provided are FY91 prices.

(see the following pages for the pricing description)

A discount of $15.00/connect hour will be applied to all FEDLINK accounts for ORBIT Search Service usage.

Account Type: Transfer Pay Only

Marketing Representative: Richard A. Kurt

Address: ORBIT Search Services, Inc
8000 Westpark Drive
McLean, VA 22101

Telephone: 703-442-0900 or 800-456-7248 or 800-45ORBIT.

Notes: You may contact ORBIT Search services and request descriptive literature as well as a copy of their contract with the Library of Congress.

ITEM 1001a/i

Orbit Search Service is available via TYMNET and TELENET. Telecommunications access via these systems is charged $13.00 per connect hour. Users accessing ORBIT via FTS 2000, MCI Sprint on a prepaid call basis will be charged $5.00 per connect hour.

ITEM 1002a/i

The following list provides database usage charges per hour. Computer connect time is accrued on an "as used" basis with time for each terminal session rounded up to the next hundredth (.01) of an hour. A surcharge of thirty (30) seconds is applicable to each login to the ORBIT Search Service, and billed at the ORBIT database connect hour rate. Databases available, content coverage, currentness, formats and producers are covered in Section C.2.2. Electronic messaging is charged at the database connect rate the user is connected to when using ORBIT's MAIL system.

FOOTNOTES:

* These databases are available on a restricted basis.

** Access to these databases is non-restricted, but lower rates apply to customers in the subscriber category.

Normal offline printing charges from any citations printed offline are also invoiced. These are listed under item 1003b/i. Postage fees are charged at the actual cost to ORBIT Search Service. Stored searches are charged at $.05 per search term per month. This fee is invoiced whether or not the stored search forms part of the SDI Service.

ITEM 1003a/i

The following list gives online print charges for each database offered by ORBIT. Prices are listed for a standard bibliographic print and a full print. Users have the option of customizing their prints in which case the full print rate is charged.

FOOTNOTES:

* These databases are available on a restricted basis.

** Access to these databases is non-restricted, but lower rates apply to customers in the subscriber category.

Postage charges may be incurred for offline printing at the actual cost to ORBIT Search Service.

ITEM 1003c/i

Offline prints may also be transmitted electronically. See FILE PRINTS under Item 1002/i for additional charges for this database.

ITEM 1003d/i

ORBIT offers the GET command, a statistical ranking and report generation facility. Base charge is $3.00 for electronic/offline use and $4.50 for online use. The per record charge is $.07 for CAS databases and $0.01 for all others. The per record charge applies to all records in the set being analyzed.

ITEM 1003e/i

Rush deliveries of offline products are charged $9.75 up to 1/2 lb. (approximately 30 pages).

ITEM 1004a/i

TRAINING COURSE DESCRIPTIONS

BASIC SKILLS

The ORBIT Basic Skills seminar is an introductory course designed for people with little or no online searching experience. The course includes a general introduction to the principles of online database searching and the ORBIT system, in depth discussion of ORBIT system commands and special features, and hands-on practice. A course manual and a practice user id, good for 1.5 hours of free online time on selected files, are included. Lunch is provided.

ADVANCED SKILLS

This workshop is for the experienced ORBIT searcher. Using examples from various databases, commands for advanced searching, statistical analysis using the GET command, and current awareness searching are explored. Also covered are the expanded PRT SEL capabilities, use of the LINK operator and SUBACCOUNT.

PATENTS SEMINAR

This seminar reviews the structure of patent information in general, and the application of that structure in ORBIT's patent databases. Patent literature is reviewed and the major patent files introduced. The concept of patent family searching is also discussed. Advanced techniques for patent searching, including the expanded PRT SEL command, GET, and other new features, are demonstrated. This seminar presumes a basic knowledge of ORBIT. A Basic or Refresher class is strongly recommended prior to this seminar.

ORBIT REFRESHER

The ORBIT Refresher workshop is designed for searchers who are generally experienced with online searching, but are new to ORBIT command language or have not used it in some time. Recent system enhancements are demonstrated.

ORBIT CROSSFILE

This seminar focuses on ORBIT's enhanced techniques for searching multiple databases efficiently and cost-effectively. Commands for crossfile searching, statistical analysis, and current awareness searching are explored in depth. The latest system enhancements are also demonstrated.

MATERIALS DATABASES ON ORBIT

This regional seminar discusses ORBIT's growing file of materials related databases. RAPRA, PIRA, WSCA, Ceramics Abstracts, Engineered Materials Abstracts, Materials Business File, and other ORBIT Materials related databases, many of them exclusive, is highlighted.

CANCELLATION

Cancellations must be received at least two working days prior to the session. Cancellations after that day and no-shows will be billed the full amount.

ORBIT makes every effort to conduct scheduled training courses. Occasionally, courses are canceled and every effort will be made to inform registrants as soon as possible. ORBIT is not responsible for expenses incurred as a result of course cancellation and will reschedule the registrant in the next training class or refund any prepaid registration fee for the canceled course.

Training Courses are held at centralized location throughout the U.S. Charges are quoted per person as follows:

Basic Skills	$125
Advance Skills	$150
Patents Seminar	$150
Materials	No Charge
ORBIT Refresher	$75
ORBIT Crossfile	$75

In addition customized training at facilities of FEDLINK members can be arranged at a cost of $1300 per day.

ITEM 1004a/i

See following page for a complete list of ORBIT documentation and prices.

ITEM 1005b/i

Prepayment Discount Plans may be exercised at the option of FEDLINK at the levels indicated below. A single prepayment for the commitment level must accompany FEDLINK's application. The annual commitment level includes all invoice charges, including telecommunications (North America), offline and online prints, search term charges, etc., after credits and discounts have been deducted. Discounts are calculated on the basis of connect hours used. Discounts will apply throughout the entire commitment period, although the prepayment may be used up prior to the end of the period. Any unused prepayment remaining at the end of the commitment period is forfeited. There is no limitation on the number of user ids which may participate per account.

Annual Prepayment	Discount/Connect Hour
$3000	$4
5000	6
10000	8
20000	10
30000	11
40000	12
60000	13
80000	14
100000	15

Failure to exercise any of these options will result in no discount being given to FEDLINK members.

ITEM 1006/i

a) Taxes

All rates are in U.S. dollars and are exclusive of taxes. Any applicable taxes are payable by FLICC/FEDLINK customers.

b) Miscellaneous charges

The following charges are also applicable:

NTIS

$0.05 per term searched.

INPADOC

$20.00 per patent family searched.

PATENT STATUS

$9.50 per patent number searched.

CA82, CA77, CA72, CA67 (Chemical Abstracts)

$.40 per search term (excluding RN).

$.03 per GET and PRINT SELECT (AN only) extractions.

$.07 per GET and PRINT SELECT on other fields.

$.20 per print AN only online.

$.25 per print AN only offline.

CDEX, CDX2, CDX3, CDX4 (Chemical Dictionary)

$.43 per search term (excluding RN).

$.03 per GET and PRINT SELECT extractions on Registry Numbers.

$.07 per GET and PRINT SELECT extractions on other fields.

$.20 Per print RN only online.

$.25 Per print RN only offline.

CASI (Chemical Abstracts Source Index)

$.33 per search term (excluding RN).

$.03 per GET and PRINT SELECT extractions (JC only).

$.07 per GET and PRINT SELECT extractions (other fields).

$.20 per PRINT JC only online.

$.25 per PRINT JC only offline.

CINF (Chemical Industry Notes)

$.33 per search term.

$.03 per GET and PRINT SELECT extractions (AN only)

$.07 per GET and PRINT SELECT extractions other fields.

$.20 per PRINT AN only online.

Company Name: OCR Services,Inc. **Service ID:** OS

Service Name: U.S. Export/Import Regulations (USER) **Contract #:** H74062BOA

Service Description: OCR Services Inc. offers full text online databases of the Code of Federal Regulations for the U.S Government Agencies having regulatory authority over export/import matters. Database content and coverage is as follows:

U.S Department of Commerce Export Regulations (CFR 15, Part 768-799);
U.S.Department of State International Traffic-in-Arms (ITAR) Regulations (CFR 22)
Alcohol, Tobacco and Firearms Regulations (CFR 27, Part I)
Office of Foreign Assets Control Regulations (CFR 31, Part V)
U.S. Customs Service Regulations (CFR 19,Part I)
Harmonized Tariff Schedules
Nuclear Regulatory Commission (10 CFR 110)
Department of Energy (10 CFR 810)
Patent and Trademark Office (37 CFR Part 5)
Department of Justice- Drug Enforcement Administration (21 CFR 1312.21)
U.S.Department of Agriculture (7 CFR 34.3)
U.S. Department of Interior and the National Marine Fisheries Service
The above databases are updated as changes are published in the Federal Register.

Pricing Description:

Telecommunications Charges	$12.50/hour
Initial Start-up Charge	$200.00/ agency
Database Usage Charge	$40.00/hour
Minimum usage per session	5 minutes or $3.33

Account Type: Optional Pay - Transfer or Direct **Carryover:** NO

Marketing Representative: Mona Babra

Address: OCR Services, Inc.
11200 Rockville Pike, Suite 102
Rockville, Md. 20852

Telephone: 301-881-0532 or Fax 301-231-7238

Company Name: Optical Publishing Inc. **Service ID:** OT

Service Name: NAVLOG/ fedlog/ techlog/ FARsearch **Contract #:** H74037BOA

Service Description:

fedlog™ and fedlog+Plus System: The fedlog™ system includes the following databases:

- o Master Cross Reference List (MCRL), Parts 1 and 2.
- o Management List, Combined (ML-C).
- o CAGE (FSCM Database (H4, H8), including NATO codes.
- o Identification Lists (IL's) for all Federal Stock Classes.
- o Army Master Data File (AMDF) and D043 - Air Force - Interchangeable and Substitution Files.

The fedlog™ and fedlog+PLUS System will perform the following functions:

- o fedlog™ System (MCRL/ML-C/Cage/D043/AMDF) will use ONLY two CD-ROM discs. fedlog™+Plus (which includes IL's) will run on ONLY 2 CD-ROM drives by interchanging one disc with the IL disc.
- o Print feature allows partial or complete record print.
- o fedlog™ Batch System is able to accept external batch input of NIIN's in ASCII format with CR/LF record delimiters and will output ML-C data.
- o Export data in Record format to any designated drive or subdirectory.
- o Help feature includes: General Help (System Level and Context Help (DIDS Manual Definitions).
- o NSN/NIIN data available by NSN, NIIN, and Part Number searches.
- o Wild Card search using Part Numbers.
- o Manufacturer/Supplier data (CAGE) available by CAGE Code Search.

NAVLOG Deluxe: The APL/AEL/CAGE/MOD-FLSIP/"B" Section Databases on two CD-ROM Discs. NAVLOG is a complete APL Research System designed for the U.S. Navy. It's features are:

- o Microfiche print format on demand which provides a unique feature allowing the user to print the compete APL document in the "microfiche format". There are two other print options.
- o Export feature. This unique feature allows the user to export data to another software program in ASCII or SPCC format.
- o Quarterly updates.
- o Only two CD-drives are needed to run NAVLOG.
- o System compatibility with FEDLOG and all other CD-ROM MCRL based systems.
- o Familiar "fiche-like" screen display lets user view complete information on any individual component part. (Speeds searching and saves time.
- o Help feature allows the user to get on-line help and on-line definitions of fields and terms.

techlog and techlog+Plus: These databases satisfy the need for a CD-ROM logistics system by providing easy access to ILs plus searching by Characteristic data. These Databases are on one or two CD-ROM Discs.

- System compatibility with FEDLOG and all other CD-ROM MCRL based systems.
- Help feature allows the user to get on-line help and on-line definitions of fields and terms.

FARSEARCH: The complete FARS/DFARS Database on one CD-ROM Disc. There are 37 FARS/DFARS related databases available. Databases are searchable by Full Text, Record Number, and Cross Search. The export/print feature allows printing of complete sections and export of data to other files. FARSEARCH is user friendly. It is function key driven, has a help function built-in and has context sensitive help which allows the user to get definition of fields and other data on input screen. FARSEARCH is PC/XT/AT compatible and requires only 640K of RAM and 2 megabytes of hard disc space. It requires only one CD-ROM drive and is compatible with all CD-ROM systems using Microsoft Extensions. Databases available are:

- Federal FAR Databases
- Executive Departments FAR Databases
- Department of Defense FAR Databases
- Air Force FAR Databases
- Army FAR Databases
- Navy FAR Databases
- Independent Agency FAR Databases

Pricing Description:

(Pricing is identified on attachment 1)

Account Type: Optional Pay - Transfer or Direct

Marketing Representative: Stephen J. Mulvihill

Address:
Optical Publishing Inc.
155 W. Harvard Street, Suite 101
Fort Collins, CO 80525

Company Name: Maxwell Macmillan Publishing Inc. **Service ID:** PH

Service Name: TAXES ON-LINE/ PHInet **Contract #:** H74055BOA

Description:

o PHINET ONLINE DATABASES - PHINet is the only online database system created, supported and continually enhanced to meet the expressed needs of tax professionals working in Government, law, accounting and business. Using virtually any communicating personal computer, PHINet users gain access to:

- one of the world's most comprehensive tax and pension libraries
- the Internal Revenue Service Manual
- the most up=to-date tax news available

PHINet's database is accessed through two separate menus, the News Menu and the Main Menu. The PHINet Main Menu encompasses more than 30 files. The most comprehensive of these is TOTL, which by itself contains more than 300,000 documents, including federal and Tax Court cases, IRS releases such as General Counsel Memorandum Actions On Decisions, Private Letter Rulings and Revenue Rulings, and the Prentice Hall looseleaf tax service. Also available in the Main Menu are databases such as Prentice Hall's Estate and Gift Taxes, Excise Taxes, and Tax Treaties looseleaf services; the Prentice Hall Pension and Profit-Sharing library; the Prentice Hall Citator; Tax Notes Today; and the Internal Revenue Manual.

o CD-ROM PRODUCTS: PHINet offers selected full text materials on compact disk (CD-ROM). The textual content of materials available on CD-ROM is equivalent to that of the corresponding data in PHINet's online databases and print products. Formatting and indexing of data on the CD are calculated to optimize ease and efficiency of searching and reading authoritative documents. The following databases are available on CD-ROM disks:

- Revenue Rulings and Procedures, 1954-June 1986. Full official text, headnoted, and code-classified with PH citator entries.
- Private Letter Rulings, 1977-November 1986. Full official text, headnoted, and code-classified.
- Tax Court Decisions, Recorded and Memorandum, 1972-1986. Headnoted and code-classified.
- American Federal Tax Reports, 1972-November 1987. Prentice Hall AFTR Reporter, headnoted and code-classified.

PHINet data on CD can be searched with two different types of software, which may be chosen according to the user's preference and prior training. The two available search software packages are:

o Full Text Manager o DocuFind

The following minimum hardware requirements are needed to access PHINet's information on CD-ROM:

- An IBM PC or compatible (286 processor with at least 512K RAM) (640K is required for DocuFund software).
- A hard disk with 1 MB or more of available space
- a CD ROM drive, interface card, and cable for connecting the CD ROM drive to the PC.

Pricing Description: Prices provided are FY91 prices.
Online Information Retrieval Service:

Hours Of Usage/Month	Incremental Hourly Rate
1 thru 500	@ $75.00
501 thru 750	@ $73.00
751 thru 1000	@ $71.00
1001 thru 1500	@ $69.00
1501 thru 2000	@ $61.00
2001 thru 2500	@ $55.00
2501 and above	@ $48.00.

Sign-on fees; minimum use charges; cost per activated user ID number; and cost for additional billing locations are waived. There are no charges for initial training, communications or per-line printing.There is a $10/hr surcharge for accessing the Tax Analysts'. The LERN training database is charged at a flat rate of $22.00/hr.

CD-ROM Information Service: PHINet's CD-ROM Library contains the following four databases: Revenue Rulings and Procedures; Private Letter Rulings; Tax Court Decisions; and American Federal Tax Reports. A database may be supplied on one or more CD ROM disks.

Initial Subscription	Annual Renewal
$1,560.00 - One database	$720
2,760.00 - Two databases	1380
3,840.00 - Three databases	1980
4,680.00 - Four databases	2400

Company Name: Procurement Automation Institute **Service ID:** PI

Service Name: PAI*MATRIX **Contract #:** H74064B0A

Service Description:

Procurement Automation Institute offers the following standalone electronic database:

PAI*MATRIX: An automated information resource designed and offered to assist the FEDLINK membership to facilitate the use of PART 53 of the Federal Acquition Regulations (FAR). The database provides titles, dates, and references to clauses and provisions which may be used in the preparation of solicitations and contracts generated to support the acquitions functions of the FEDLINK membership.

The database is updated on a monthly basis and is delivered on either 5.25or 3.5 IBM compatable disketts. The database is available either on a single user basis or on a site-basis whereby the database may be used by more than one person.

Pricing Description:

Company Name: National Standards Association, Inc. **Service ID:** PM

Service Name: PARTS-MASTER / SPECMASTER **Contract #:** H74040BOA

Service Description: PARTS-MASTER is an electronic logistics support system available on compact disc and as an On-Line database. It can locate and retrieve more than 13.5 million parts and products procured and/or stocked by the U.S Government. This database integrates the key logistics databases into one: Master Cross Reference List (MCRL), Handbook H2 (Federal Supply Classification), H4/8 Commercial and Government Entity (CAGE) and Management List - Consolidated (ML-C). These databases are an integral part of the Federal Supply Classification System. Search can be made by National Stock Number (NSN) or National Item Identification Number (NIIN), Federal Supply Code for Manufactures (FSCM), manufacturer's part number, item name, and company name. PARTS-MASTER is also available with the ILs (Technical Characteristics). Searchers can quickly identify items, find sources of supply, locate names and addresses of manufacturers, bring up product
In addition to PARTS-MASTER, the U.S.Navy-specific APL system is also available.

As a compliment to the parts database, NSA provides SPECMASTER as a wholly contained information system providing access to information on over 57,000 DOD-listed specifications, standards, related government documents, and commercial vendor catalogs. This information is available in (3) subsets: VENDORS; STANDARDS and SPECIFICATIONS; and SPECMASTER INDEX. SPECMASTER is available on CD-ROM.

Pricing Description:

PARTS-MASTER

No. of Units	Price w/o Technical Characteristics	Price w/Technical Characteristics
1-4	$3,675/ea	$4,685/ea
5-9	$3,450/ea	$4,460/ea
10-19	$3,225/ea	$4,235/ea
20-39	$3,000/ea	$4,010/ea

APL's

1-4	$2,150
5-9	$2,100
10-19	$2,050
20-39	$2,000

SPECMASTER

1-4	$8,745
5-9	$8,520
10-19	$8,295
20-39	$8,070

A renewal for SPECMASTER results in a $500 reduction from each of the above catagories.

Company Name: Research Pubilcations **Service ID:** RD

Service Name: Document Delivery/Microfilm **Contract #:** H74205BOA

==

Service Description:

Research Publications offers Document Delivery and Microfilm Retreival Services that includes one of the most comprehensive sources of patent information in the world. Research Publications owns and is able to provide paper and microfilm copies from the extensive backfiles of patents on microfilm which consists of approximately 5 million U.S. Patent and Trademarks and 1 million Patents from the Major Industrial Nations of the world. Research Publications is the only source of the complete backfile of all U.S. Patents issued since 1790. Also available are copies of U.S. Patent file histories (file wrappers) which contain all the correspondence and papers relating to a U.S. Patent. The documents may be ordered on-line via ORBIT Serch Service or DIALOG Infomation Services.

In addition to the extensive collection of patent documents, Research Publications represents itself as one of the world's largest publishers of monographs, serials documents and manuscripts in microformat. The current microform publications catalog lists 250 items from their scholarly collection, 450 journal titles and 30 international newspapers and nwspaper indexes. The newspapers include dailies and Sundays from Europe, Japan and the Pacific basin.

Company Name: Readmore, Inc. **Service ID:** RE

Service Name: Subscription Services **Contract #:** H74669BOA

Service Description: Readmore offers the Federal library the full range of Library Subscriptions Services as well as a complete offering of management reports, automated subscription services including on-line access to the READMORE computer and a local microcomputer check-in service. Readmore will furnish all qualified personnel, facilities, equipment and supplies for the placement of new and renewal subscriptions to single or multiple addresses for domestic and foreign serials and periodicals, and for related services.

Pricing Description: (Contract Option exercised via amendment 1 for one (1) year to expire 9/30/91)

Publishers Price Plus Service Fee For Popular Titles	-5.0% to +3.25%
Publishers Price Plus Service Fee For Scientific, Technical and Medical Titles	2.0% disc.to 3.25% service charge

Quantity or Dollar Volume Discounts

Annual Billing	Government Discount
$ 0 - $100,000	0%
$100,001 - $200,000	.25%
$200,001 - #300,000	.50%
$300,001 - +	1.00%

Optional Services

Journal Check-In (at Readmore)	$ 17.50/title
Shipping Charges	Vary
(At library location-Basic)	$1,795
(At library location-Full)	$2.295
Network Version (Novell)	$ 995/additional
Average Price Index Report	$ 25/report
Check-In Labels	$ .25/title
Local Serials Catalog (non-Readmore)	$ 1.00/title

Plan A at the Local Library:

Union List (at library-Basic REMO)	$1,795
Union List Module	$ 695

Telecommunication

Time Share	$ Use 800 number
Dedicated Line $400/mo	
Record Loading - Creation of Agency Database	$ 3.50/record

Additional Charges

Listings (Special Reports)	$ .50 to $1.50/page
Fiche Specification - 42X	$ 5.00/fiche
Tape Specification - 9 Track, 1600 Unblocked	$100.00/tape
Training (at Readmore)	N/C
Training (on-site)	$500.00/day + expenses
Claim Express (special software)	$195
Paper (if Readmore produces)	$ .20/page
Microfiche 42X	$ 5.00/master w/o char set $ 2.50/duplicate
Computer Tape	$300
On-line Database at Local Library	$250**
Keying of Manual Data	$ 20/hr

Special Reports:

Systems Analysis	$ 30/hr
Programming	$ 50/hr

Plan B at Readmore:

Data Preparation:

Conversion of Machine-Readable Data	$ 30/hr
Keying of Manual Data	$ 20/hr
Programming	$ 50/hr
Analysis	$ 30/hr

Output same as Plan A

**Per Union List Member or Per Installation Device

Account Type: Optional Pay - Transfer or Direct

Readmore Publications, Inc.
22 Cortland Street
New York, NY 10007

Telephone: 212-349-5540 or 800-221-3306

Notes: You may contact Readmore and request a complete packet of their descriptive literature as well as a copy of their contract with the Library of Congress.

Company Name:	The Research Libraries Group, Inc.	**Service ID:**	RL
Service Name:	Research Libraries Information Network (RLIN)	**Contract #:**	H74035BOA

Service Description:
The Research Library Group offers RLIN which is one of the three Bibliographic Utilies that supply services to the FEDLINK membership. The Research Library Group is a participant in INTERNET and presently only searching is available.

Available RLIN services include:

Shared Cataloging Services;
Shared Acquisitions Services;
Shared Resources Program Services for RLG Members;
Search-Only Services;
Instructional Services;
Communications;
Special Database Input-Update Services.

Pricing Description:

(See the attached pages for pricing description.)

HOW DOES RLG CHARGE FOR USING RLIN?

RLIN can be used for a variety of purposes -- from looking up information to entering information that will remain online for your own future use. RLG welcomes both institutional users (libraries, archives, etc.) and individuals (faculty members, independent scholars, professional researchers, and others); each may choose the RLIN services desired from the general array and be billed accordingly.

If you are interested in a personal searching account and are not acting for a library or information center, please see the brochure titled "Personal Access to RLIN: How Individuals Can Search an Online Catalog of Research Libraries' and Archives' Collections." It outlines the circumstances under which you can obtain ten hours of searching time for a flat rate. The following description of rates for institutional or departmental use does not apply.

The system offers data resources ranging from the name authorities file, updated daily online from Library of Congress data, through eight bibliographic files — books, serials, archival materials, maps, musical scores, sound recordings, visual materials, and machine-readable data (computer) files — to a number of special subject databases, such as ESTC, the Eighteenth Century Short Title Catalogue, maintained jointly by the British Library and ESTC/North America. RLIN searching methods are straightforward, flexible, and extensive, based on subject, title, and personal name indexes as well as a large number of specialized indexes such as "form and genre," recordings publishers' numbers, ISBN, and ISSN. Search results can be limited by specified language, place and/or date of publication, holding library, and information in the notes fields.

As an institutional user, you can maintain information in the database about your current library and archival holdings, particulars about these items (such as author/owner annotations or notable illustrations), plans for preservation microfilming, items on order, etc. -- all the kinds of information that make it possible for users of the database to benefit from each other's work when requesting interlibrary loans, directing scholars to valuable collections, planning preservation projects, looking for cataloging copy, and so on. RLIN can accept records from you typed online or submitted on tape for "batch loading."

The system can generate an array of printed products at your direction. It can place copies of records onto output tape for use in building your own local files, creating your own print products, etc. It also allows you to transport copies of records into your own file while you are logged on to the system.

Institutions that use other systems for their online reference and technical processing -- or that are not yet automated -- may still find RLIN services to meet their needs. For example, the Batch Retrospective Conversion (BRCON) and Set Processing services enable libraries to generate cataloging on cards and/or tapes for older holdings and for individual items in publisher's series, respectively -- without ever logging on to RLIN. For more information about how the RLIN database can support your operations, please contact the RLIN Information Center at 800-537-7546 (537-RLIN).

All charges for RLIN fall within four areas:

1. Online (work at a terminal connected to RLIN). See schedules C-1 and C-2. Regardless of the actual activity being done online -- searching for reference information, creating a catalog record in the database, entering acquisitions information, finding a record to "download" from RLIN into a local system, sending an interlibrary loan request through the network or responding to one from another RLIN user -- all online activity is charged for according to the searching you do in order to accomplish it.

   (Note: RLIN search prices are 5 percent lower on the average for RLG members than for other RLIN users. This recognizes the fact that members have, additionally, both substantial annual membership fees and in some cases minimum searching purchase requirements, which contribute significantly to the operation and development of the organization and its services.)

2. Off-line or "batch" activities and products. See Schedule C-3. These include both loading records into the database from tape and the variety of output that can be produced from online work.

   Certain off-line services and products are available by special arrangement, but at the standard rates, for institutions that are not using RLIN online, or that currently only search the database. Please contact the RLIN Information Center for more information.

3. "Associated services" -- RLG staff effort and resources to assist you in using the system effectively. See Schedule C-4. These services include the cost of appropriate training, of a "profile" that identifies you to the system and guides it in producing your particular output, and of any programming needed to customize management and statistical reports from RLIN to suit your needs.

4. Telecommunications, software, and hardware. See Schedule C-5. RLIN users pay the cost that RLG incurs in providing dial-up use of a commercial communications network to connect to RLIN for searching and in providing leased lines to connect to RLIN for input. RLG can suggest the approximate cost of RLIN-compatible terminal-printer configurations (although you will actually be paying the hardware vendor, not RLG). RLG supplies software on diskette to make a standard personal workstation serve as an RLIN terminal.

* * *

Please Note: The "Policies and Service Notes" attached to the following five schedules are an integral part of this document; it is important to read them in their entirety.

SCHEDULE C-1 -- RLG MEMBERS' ONLINE SEARCHING RATES

- These rates apply to all users at an RLG member institution, both in and outside the libraries. Leased-line and dial-up users have different communications charges, however; see Schedule C-5 for these.

- Federal, state, and county agencies, whose purchasing requirements may involve special arrangements, can call RLG Accounting at 415-691-2219 for help with these.

- Instructional access to RLIN is available to graduate-level library schools at heavily discounted rates. Call the RLIN Information Center at 800-537-7546 (537-RLIN) for details.

- Searches can be purchased in blocks at the following rates:

			1	search	at	$0.735	each	--	costs	$ 0.735
1.	Blocks	of	5,000	searches	"	$0.683	"	—	"	$ 3,415
2.	"	"	10,000	"	"	$0.642	"	—	"	$ 6,415
3.	"	"	20,000	"	"	$0.60	"	—	"	$ 12,000
4.	"	"	50,000	"	"	$0.56	"	—	"	$ 27,950
5.	"	"	100,000	"	"	$0.528	"	—	"	$ 52,785
6.	"	"	250,000	"	"	$0.497	"	—	"	$124,200
7.	"	"	500,000	"	"	$0.46	"	—	"	$230,000
8.	Over		500,000	searches, each search costs						$ 0.46

An "RLG Member (Schedule C-1) Search Block Order Form" must accompany purchase orders.

- Every RLIN search beginning with the term FIND or BROWSE is charged. A FIND ID or FIND UID search counts as only one-half of a search — that is, two (2) FIND ID or FIND UID searches would be necessary to incur the individual search charge shown above. This reduced rate favors a type of searching frequently used to retrieve records for updating and adding information. There are no other charges for anything done with the data retrieved in a search.

- RLG will also rebate four (4) searches for every original entry cataloged to standard that is entered in the database online (by libraries that have signed the standards agreement), and four (4) searches for every record created in the RLIN authority files.

- The principal uses of RLIN that involve searching include: bibliographic research (to locate specific materials, compile bibliographies, find information leads, etc.), interlibrary loan, downloading information found into a local file, acquisitions data entry (to produce purchase orders, record gifts, indicate acquisition plans, etc.), acquisitions maintenance (to track processing), original cataloging (information new to the database), derivative cataloging (records based on information found online), catalog maintenance, retrospective conversion cataloging, instructional use (for library school courses, training, practice).

SCHEDULE C-2 -- GENERAL RLIN USERS' ONLINE SEARCHING RATES

- These rates apply to all users not located at an RLG member institution. Leased-line and dial-up users have different communications charges, however; see Schedule C-5 for these.

- Federal, state, and county agencies, whose purchasing requirements may involve special arrangements, can call RLG Accounting at 415-691-2219 for help with these.

- Instructional access to RLIN is available to graduate-level library schools at heavily discounted rates. Call the RLIN Information Center at 800-537-7546 (537-RLIN) for details.

- Searches can be purchased in blocks at the following rates:

		1	search	at	$0.77	each	--	costs	$ 0.77
1.	Blocks of	5,000	searches	"	$0.717	"	--	"	$ 3,585
2.	" "	10,000	"	"	$0.674	"	--	"	$ 6,735
3.	" "	20,000	"	"	$0.63	"	--	"	$ 12,600
4.	" "	50,000	"	"	$0.587	"	--	"	$ 29,350
5.	" "	100,000	"	"	$0.554	"	--	"	$ 55,425
6.	" "	250,000	"	"	$0.522	"	--	"	$130,400
7.	" "	500,000	"	"	$0.483	"	--	"	$241,500
8.	Over	500,000	searches, each search costs						$ 0.483

A "General RLIN User (Schedule C-2) Search Block Order Form" must accompany purchase orders.

- Every RLIN search beginning with the term FIND or BROWSE is charged. A FIND ID or FIND UID search counts as only one-half of a search -- that is, two (2) FIND ID or FIND UID searches would be necessary to incur the individual search charge shown above. This reduced rate favors a type of searching frequently used to retrieve records for updating and adding information. There are no other charges for anything done with the data retrieved in a search.

- RLG will also rebate four (4) searches for every original entry cataloged to standard that is entered in the database online (by libraries that have signed the standards agreement), and four (4) searches for every record created in the RLIN authority files.

- The principal uses of RLIN that involve searching include: bibliographic research (to locate specific materials, compile bibliographies, find information leads, etc.), interlibrary loan, downloading information found into a local file, acquisitions data entry (to produce purchase orders, record gifts, indicate acquisition plans, etc.), acquisitions maintenance (to track processing), original cataloging (information new to the database), derivative cataloging (records based on information found online), catalog maintenance, retrospective conversion cataloging, instructional use (for library school courses, training, practice).

SCHEDULE C-3 -- OFF-LINE PRODUCTS AND SERVICES RATES

Note: Add 2% for printed products to be shipped by air. Otherwise, all are sent by UPS ground delivery. (All tapes are normally shipped by UPS air.)

Off-line Products

* Fuller record notification requests	$ 0.34 each
* Processing worksheets	$ 0.34 each
* Catalog cards	$ 0.056 each
* Transaction tapes (of records created or updated during online acquisitions and/or cataloging activity):	
Per tape	$ 33.00
Per record over 300 on tape	$ 0.056
* Standard snapshot or sample tape:	
Per tape	$145.00
Per record	$ 0.056
* Customized snapshot or sample tape:	
Per tape	$145.00
Per record	$ 0.094

	printed by user	/ printed by RLG
* Order/request forms	$0.23	$ 0.32 each
* Material/invoice claim notices	$0.12	$ 0.16 each
* Cancellation notices	$0.12	$ 0.16 each
* Technical processing forms	$0.057	$ 0.083 each
* Requester notices		$ 0.066 each
* Department reports (acq.)		$ 0.066 each
* RLIN Reports System standard listings:		
Per page or fiche frame		$ 0.52
Per record		$ 0.056
Fiche production		actual cost to RLG from outside vendor
* RLIN Reports System customized listings:		
Per page or fiche frame		$ 0.52
Per record		$ 0.094
Fiche production		actual cost to RLG from outside vendor

(continued)

SCHEDULE C-3, cont.

- Conspectus Online customized printed reports:

Format I -- data for one institution	
single Conspectus division	$ 20.00
entire Conspectus	$200.00
Format II -- data for all reporting institutions	
single Conspectus division	$ 25.00
Format III — all Conspectus data for	
one institution	$200.00
two to four institutions	$300.00
five to ten institutions	$400.00
11 or more institutions	$500.00
Handling (per order, regardless of number of Conspectus divisions or reporting institutions involved)	$ 10.00 plus postage

- Conspectus Online microfiche:

[Only full conspectuses can be ordered in this form, for a single institution or for a set of institutions.]

Job charge (based on record selection/generation costs)	$104.00
Original fiche (per fiche)	$ 5.20
Fiche copies (per fiche)	$ 0.52
Handling (per job)	$ 10.00 plus postage

Off-line Services

* Loading machine-readable records into RLIN database	no charge
Custom data load reports:	
Per page	$ 0.52
Per record reported	$ 0.09

* Batch retrospective conversion (BRCON):	
Per record derived in RLIN	$ 0.52
Processing reports	no charge
(See also transaction tape and catalog card charges)	

* Set Processing:	
Per record derived in RLIN	$ 0.22
Processing reports	no charge
(See also transaction tape and catalog card charges)	

* Batch record modification (per record)	$ 0.29

SCHEDULE C-4 -- "ASSOCIATED SERVICES" RATES

* Search-only/Instructional start-up fee	$200.00
* Batch retrospective conversion (BRCON) start-up fee	$ 50.00
* Profiling/Custom Programming (minimum charge of 1/2 hour)	$ 75.00/hour
* Training and consulting at user's institution (per day, by arrangement)	$450.00 plus travel expenses
* Training workshops:	
Regional RLIN searching workshops (per day, per person)	$100.00
Workshops at RLG headquarters -- searching, cataloging, interlibrary loan (per day, per person)	$100.00
* Conspectus data entry provided by RLG to non-member libraries participating in the ARL NCIP (per line)	$ 0.30

Note: RLG does not charge a start-up fee to cover the costs of arranging for a library's use of RLIN to do interlibrary loan, cataloging, or acquisitions. However, user profiling and training from RLG are required for these services. See the Notes to Schedule C-4 for more information about start-up costs for technical processing/interlibrary loan.

SCHEDULE C-5 -- TELECOMMUNICATIONS, SOFTWARE, HARDWARE, AND MAINTENANCE RATES

Note: See the RLIN terminal ordering instructions, site preparation guides, and terminal manuals for necessary order/maintenance information.

Telecommunications Options

* "Full-face mode" service over RLG private packet network (via synchronous leased line) -- required if RLIN use includes data entry (per terminal per month)	$ 231.00
* International full-face mode service	by special arrangement
* "Line-by-line mode" service over SprintNet dial-up (asynchronous) line:	
Per connect hour	$ 10.00
Per SprintNet account (per month)	$ 4.00
* Line-by-line mode service over the Internet	(see Notes)
* Line-by-line mode service over RLG private packet network (via asynchronous PAD) (per virtual circuit connect hour)	$ 4.00[1]
* Local system to RLG host X.25 access (Linked Systems Project) (per virtual circuit connect hour)	$ 4.00[1]

Leased-Line Installations/Disconnections for Full-face Mode Service

* Leased-line and modem installation (or move of both to another building)	$1,200.00
* Move of line and modem within building	$ 600.00
* Leased-line installation only (or move to another building)	$1,075.00
* Modem installation (or move) only	$ 175.00
* Canceled line drop order	actual tel. co. charge
* Disconnection from leased line (per terminal)	$ 100.00

[1] Available to RLG Governing members, who are responsible for purchasing, installing, and maintaining all modems, lines, and PAD equipment needed.

(continued)

SCHEDULE C-5, cont.

Software

* Subscription for RLIN PC Terminal Program, Standard Version or Extended Version (per PC per year)	$ 170.00
* Non-Roman capability -- required for CJK, Cyrillic, and/or Hebrew use (per year)	$ 500.00/institution

Hardware: PCs as RLIN Terminals

* Basic PC configuration ("BPC")

* Advanced PC configuration ("APC") for use with non-Roman scripts other than CJK

* RLG MultiScript workstation ("MSW" -- a modified APC) for use with all non-Roman scripts

Owing to frequent changes in the microcomputer industry, RLG cannot quote the precise cost of purchasing a PC for use as an RLIN terminal. Please contact the RLIN Information Center (RIC) at 800-537-7546 (537-RLIN) for current hardware configurations, suggested vendors, and estimated cost information. (Variables such as local market conditions, vendor selection, volume purchase agreements, and educational agreements may all affect your PC purchasing cost.)

Maintenance for RLG Terminal Models No Longer Manufactured[1]

* RLG 84 terminal (per terminal per month)	$ 50.00
* RLG CJK cluster (per cluster per month):	
One or more video workstations, a microcomputer cluster controller, and a printer	
With older, freestanding cluster controller	$448.00
With newer, table-top cluster controller	$344.00

Disconnecting and reconnecting RLG 84 terminals

* Moving a single terminal	$150.00
* Moving additional terminals at the same time in the same building (per additional terminal)	$ 85.00
* Additional printer cable, up to 50 feet	$ 55.00

---

[1] Maintenance for these models not available after August 31, 1991.

Publications Cited Here

A number of other RLG publications are cited in these notes. These and a complete list of titles are available from the Distribution Services Coordinator, Central Support Services, The Research Libraries Group, Inc., 1200 Villa Street, Mountain View, CA, U.S.A. 94041-1100. Please check with the RLIN Information Center at RLG (800-537-7546 [537-RLIN]) if you are unsure whether or not you already have these publications.

Billing and Payment

The RLIN Service Agreement stipulates that: "RLG will submit monthly statements showing the charge for each category of service, and the Institution agrees to make payment in full within twenty-eight (28) days from the date of mailing such bill. Late payments shall incur a charge equivalent to 10 percent per year of the unpaid balance, or the maximum amount permitted by law, whichever is less."

Advantages of Prepayment Account

RLG accepts and encourages prepayment in any amount for RLIN services and will credit users who make prepayment deposits. At the end of each month, all charges for services used, including any blocks of searches purchased, will be deducted from the amount a user currently has on deposit with RLG. This total billable amount, however, will first be reduced by the prepayment credit. Credit is calculated at 8 percent, annual percentage rate (8% APR), of the institution's prepayment balance at the beginning of each month.

Ordering and Paying for Searches

Users will be charged the full amount for whatever quantity of searches (a single block or combinations of blocks) is ordered. The "balance" carried forward from month to month on the invoice will be the number of searches remaining. During the year, one may choose to order an additional block or blocks. If blocks are not purchased, single searches will be automatically billed as used and shown on the monthly invoice. At the end of the fiscal year (August 31), all users' search balances are re-set to zero.

The larger the block of searches purchased, the lower the unit cost. The rates for searching favor careful estimation of one's anticipated search requirements over the year, and monitoring of search usage month by month. Since unused searches cannot be carried over from one fiscal year to the next, tracking institutional usage patterns will help to strike the most effective balance between the lowest possible unit price for large blocks of searches and the most complete usage of searches actually purchased.

Current users can estimate search requirements from the statistics on search usage that appear on their monthly invoices from September 1, 1988 through August 31, 1990.

Refund Limitations

No refunds for amounts under $10.00 are granted. Refunds for amounts under $50.00 are granted only if failure on the part of RLG is obvious (for example, you have been billed for unrequested extra catalog cards). Requests for refunds or credits should be directed to the RLIN Information Center at RLG (800-537-7546 [537-RLIN]). If the refund is approved, prepayment accounts will be credited on a subsequent invoice. Users paying by the month will receive a check refund within six weeks.

Re-run/Replacement Limitations

Defective or missing output (catalog cards, tapes, forms, etc.) must be reported in writing or via electronic mail to the RLIN Information Center at RLG central offices (BL.RIC) if you want RLG to take corrective action. To enable RLG to replace defective output, such material must be reported as soon as possible; after 45 days from the output's initial production, replacement is no longer possible.

Data Rights under Service Agreement

The RLIN Service Agreement states that an RLIN user may obtain copies of any or all of its records created or derived from other records in the database, to use "for any purpose whatsoever." Using a printer attached to a terminal connected to RLIN, a user may also print out any portion of the database, as long as the user does not make any commercial use of records belonging to other users.

Users may not make machine-readable copies of others' RLIN records without first submitting a letter of request to and receiving approval from the president of RLG.

Please refer to the Service Agreement for the complete text on data uses.

Explanatory Notes to Online Services (Schedules C-1 and C-2)

Central Database Searching

The RLIN central database currently comprises eight MARC format bibliographic files (Archival and Manuscripts Control, Books, Machine-readable Data Files, Maps, Recordings, Scores, Serials, and Visual Materials). Any additional MARC formats to be implemented during the year will be searchable at the same rate. The RLIN authority files (Library of Congress Names and Subject Headings and the Art and Architecture Thesaurus) and ILL files are also searchable at the same rate.

Special Database Searching

The price for searching special databases is the same as for the central database. At this writing, the RLIN special databases are:

(1) The Conspectus Online, a subject-based assessment of the collections and collecting practices of members, participants in the Association of Research Libraries' North American Collections Inventory Project (NCIP), and the British Library, maintained by RLG central staff.

(2) The Avery Online Index to Architectural Periodicals, an analytical index contributed by the Avery Architecture and Fine Arts Library of Columbia University; the index is an operating activity of the J. Paul Getty Trust.

(3) SCIPIO, a database of art sales catalogs contributed by The Art Institute of Chicago, The Cleveland Museum of Art, The Metropolitan Museum of Art, The Getty Center for the History of Art and the Humanities, the National Gallery of Art, The Clark Art Institute, The Nelson-Atkins Museum of Art, and the University of California at Santa Barbara.

(4) ESTC, the Eighteenth Century Short Title Catalogue, contributed by the British Library, London, and ESTC/NA, Inc., Riverside, California. Its scope is all letterpress items published in Great Britain and its dependencies from 1701 to 1801, plus all letterpress items published in English during that period anywhere else in the world.

(5) RIPD, the Research-in-Progress Database, which contains information contributed by the Modern Language Association about articles accepted for future publication by more than fifty journals in the fields of literature, language, linguistics, and folklore. The National Council for Research on Women is providing information by and about women gathered from their caucuses and a variety of journals, as well as other non-print resources.

Instructional Service

Instructional access to RLIN is available at heavily discounted rates to graduate-level, library school course programs. Such service is limited to student practice and the demonstration of RLIN searching, cataloging, and acquisitions capabilities in TEMPORARY mode on terminals connected to RLIN via leased line (in full-face mode); or of searching only on terminals connected to RLIN via dial-up (line-by-line mode).

Interlibrary Loan

This service lets an institution create a request or send a message concerning material owned by another institution. These requests can be automatically created from data already resident in the RLIN database. Requests and messages can be forwarded to additional institutions until the request is filled.

Downloading Data from RLIN

The PASS command is used to send an RLIN record out the terminal printer port or to diskette for use in a local system. The RLIN® PC Terminal Manual explains the use of PASS and defines the protocol that any software on a remote computer must adhere to in order to accept such records. The RLIN® MARC Record: Description and Interpretation explains the format of RLIN records as output via the PASS command. If you wish to use the PASS command, please first consult the note above on "Data Rights under Service Agreement."

Acquisitions Services

Creating an acquisitions unit constitutes adding in-process data to the institution's online bibliographic/technical processing records. These units may reflect, for a given title, processing conditions during technical processing. The bibliographic data of the title for which a unit is entered can be derived from another RLIN record or keyed in if no record for the title is found. Records in the RLIN database can contain cataloged holdings or archival control information, acquisitions units, or both simultaneously.

There are six basic types of acquisitions data entry/updating commonly referred to in RLIN processing:

1. "Direct accession" means units entered into the system for material that has already been received by the library.

2. "Extended procurement" means units entered into the system for an ongoing acquisition that remains in the system until the user indicates that the order is complete or cancels the order. Such records constitute a user's standing order/subscription file for material requiring renewal, reorder, or receipt and payment of parts on a periodic and continuing basis.

3. "Unitary procurement" means units entered into the system for one-time acquisition of specific physical items.

4. "Expected material" means units entered into the system for items expected as direct accession and not requiring an order or request.

5. "Selection decision" means units entered into the system to establish bibliographic data for the title and to share collection information with other users.

6. "Acquisitions maintenance" means upgrading, updating, or deleting bibliographic/acquisitions data or entire records of one's own.

Cataloging Services

Cataloging constitutes adding a record to the institution's file of online cataloging in the RLIN database, including adding local bibliographic and holdings or archival control information, related searching, and online record maintenance. (Please note that archival processing is subsumed under this definition.)

There are six basic types of cataloging activity commonly referred to in RLIN processing:

1. "Original - to full level" means adding a record to the data base for a bibliographic entity not previously represented there, cataloged according to the full RLIN standards for completeness and content designation as defined. These are the transactions that earn a four-search rebate.

2. "Original - to base level" means adding a record to the database for a bibliographic entity not previously represented there, cataloged according to the RLIN standards for completeness and content designation at the base level, as defined in the RLG Base Level Standards papers.

3. "Original - not to standard" means adding a record to the database for a bibliographic entity not yet represented there but not cataloged according to any RLIN standards.

4. "Derivative - upgraded" means copying an existing record in the database that is not cataloged to full level and upgrading the copy from non-standard or unknown standard to base level, or from non-standard, unknown standard, or base level to full level.

5. "Derivative - not upgraded" means copying an existing record without upgrading the record with respect to completeness or content designation.

6. "Catalog Maintenance" means upgrading, updating, or deleting bibliographic/holdings/archival control data or entire cataloged records of one's own.

Note: There is no difference in the way current cataloging and retrospective conversion of existing cataloging are done or charged for online in RLIN. However, two special functions can be set -- "retrospective conversion" (RET) and "retrospective conversion maintenance" (RETMAI) -- that allow users to track the amount of retrospective work done from statistics on their monthly invoices.

Notes to Off-line Products and Services (Schedule C-3)

Note: California libraries will be charged sales tax as required by law on all products.

Paper Products

Fuller Record Notifications	Acquisitions/Cataloging forms
Processing worksheets	RLIN Reports System listings
Catalog cards	RLG Conspectus listings

These are all paper products that a user can choose to order on a continuing or one-time basis. All these products are based on online activity in the RLIN system but are produced in batch (off-line) mode and sent to the requester. (Note: RRS and Conspectus products are also available on microfiche.)

There is no charge for reports produced as part of batch retrospective conversion (BRCON) and Set Processing work.

Catalog Cards

Catalog cards are shipped from the RLG central offices daily if the institution receives in excess of 10,000 cards per week; otherwise cards are shipped weekly. Each institution must indicate its choice of shipping method, air or ground.

Transaction Tapes

Institutions may receive weekly or monthly, machine-readable copies of all their activity within the RLIN system on magnetic tape. All tapes are shipped by UPS air.

Snapshot and Sample Tapes

Users can order the special production of magnetic tapes containing sets of their RLIN records selected either according to standard criteria or using custom criteria specified by the user. The purpose of snapshot tapes is usually for input to the user's local system or to a product contracted for with another vendor. The purpose of sample or test tapes is usually to test the data-loading capabilities of the user's local system hardware and software. See the Snapshot/Sample Tapes Request Form instructions in RLIN® Tape Products and Services.

RLIN Reports Systems Listings

The RRS service allows users to receive a variety of periodic reports on their libraries' cataloging and acquisitions activities, including newly cataloged holdings, orders and receipts, and fiscal data. For a description of possible products, see three RLG publications: The RLIN® Reports System, Listing Your New Titles: New Holdings Lists from RLIN®, and RLIN® Reports System Output for AMC Records. All RRS products are shipped to users by UPS second-day air delivery.

Charges for RRS fiche production are billed to the user as a pass-through of charges to RLG from an outside vendor. These costs normally involve a set-up fee, per-fiche duplicating charges, tax in the state of California, and mailing.

RLG Conspectus® Products

The RLG Conspectus Online, a subject-based assessment of members' collections and collecting practices, can be searched by any user of RLIN, and data from it is also available in printed form.

All RLG members participating in the Collection Management and Development Program receive, free of charge, a printed copy of all Conspectus data and updates. Principal, Associate, and Special members who fill in Conspectus data related to participation in one or more RLG subject programs receive printed copies of the results. "Customized" print-outs are also available in three formats:

Format I gives data for a single institution with notes, on bond paper, printed broadside at 132 characters per line, for individual Conspectus divisions or the entire Conspectus. (Examples of divisions are "Art and Architecture," "History and the Auxiliary Sciences of History," and "Philosophy and Religion.")

Format II gives the data for individual Conspectus divisions for all reporting institutions, on bond paper, three-hole-punched, 72 characters per line, formatted similarly to the Conspectus Online display.

Format III gives complete Conspectus data for any number of reporting institutions, on bond paper, three-hole-punched, 72 characters per line, formatted similarly to the Conspectus Online display.

The price for the entire Conspectus will increase as it expands in number of divisions.

Loading Machine-readable Records

RLG does not charge for loading a member/non-member data file into RLIN. For more information about the data contribution process, please contact the RLIN Information Center, 800-537-7546 (537-RLIN).

If requested before data preparation is completed, custom data load reports can be ordered -- for example, of any records that could not be successfully added or that were added with an error condition flagged in them, or of particular records the user plans to update once they are online in RLIN.

Batch Retrospective Conversion (BRCON)

BRCON is an off-line service that permits rapid and economical conversion of printed catalog records into machine-readable form, by allowing users to create brief search records on a PC that are matched at RLG against the RLIN database to derive complete RLIN catalog records, including holdings information provided by the user. Catalog cards and/or magnetic tape output are also produced if desired. For an outline of BRCON procedures, see the brochure "Introduction to BRCON: A Batch Retrospective Conversion Service."

Batch Record Modification

This service allows users to have changes made across sets of records in RLIN files. Examples are: changing a single value in a set of records to a new value; changing multiple values in the records; changing one or more values based on some other value(s) in the records; removing classes of records from the database. Standard products can be requested from such modifications (e.g., cards or records on transaction tapes). This facility is not available for changing headings.

Set Processing

This service allows users to derive RLIN records online for large sets of analyzed materials -- for example, records for each item in a publisher's series. RLG has identified a variety of sets that can be processed for an institution by entering a set request in the RLIN Tables subsystem, or by completing a paper order form and submitting it to the RLIN Information Center. Users may specify the call number and volume numbering to be used in records derived for their institution, as well as a location code and an optional added local bibliographic field. Users may request that catalog cards and/or RLIN transaction tape records be produced for records derived via Set Processing. RLIN technical processing users: Please consult the Set Processing Guide for RLIN® Users. RLIN search-only users or non-RLIN users: Please contact the RLIN Information Center at 800-537-7546 (537-RLIN) for more information.

Notes to Associated Services (Schedule C-4)

Note: All start-up charges will be billed on the user's monthly invoice; please do not send checks in advance.

Start-up Fees

Start-up fees are billed for initiating a service and reinstituting a previous service that has lapsed.

For search-only and instructional users: The start-up fee provides for: one set of relevant publications; computer account opening; addition of institution's addresses to the RLG/RLIN mailing lists; administrative overhead; and miscellaneous consultation.

For BRCOM users: The start-up fee provides for: one copy of the BRCOM user's manual; account installation for record uploading; the BRCOM program on diskette customized for the institution; administrative overhead; and miscellaneous consultation.

Start-up costs associated with interlibrary loan or technical processing use: The costs to begin using RLIN for interlibrary loan, cataloging, or acquisitions include a user profile installation in the system, equipment and software acquisition (see Schedule C-5), and training. RLG does not charge users of these services for: one set of relevant publications; computer account opening; addition of the institution's addresses to the RLG/RLIN mailing lists; administration overhead; miscellaneous consultation; and use of the RLG electronic mail system.

Training Fees

Training at the user institution: To arrange for RLIN training on site, please call the RLIN Information Center at 800-537-7546 (537-RLIN) and ask to speak to the RLIN Training Supervisor.

Regional training workshops and training at RLG headquarters: For a flyer and latest information about RLIN workshops being offered in 1990-91, please call the RLIN Information Center. Preregistration is required for workshop attendees.

RLG member Shared Resources training: Members who participate in elements of RLG's Shared Resources Program use RLIN interlibrary loan and adhere to the policies for ILL and reciprocal on-site access published in the RLG Shared Resources Manual and the subject program On-site Access Guides -- thus extending their own public services to the primary clientele of other RLG members and receiving the same benefits in return. Training consists of instruction in RLIN reference searching and ILL use; it may be done on site or at one or more training workshops.

Notes to Telecommunications, etc. Services (Schedule C-5)

Telecommunications Options

The Internet: It is possible to establish line-by-line access to RLIN via the national "Internet" -- a network interconnecting local area networks that links research institutions throughout the United States. At present this connection supports searching, but no RLIN input/update work. There is currently no charge at most campuses for communications over the Internet, which makes it an attractive option for libraries' reference departments and for personal access to the system by scholars. The steps for connecting to the RLG computer over the Internet can vary depending on how an institution has set up its hardware and software to make this possible for campus users. To find out about local access to the RLG-RLIN host, check with your university library systems office or the data communications department of your computing center.

Leased-Line Installations/Disconnections for Full-face Mode Service

If the configuration permits use of existing modem equipment, then each leased-line drop will support up to four synchronous terminals within fifty cable feet of the modem-sharing device. Additional terminals up to the four maximum within fifty cable feet may be added at a later date without incurring a line drop charge, only where the configuration permits use of existing modem equipment. (It is also possible to run multiple modems off the same leased line with the cooperation of your campus communications department or wiring vendor.)

Terminal disconnection involves removing the terminal's address from RLG front-end processors and readjusting the tables stored there for all dedicated terminals. If there are no other terminals sharing the communications line it, too, is disconnected.

Requests to disconnect installed terminals must be made in writing to the RLIN Information Center at RLG. Charges for terminals to be disconnected will be discontinued within 45 days after receipt of your notification.

Software

A subscription for the RLIN PC Terminal Program, whether Standard Version (S-series) or Extended Version (E-series), is required for every PC used as an RLIN terminal. Copying the software is not permitted with the single exception of making a back-up copy. For each subscription, users will receive all software updates over the year (on both 5-1/4- and 3-1/2-inch diskettes) and related documentation. The subscription entitles users to unlimited consultation from the RLIN Information Center (800-537-7546 [537-RLIN]) about using this software on RLG-supported hardware.

Turning on the non-Roman capability to allow display and input of CJK, Cyrillic, and Hebrew must be done by RLG central staff; again, please contact the RLIN Information Center at 800-537-7546 (537-RLIN).

Hardware and Maintenance

These items and services are available to institutions under arrangements between RLG and certain vendors and are subject to the provisions of those agreements. The items and services are provided directly to the institution by the vendor. Charges for services provided by vendors that are not covered by the maintenance contract will be billed to the user.

Several "site preparation guides" published by RLG assist users in planning for, ordering, installing, and maintaining terminals used with RLIN. The guide for the RLG 90, 40, and 84 terminals and the guide for the RLG CJK terminal cluster are not up-to-date respecting rates, and the terminals they deal with are no longer being manufactured.

For additional information regarding currently offered terminals, refer to the Site Preparation Guide for a PC Used as a Full-Face RLIN® Terminal in combination with RLIN® PC Configurations and Ordering Instructions. (For the latest memoranda and information about any RLIN terminal configurations and use, contact the RLIN Information Center at 800-537-7546 [537-RLIN].)

Company Name: Cambridge Scientific Abstracts
Service ID: SA

Service Name: CD-ROM Products and Services
BOA #: H74043BOA

Service Description:

- MEDLINE. Medline is the only CD-ROM service that covers the entire, non-abridged National Library of Medicine's MEDLINE database. It corresponds to three printed indexes: INDEX MEDICUS, INDEX TO DENTAL LITERATURE and INTERNATIONAL NURSING INDEX. CD-ROM MEDLINE offers unlimited access 24 hours a day, seven days a week with out long distance costs and online charges. Information can be accessed by a variety of factors and hard copy printouts of search results can easily be obtained from your own system. The current year disc is updated quarterly and the new discs are sent automatically, each incorporating all material from the previous disc. In addition to the current year disc, backfiles are available from 1966. A demonstration disc is available on a 30-day no-risk approval basis.
- Life Sciences Collection offers abstracts and citations from more than 5, 000 core journals, books, serial monographs, conference reports, international patents and statistical publications.
- Aquatic Sciences and Fisheries Abstracts is a complete international database that draws entries from worldwide literature including information supplied exclusively to CSA by the United Nations Department of International Economic and Social Affairs, the Food and Agriculture Organization of the United States (FAO), the Intergovernmental Oceanographic Commission (IOC) and leading research centers throughout the world. It offers a comprehensive review of worldwide publications A demonstration disc is available on a 30-day no-risk approval basis.

- Also available on CD-ROM are the following related databases: DRUG INFORMATION SOURCE, POLTOX, NURSING & ALLIED HEALTH(CINAHL), HEALTH, CANCERLIT, PHYSICIAN DATA QUERY (PDQ), and COMBINATION PDQ/CANCERLIT.

Pricing Description: Please see the attached FY '91 pricing information.

Notes: You may contact the vendor to request descriptive literature as well as a copy of their FY'91 Basic Ordering Agreement (BOA) with the Library of Congress. (BOA number is given above.) If there is any discrepancy between the information on this data sheet and the terms and conditions in the BOA, the BOA shall prevail.

Company Name: Slater Hall Information Products **Service ID:** SL

Service Name: SHIP- Statistical Discs/Business Indicators **Contract #:** H74033BOA

Service Description: CD-ROM Based Information Services

SHIP STATISTICAL DISCS - Economic and Social Statistics on Compact Disc. Five discs are presently offered:

1. **Agricultural**- complete county file, over 3,000 data items for each county with corresponding state and U.S. totals;
2. **Population** - full range of population and housing characteristics from the 1980 census for places of 10,000 or more, counties, metro areas, congressional districts, states and the U.S. (Census file STF-3C); Census Bureau county population estimates by age, race and sex through 1985; Commerce Department population projections;
3. **County and City Statistics** - complete contents of the Census Bureau's "COSTAT 2" file plus selected updates - health, education, business, voting, crime and other statistics - over 1,000 data items for each county
4. **County Income and Employment**- Statistics on income and employment by industry

Each disc comes complete with SEARCHER retrieval software and User's Guide. SEARCHER software searches the databases, retrieves data, creates user-defined tables for screen display, printer or disc storage, extracts data for transfer to other programs. The discs are for use with an IBM-compatible personal computer with at least 512K RAM. File manager software for Hitachi, Phillips or Sony readers is supplied.

BUSINESS INDICATORS - economic statistics on compact disc - subscription service. Annual subscription includes 1)a CD-ROM containing the National Income and Product Accounts, business statistics, income and employment by state; 2)SEARCHER retrieval software; 3)user's guide; 4)monthly updates on magnetic diskettes. CD-ROM reader optional. Database contents include: 1)Complete National Income and Product Accounts, annual and quarterly from 1929; 2)business statistics - approximately 1,900 time series from the "Blue Pages" of the Survey of Current Business, annual data from 1961; 3)income and employment by industry for all states and regions, annually from 1969.

TECHNICAL PROPOSAL

CHAPTER 1: DESCRIPTION OF PROPOSED SERVICES

C.IV.1. Description of Service.

Slater Hall Information Products (SHIP) provides economic and demographic statistics on CD-ROM. SHIP's proprietary SEARCHER retrieval software and a comprehensive Users' Guide are included with all products. SHIP's statistical CD-ROMs make large statistical databases -- including population and agricultural censuses and other geographically detailed data from official U.S. sources -- quickly and easily accessible on microcomputers.

C.IV.2.1 Databases Available

The following CD-ROMs are offered:

- County and City Statistics
- Agricultural Statistics
- Population Statistics
- County Income and Employment
- Business Indicators

Business Indicators is offered either as a one time purchase of an individual CD-ROM or as a subscription service with monthly updates. Update schedules on the other products are discussed in the individual descriptions of each product.

INDIVIDUAL PRODUCT DESCRIPTIONS

SHIP COUNTY AND CITY STATISTICS

2.1.1 and 2.1.2 Database Content and Coverage

Geographic Coverage: Counties, metro areas, cities, towns, states, U.S. totals.

Subject matter: Statistical data on population, housing, income and poverty, employment, vital statistics, retail trade, banking, agriculture, health care, crime, education, government spending and much more.

Some 1,500 data items for all counties plus over 100 for the 900 plus U.S. cities over 25,000 population. The disc also contains

TECHNICAL PROPOSAL, CONT'D

population and per capita income estimates for approximately 40,000 governmental units, ranging from small towns to states.

The county and metro area files on this disc are an enhanced equivalent of the Census Bureau's "CO-STAT" file. The disc also contains all of the data for cities and smaller places from the Census Bureau's popular County and City Data Book. The population and per capita income estimates have been enhanced by the inclusion of data for all of the approximately 40,000 units of general government for which the Census Bureau prepares estimates.

Data descriptions, definitions, source notes and other background material are included on the CD-ROM in readily accessible "help" files.

2.1.3 Database Currency. The county and metro area databases contain data from the Census Bureau's County Statistic tape released in 1989. The time period covered varies by data item. The city database contains the city data in the Census Bureau's County and City Databook, 1988. The population and per capita income estimates are for 1980 and 1986 (population) and 1979 and 1985 (per capita income). This CD-ROM will be updated when new data become available from the Census Bureau.

2.1.4 Record Format. Databases on this CD-ROM contain statistical data, with associated data descriptions, definitions, source notes and other background notes included on the CD-ROM in readily accessible "help" files.

2.1.5 Data sources and copyrights. All data were obtained from the U.S. Bureau of the Census. Most data items are from government sources and are in the public domain. A few data items are from private sources. Slater Hall Information Products has obtained permission from these private sources to place their data on this CD-ROM. Further distribution of private-source data is subject to any copyright restrictions imposed by the originating source. The source of each data item is identified on the CD-ROM. The database format and retrieval software are copyright Slater Hall Information Products.

TECHNICAL PROPOSAL, CONT'D

SHIP AGRICULTURAL STATISTICS

2.1.1 and 2.1.2 Database Content and Coverage

Geographic Coverage: Counties, states, U.S. totals.

Subject matter: Censuses of Agriculture plus annual farm income time series.

This CD-ROM includes the complete county files from the 1987 and 1982 Censuses of Agriculture plus the complete farm receipts, expenses and income table from the Department of Commerce' Regional Economic Information System.

- o Censuses of Agriculture: complete county, state and U.S. data for 1987 with comparable historical data 1982 and 1978 for most items. Covers farms, acreage, crops, livestock, production, sales, operating expenses, irrigation, forestry, fisheries, and more.

- o Farm income: Time series data (1969 - present) covers counties, states, regions, and U.S. totals. Farm income totals plus major receipt and expenses categories.

2.1.3 Database Currency. Data from the 1987, 1982 and 1978 Censuses of Agriculture are provided. The next Census of Agriculture will be taken in 1993 (collecting data pertaining to 1992). The Farm Income database contains annual data beginning with 1969. This database is updated and a new CD-ROM issued annually. The CD-ROM released in July 1990 contains Farm Income data from 1969 through 1988. An updated CD-ROM extending the time series through 1989 and incorporating revisions for earlier years is scheduled for release in the summer of 1991.

2.1.4 Record Format. Databases on this CD-ROm contain statistical data, with associated data descriptions, definitions, source notes and other background notes included on the CD-ROM in readily accessible "help" files.

2.1.5 Data sources and copyrights. All data were obtained from the U.S. Department of Commerce, Bureau of Economic Analysis and Bureau of the Census and are in the public domain. The database format and retrieval software are copyright Slater Hall Information Products.

TECHNICAL PROPOSAL, CONT'D

SHIP POPULATION STATISTICS

2.1.1 and 2.1.2 Database Content and Coverage

Geographic Coverage: Places, minor civil divisions, counties, metro areas, urbanized areas, congressional districts, states, regions, U.S. totals

Subject matter: Population, demographics, housing -- complete 1980 census data plus more recent Census Bureau estimates.

The CD-ROM includes:

- Full range of population and housing characterisitcs from the 1980 census for the U.S., all states, metro areas, urbanized areas, counties, minor civil divisions of 10,000 or more, places of 10,000 or more, and congressional districts. (Census file STF3-C).
- Census Bureau population estimates by age, race, and sex, for all counties and states for 1980, 1982, and 1984.
- Census Bureau population (1980, 1986) and per capita income (1979, 1985) estimates for counties and places. These data cover more than 40,000 governmental units.
- Census Bureau population projections by age, by race and by sex for states and regions through the year 2010.

2.1.3 Database Currency. This CD-ROM will remain a basic reference product for data from the 1980 census. New CD-ROM products containing 1990 census data will be issued as the data become available from the U.S. Bureau of the Census, probably beginning in the latter part of 1991.

2.1.4 Record Format. Databases on this CD-ROM contain statistical data, with associated data descriptions, definitions, source notes and other background notes included on the CD-ROM in readily accessible "help" files.

2.1.5 Data sources and copyrights. All data were obtained from the U.S. Bureau of the Census and are in the public domain. The database format and retrieval software are copyright Slater Hall Information Products.

TECHNICAL PROPOSAL, CONT'D

COUNTY INCOME AND EMPLOYMENT

2.1.1 and 2.1.2 Database Content and Coverage

Coverage: Counties, metro areas, metro and nonmetro portions of states, regions, U.S. totals. Data are annual, beginning with 1969.

Subject matter: Personal income, earnings and employment by industry, farm income.

The CD-ROM contains data on income and employment by industry for all counties, states and regions. Included are personal income; earnings for over 80 industry categories and employment by major industry group; transfer payments; farm receipts, expenses, and income. Special features include average earnings per job and average earnings per nonfarm business proprietor.

2.1.3 Database Currency. This database is updated and a new CD-ROM issued annually. The CD-ROM released in May 1990 contains data for each year from 1969 through 1987.

2.1.4 Record Format. Databases on this CD-ROM contain statistical data, with associated data descriptions, definitions, source notes and other background notes included on the CD-ROM in readily accessible "help" files.

2.1.5 Data sources and copyrights. All data were obtained from the U.S. Department of Commerce, Bureau of Economic Analysis and are in the public domain. The database format and retrieval software are copyright Slater Hall Information Products.

TECHNICAL PROPOSAL, CONT'D

SHIP BUSINESS INDICATORS

NOTE: This product is available either as a one time purchase of an individual CD-ROM or as an annual subscription service with monthly updates.

2.1.1 and 2.1.2 Database Content and Coverage

Subject matter: U.S. economic statistics, including GNP Accounts and State Income and Employment. The economic time series on this CD-ROM include:

- o The complete U.S. National Income & Product ("GNP") Accounts, annual, quarterly and monthly. Annual data from 1929; Quarterly & monthly data from 1946. Updated monthly.
- o 1,900 national economic time series from the "Blue Pages" of the Survey of Current Business - production, consumer and producer prices, employment, finance, foreign trade, and more, including data on 12 industry groups. Annual data from 1961; monthly data from 1981. Updated monthly.
- o Income and employment by industry for all states and regions. Includes personal income; earnings and employment by industry (over 80 industry categories); taxes and transfer payments; farm income and expenses. Annual data from 1958. Updated annually.

2.1.3 Database Currency. The U.S. national economic data is updated monthly either by issuing a new CD-ROM or by providing subscribers with the new and revised data on floppy diskettes. (The SEARCHER retrieval software provided with these databases automatically incorporates the data from the update diskettes with the data from the CD-ROM.) The updated information normally reaches subscribers within a few days of each month's release of the latest GNP data by the U.S. Department of Commerce. The State level data is updated annually following release of the latest year's information by the U.S. Department of Commerce. The SHIP CD-ROM issued in September 1989, for example, contains state level data for each year from 1958 through 1988.

Company Name: Silverplatter Information, Inc. **Service ID:** SP

Service Name: SILVERPLATTER CD-ROM Information Services **Contract #:** H74030BOA

Service Description: SILVERPLATTER Information Services offers many CD-ROM based informational databases that include but not limited to the following:

BUSINESS DATABASES: Corporate & Industry Research Reports (CIRR) and Gale GlobalAccess: Associations

EDUCATION DATABASES: A-V ONLINE, audiovisual materials database; ERIC ; LISA PETERSON's COLLEGE Database ; PETERSON's GRADLINE.

FOOD & AGRICULTURE DATABASES: AGRICOLA ; AGRIS; CAB ABSTRACTS

HEALTH and SAFTY DATABASES: CHEM-BANK; EINECS plus-CD ; OSH-ROM; PEST-BANK; TOXLINE

HEALTH SCIENCES Databases: Biological Abstracts; CANCER-CD; Excerpta Medica CD-Cardiology, Drugs & Pharmacology, Immunology & AIDS, The Excerpta Medica Library Service; HealthPLAN-CD; MEDLINE; SPORT Discus.

Notes

•Prices effective July 1, 1990 for the U.S. and Canada.

•Prices subject to change without notice.

•Prices valid for subscribers in the U.S. and Canada only.

•High volume/multi-subscription discounts are available. Contact SilverPlatter for more information.

•25% discount off list price for additional subscriptions to the same database (exclusive of ERIC, CAB ABSTRACTS, CIRR, Gale GlobalAccess: Associations, MathSci Disc, MEDLINE on SilverPlatter, PsycLIT, and TROPAG & RURAL). Additional subscriptions must have same Bill To address as original subscription and Ship To address must be in same city.

•A Special Subscription and License Agreement must be completed for Biological Abstracts on Compact Disc, MathSci Disc , PsycLIT, and sociofile.

•Subscribers can cancel a subscription for a full refund by returning to SilverPlatter all discs, documentation, and software within 30 days of receipt. After 30 days, subscriptions will not be cancelled or refunded.

•Databases available on a subscription basis only unless otherwise noted. Renew subscription each year, or return the disc(s) to SilverPlatter.

•There is a $250 annual charge to continue the software license and customer support for all ONE-TIME PURCHASES and all purchases of retrospective files which do not include a subscription to the current disc.

•CANCER-CD, ERIC, Excerpta Medica, MathSci Disc, NURSING & ALLIED HEALTH (CINAHL)-CD, MEDLINE on SilverPlatter, MEDLINE Professional, OSH-ROM, Peterson's College Database, PsycLIT, and TOXLINE on SilverPlatter databases are currently available for the Macintosh computer. Other SilverPlatter databases will be released for the Macintosh in coming months. CHEM-BANK and PEST-BANK are not compatible with MacSPIRS.

•Massachusetts sales tax and duties, and shipping and handling charges added when applicable.

•All subscriptions to Biological Abstracts on Compact Disc MUST be pre-paid to SilverPlatter.

•The American Geological Institute may require for-profit organizations that currently search GeoRef online and that subscribe to the CD-ROM to pay additional usage fees.

Notes

[1] Prices effective July 1, 1990 outside the U.S. & Canada.

[2] Prices subject to change without notice.

[3] Prices valid for subscribers outside U.S. & Canada only.

[4] High volume/multi-subscription discounts are available. Contact SilverPlatter for more information.

[5] 25% discount off list price for additional subscriptions to the same database (exclusive of ERIC, CAB ABSTRACTS, CIRR, Gale GlobalAccess: Associations, MathSci Disc, MEDLINE on SilverPlatter, PsycLIT, and TROPAG & RURAL). Additional subscriptions must have same Bill To address as original subscription and Ship To address must be in same city.

[6] A Special Subscription and License Agreement must be completed for Biological Abstracts on Compact Disc, MathSci Disc , PsycLIT, and sociofile.

[7] Subscribers can cancel a subscription for a full refund by returning to SilverPlatter all discs, documentation, and software within 30 days of receipt. After 30 days, subscriptions will not be cancelled or refunded.

[8] Databases available on a subscription basis only unless otherwise noted. Renew subscription each year, or return the disc(s) to SilverPlatter—except ERIC, MEDLINE on SilverPlatter, and CIRR discs which must be destroyed after expiration of subscription.

[9] There is a $250 annual charge to continue the software license and customer support for all ONE-TIME PURCHASES and all purchases of retrospective files which do not include a subscription to the current disc.

[10] CANCER-CD, ERIC, Excerpta Medica, MathSci Disc, NURSING & ALLIED HEALTH (CINAHL)-CD, MEDLINE on SilverPlatter, MEDLINE Professional, OSH-ROM, Peterson's College Database, PsycLIT, and TOXLINE on SilverPlatter databases are currently available for the Macintosh computer. Other SilverPlatter databases will be released for the Macintosh in coming months. CHEM-BANK and PEST-BANK are not compatible with MacSPIRS.

[11] Massachusetts sales tax and duties, and shipping and handling charges added when applicable.

12All subscriptions to Biological Abstracts on Compact Disc MUST be pre-paid to SilverPlatter.

1990 SilverPlatter Hardware and Documentation Prices

Prices effective July 1, 1990 for the U.S. and Canada.

Additional Documentation

System Quick Reference Card	$25 per 50
Function Key Card	$15 per 100
Database-specific Quick Reference Card *(available for all databases in the coming months)*	$45 per 100

Company Name: SYSTEMS EXPLORATION, INC **Service ID:** SX

Service Name: Code of Federal Regulations (CFR) **Contract #:** H74020BOA

Service Description:

Systems Exploration,Inc. offers selected database products consisting primarily of text from the Code of Federal Regulations and Departmental Policy documents.

O CFR : Code of Federal Regulations including the following titles: TITLE 10-Energy; TITLE 29- Labor; TITLE 40- Protection of Environment; TITLE 41- Public Contracts and Property Management, Chapter 101-FPMR and Chapter 201- FIRMR; TITLE 48 FARS, Chapters 1-FAR, 2-DFAR, 9-DEAR, 10-TAPR, 12-TAR, 51- AFARS, 52-NAPS, 53- AFFARS; TITLE 49- Transoration.

The databases are of two types; Title documents from the CFR, and Departmental policy documents including Directives, Circulars and Supplements to the CFR.

The databases are supplied only on magnetic tape, in formats consistant with the user's system. The formats currently supported are UNIX,VAX/VMS, and PC LAN/DOS.

System Manager Guide	1 ea	15	15
Camera Ready Originals or Digital Media (ASCII)			
User Manual	1 set	100	100
System Manager Guide	1 set	100	100

ITEM NO. 4005a – Network Level Discounts

A graduated discount is offered when the purchaser buys more than one database. To compute the discount, add the total amounts of the license fees (software and databases) from Line Item 4002c, then use the following schedule to reduce the total amount:

If the order is for	the discount will be:
Two databases	3 percent
Three databases	6 percent
Four databases	9 percent
Five databases	12 percent
Six databases	15 percent
Seven databases	18 percent
Eight databases	21 percent
Nine databases	24 percent
Ten databases	27 percent
More than ten databases	30 percent

NOTE: The User Text Index Function is not discountable.

Use the same discount schedule to compute discounts for subscription updates/media charges and software maintenance. Add the total amounts of the subscription updates/media charges and software maintenance from Item No. 4002c, then use the discount schedule to reduce the total amount.

ITEM NO. 4005b

Prepayment Discounts

A prepayment discount is offered for monthly Subscription Updates/Media Charges and Software Maintenance, Line Item 4002c. To compute the discount, add all the applicable software update/media charge and software maintenance fees, then apply the appropriate prepayment discount percentage for the number of months to be prepaid. Invoices for subscription updates/media charges and software maintenance will be prepared based on the customer's selected prepayment method at time of award.

If the Prepayment Method is	**the discount will be: (based on 12% per annum)**
Three Months Prepayment	3 percent
Six Months prepayment	6 percent
Nine Months prepayment	9 percent
Twelve Months prepayment	12 percent

Company Name: TAX ANALYSTS **Service ID:** TA

Service Name: TAX NOTES TODAY **Contract #:** H74054B0A

Service Description:

Company Name: THOMAS EVANS & ASSOCIATES **Service ID:** TH

Service Name: Federal Prime Contracts **Contract #:** H74050B0A

Service Description:

Thomas Evans & Associates offers a CD-ROM subscription service known as the " Fedreal Prime Contracts Retrieving and Reporting System "

The Federal Prime Contracts Retrieving and Reporting System contains information on all Federal prime contract actions in excess of $25,000, search and retrieval and Report Writer software.

The Federal Ptime Contracts data is derived from the General Services Administration Federal Procurement Data System's collection of prime contract actions, aka the Individual Contravt Action Report (ICAR). In addition to the GSA data, Thomas Evans & Associates has added such value-added fields as " parent company identification and congressional district affected". The databases, covering one fiscal year each,currently consist of FY87, FY88 and FY89. FY90 data will be available during the contract period of coverage.

Pricing Description:

See attached ATTACHMENT A for pricing.

Company Name: Innovative Technology, Inc. (ITI) **Service ID:** TL

Service Name: TECHNICAL LOGISTICS REFERENCE NETWORK (TLRN) **Contract #:**H74048BOA

Service Description:

TLRN: TLRN is a service delivered through the Technical Logistics Reference Network which provides a full range of logistics/supply and technical data from the Federal Supply Catalog. Reports are accessible by standard cross-reference inputs such as Stock Number, Reference or Part Number, manufacturer, or other identifying information. This basic information, which consolidates such publications as the MCRL, ML, FILDR, and IL, has been augmented with selected commercial data and network connectivity to other applications databases.

The service is provided on a subscription basis, and offers several options for delivery (through CD-ROM local data storage and access) and on-line connection as required. This combination of databases provides users an enriched system of information retrieval from a single entry point into multiple logistics-related data sources.

TLRN CD-FICHE: The CD-ROM series of the TLRN is an enhanced version of the basic system which will provide offline item identification information from the Total Item Record (TIR). Comprehensive services, including, maintenance, training, documentation and follow-up support are provided in the basic subscription. Alternate plans, tailorable to the user's needs, are available to install the system on user owned equipment.

Pricing Description:

Telecommunications-Commercial	$13.00/HR.
-Government furnished	N/C
Training on system use	75.00/hr

Please see the pricing pages for full pricing details.

Account Type: Transfer Pay Only

Company Name: TACTech,Inc. **Service ID:** TT

Service Name: TACTech w/LOOK-UP/AIM/MAX Databases **Contract #:** H74027BOA

Service Description:

TACTech is an on-line system and database that will enable and assist a member in the selection of microcircuit technology and provide sourcing analysis procedures to ensure lifelong support of military microcircuit technologies in military electronics.

o LOOK-UP

The LOOK-UP module allows a member to query for a specific military microcircuit. Then the member may determine any of the following:

Equivalents: Alternative sources: Sourcing Options: Functions: Production status

o **A.I.M.**

The Analytical Integrated circuit **Management** module allows a member to analyze a listing of military microcircuits. The analysis can be performed on older,mature designs, current designs in production,and /or new or futuristic designs.The value and benefits of such an analysis quickly provides the member with a comprehensive sourcing and technology review that is application specific to the parts list entered.

o **M.A.X.**

The **Microcircuit** Alert notification and cross reference (X) module provides microcircuit usage visibility for over 2,000 weapon system contracts. This enables the member to determine commonality of part usage and positive identification as to where it is used.

Pricing Description:

See the attached pages B-2 and B-3.

Company Name: USA Information Systems, Inc. **Service ID:** UA

Service Name: CD-ROM Based Information Service/CD-FICHE **Contract #:**H74051BOA

Service Description:

The CD-FICHE subscription service is based on CD-ROM technology and is comprised of the Federal Supply Catalog items and commercial products meeting Federal and Military requirements including MCRL-1, 2 & # files, the ML-C file, H4/H8 Vendor Cage files and NIIN Price Analysis Reports/Past Procurement files. This system runs on any 100% IBM/Zenith compatible PC, XT or AT computer with 640K of RAM. Another file soon to be included in our product is the Technical Characteristics-ILs (Identification Lists) indexed by National Stock Number (NIIN). Other proposed future files will include MIAPL (Master Index Allowance Parts List), P2300 series (Next Higher Assembly), MRIL (Master Reparable Item List), COSAL (Coordinated Shipboard Allowance List) DRF (Cross Reference File List), AMDF (Army Master Data File) and HMIS (Hazardous Materials Information Systems). To access CD-FICHE, just turn on your computer. You can research your item by National Stock Number/NIIN, manufacturers part number, nomenclature/description, Federal Supply Code for manufacturers/non-manufacturers (FSCM/FSCNM), company name, city, state and even zip code. Punctuation, i.e., dashes, slashes, commas or periods may be omitted, if desired, as the results of the search will be the same. Our customized database user-interface was designed by long-time users of microfiche and online services and was developed to allow for the highest optimum results in the shortest possible amount of time while maintaining a high degree of user-friendliness. An optional 4GL database management package (DMBS) is also available which allows the user to manipulate the data to generate user-customized reports and forms as well as maintain internal data on Request for Procurement data and Sources of Supply not in the CD-FICHE database, internal price analysis from your vendors, etc. Further information on this option is available on request. A brief 10-15 character display of the vendor's name is shown whenever a FSCM/FSCNM appears in the database, allowing the user to know at a glance the name of the manufacturer. Past Procurement History/Price Analysis Reports are a unique feature of CD-FICHE. This information was gathered from approximately twenty different procurement depots around the country. It includes SOS (Source of Supply), contract award date, quantity purchased, unit of issue, unit cost and Federal Supply Code for manufacturers/nonmanufacturers (FSCM/FSCNM). The retrieval time for a complete record using an AT-type computer is less than five seconds and the information can be viewed on the display monitor, stored into a file or printed on a report. CD-FICHE is a subscription service offering yearly subscriptions, including minimum quarterly updates. Free floppy demo discs and/or full demonstration of the system can be made available in the U.S. upon request.

Account Type: Optional Pay - Transfer or Direct

Annual Subscription Charges

USAG-A CD-FICHE Subcription	1-4 Users	$2,100 ea.
USAG-2A CD-Fiche Subscription	1-4 Users	$2,550 ea.
USAG-3A CD-Fiche Subscription	1-4 Users	$3,250 ea.
USAG-4A CD-Fiche Subscription	1-4 Users	$3,450 ea.
USAG-LAN CD-FICHE Subscription	1-5 User	$5,450
USAG-UNIX CD-FICHE Subscription	1-5 User	$11,500

Item No. 4120 **Document reproduction charges (per pages)**

The Basic Document Delivery Fee includes 25 pages of reproduction. Pages in excess of 25 are billed at $.25 per page.

Item No. 4130 **Copyright or royalty fee (per document)**

The Basic Document Delivery Fee includes up to $4.00 in publisher royalties for photocopying. Royalties in excess of $4.00 are billed at cost.

Item No. 4200 **ORDERING**

Item No. 4210 **Processing of orders received via: (per document)**

There is no processing fee for orders received from any system or by mail, telephone or fax.

Line No. 4220 **Verification of bibliographic citation (per citation)**

Orders requiring citation verification or extra reference will be surcharged $7.50

Line No. 4230 **Cancellation of order (per cancellation)**

Cancelled orders will be charged the location fee of $5.00 unless orders are cancelled before Dynamic has begun the reference process. If the order has already been retrieved or ordered from a non-cancellable source, the client will be billed for all costs incurred. There is no cancellation fee for orders contained in Dynamic's in-house collections if the cancellation is requested before the article has been photocopied.

Line No. 4300 **DELIVERY**

All orders are shipped via first class mail within the U.S for no additional fee. Other shipping options are available upon request at the following rates:

Service	US and Canada	International
Facsimile	$1.00/page	$3.00/page
Express Shipping*	$5.00 + delivery cost	$7.00 + delivery cost
Private Pouch or Courier Services	Call for quotation	Call for quotation

* Price is per shipment and is split among all orders in the shipment

Line No. 4310 **Rush Delivery**

Dynamic offers four levels of rush service at an additional surcharge. Charges are based on the speed of service requested and the time of day the order is placed. Rush fees are non-refundable.

Service	Before 12 Noon PST (3 p.m. EST)	After 12 Noon PST (3 p.m. EST)
24-hour Rush:		
In-House Collections	No Charge	No Charge
All other	$10.00	$20.00
Same Day Rush:		
In-House Collections	No Charge	$5.00
All other	$20.00	Call For Quotation

Line No. 4400 **SUPPORT SERVICES**

There are no charges for support services.

Line No. 4500 **ADDITIONAL SERVICES**

No additional services are offered.

Line No. 4600 **DISCOUNTS**

Clients are entitled to the following discounts on retrieval fees based on monthly order volume:

Number of Orders Placed	Discount Rate
50 - 99	5 percent
100 - 249	7 percent
250 - 499	10 percent
500 +	20 percent

Volume discounts are based on average monthly volume of orders placed during the 90-day period immediately preceding the shipment of the order. No discounts are available on orders filled from Dynamic's in-house collections.

Clients may earn an additional 5 percent discount on retrieval fees by maintaining deposit account equal to an average three months' billing.

Company Name: Disclosure, Incorporated

Service ID: UK

Service Name: S E C Filings / Microformat Subscriptions

Contract #: H74215BOA

Service Description:

Disclosure, Incorporated offers the FEDLINK members the following as the official Securities Exchange Commission (SEC) subcontractor for microfiche products:

Subscriptions allow FEDLINK members to chose from the entire document population and select a customized subscription to meet specific needs of the members. Two distinct types of microfiche subscriptions are available:

Subscriptions by Stock Exchange: Subscribers select the documents they wish to receive from those traded on the New York, American, NASDAQ and/or the OTC exchanges.Subscriptions of this type may include any combination of documents for any combinations of exchanges.

Subscriptions by Company: Subscribers may select this option to choose a particular group of companies on which to receive reports. Company coverage for this otion may be by industry, region, corporate ranking or a list of companies provided by the subscriber.

One-Time Purchase: Historical order consisting of back files that may be selected by time period, exchange, company name, report type, industry, and location/geography. Example would be, 1990 10-K's for the Fortune 500.

Disclosure Incorporated publishes a catalog of SEC Filing companies to assist the members in determining the availability of the they require.

Pricing Description:

See the attached schedule B pricing pages.

Account Type: Optional Pay - Transfer or Direct

Carryover: NO

Marketing Representative: James M. Carroll

Address: Disclosure, Incorporated
5161 River Road
Bethesda, Md. 20816
Telephone: 301-951-1300 or 1-800-638-8241

Note: Disclosure Incorporated may be contacted to request discriptive literature and a copy of the Library of Congress agreement.

Company Name: University Microfilms International **Service ID:** UM

Service Name: Article Clearinghouse/OPB On Demand/Dissertations **Contract #:** H74201BOA

Service Description:

UMI Article Clearinghouse - The UMI Article Clearinghouse provides a primary source of article photocopies. Since its introduction in 1983, the service has expanded to more than 10,000 periodicals including journals, magazines, conference proceedings and some newspapers and government documents. The Clearinghouse fills three important needs for document delivery:

1. SPEED - Electronic ordering is available through commercial online and electronic mail services as well as directly over UMInet, Telex/TWX, telefacsimile, mail and telephone. Once received, orders are filled and shipped within 48 hours guaranteed for orders 1983+. Pre-1983 orders are normally filled within 3-5 days. Copies are sent by first class mail, telefacsimile or express courier.
2. COVERAGE - No other commercial document delivery service offers copyright-cleared access to as many titles from a closed, in-house collection. The Clearinghouse covers an extremely broad range of subjects from the highly technical to the popular, often with retrospective coverage extending from the first issue.
3. AFFORDABILITY - Prices start at $8.75/article, regardless of length.

Dissertation Full-Text Copies - All of the nearly one million doctoral dissertations and masters theses published by UMI are preserved on microfilm and are available as full-text reproductions. When an order for a full-text copy of a dissertation or masters thesis is placed through UMI, the complete document is individually reproduced on paper, in microfilm or microfiche. Using this system of "on demand" publishing allows UMI to store vast amounts of information in its vaults to meet the variety of research needs of its customers. These valuable works are used by libraries and researchers to review state-of-the-art research, develop specialized collections, find new sources for bibliographic references and to locate documented research results. Dissertation copies are available in the following formats:

1. soft cover paper copies;
2. hard cover paper copies;
3. 35 mm positive microfilm;
4. 98-page positive microfiche (for titles published from 1976 forward).

Charts , graphs, line drawings and similar data which are part of a manuscript reproduce quite well. If halftones and continuous tone enlargements of higher quality are required, photographic prints can be made for a nominal additional fee.

Pricing Description:

See the attached Schedule B pricing pages.

Company Name: West Services, Inc. **Service ID:** WE

Service Name: WESTLAW **Contract #:** H74015BOA

Service Description:
WESTLAW includes extensive federal and state caselaw, the United States Code, the Code of Federal Regulations and the Federal Register, Shepard's Citations and Insta-Cite (a case history service). Topical libraries, such as military justice and government contracts, contain decisions, statutory and administrative material related to a particular subject. New decisions are continually added and convenient gateway access to other services such as STATENet,DOW JONES/DOW QUEST, and PaperChase. WESTLAW provides case synopses, headnotes and West Digest Topic and Key Number classifications. Full-Text Plus is the best system for accuracy, completeness and efficiency in computer-assisted legal research. Access to WESTLAW is available via over two hundred different computer terminals. WESTMATE software is available for many compatible personal computers. Selected WESTLAW databases are available on CD/ROM using a personal computer, a CD player and specialized retrieval software.
The CD-ROM databases available are: BANKRUPTCY LIBRARY; DEALWARE CORPORATION LAW LIBRARY; FEDERAL CIVIL PRACTICE LIBRARY;FEDERAL TAXATION LIBRARY; GOVERNMENT CONTRACTS LIBRARY.

Pricing Description:

(See the attached pricing pages B-2 thru B-13, LOTS 1,2 and 4.)
A monthly Administrative Credit of $20.00 per hour on the first 100 hrs. of WESTLAW usage under clin 1002a is offered to FEDLINK members for the period of 1 Oct 90 through 30 Sept 91.

Account Type: Optional Pay - Transfer or Direct **Carryover:** NO

Marketing Representative: Ruth Butler

Address: West Services Inc.
1130 Connecticut Ave., N.W.
Suite 520
Wash. D.C. 20036

Telephone: 202-429-2255 or 1-800-255-9334

NOTE: You may contact West Services to request descriptive literature and a copy of West's agreement with the Library of Congress.

LOT I
ONLINE INFORMATION RETRIEVAL SERVICES

1001 ACCESS CHARGES

1001a	Telecommunications	
	Local Network Access	$13/hour
	WATS Network Access	$21/hour
	Access from Alaska, Hawaii and Puerto Rico	$20/hour
	Additional charge for access at a baud rate greater than 1200 baud.	$ 5/hour
	FTS 2000	$ 0/hour

Communications charges for access from other locations outside the contiguous United States are available upon request.

Telecommunications charges begin when the user's password is transmitted and end when the user's telecommunications link is disconnected.

1001b	Monthly Subscription Charge (Start-up/initial)	$100/month/agency
1001c	Password/ID numbers	No Additional Charge

1002 USAGE CHARGES

1002a	Hourly Option (Database usage charge)	
	Standard Usage Charge	$118/hour
1002a.1	Current Awareness Databases*	$73/hour
1002a.2	Allfile Databases*	$177/hour

Each hour of Allfile use shall count as 1.5 hours of use. (The Allfile rate represents the effective hourly rate after application of the Allfile Database multiplier).

1002a.3	Specialty Databases*	$198/hour
1002b	Minimum usage	Not Applicable
1002c	Current awareness service	Not Available
	Personal Directory of Queries (Storage of search strategy)	See 1002a
	Execution of saved search	Not Available

* As identified in the WESTLAW Directory

"Use or disclosure of data contained on this sheet is subject to the confidentiality statement contained in the cover sheet of this submittal."

1002d Block Option (Bulk usage)

Under the Block Option, each agency must commit to a minimum monthly use of no fewer than 100 hours for which it agrees to pay a monthly block usage charge pursuant to the following schedule, regardless of actual use. Use of Current Awareness Databases and Specialty Databases shall not be applied against the minimum monthly usage commitment. Agencies are not permitted to aggregate use for billing purposes under the Block Option. Hours used in excess of the monthly usage commitment shall be billed at the excess rate set forth in the following schedule:

Minimum Monthly Usage Commitment	Monthly Block Usage Charge	Excess Hourly Rate
100 hours	$10,600	$106.00
200	19,600	98.00
300	28,500	95.00
400	36,400	91.00
500	43,500	87.00
750	58,875	78.50
1000	75,000	75.00
1250	91,875	73.50
1500	108,000	72.00
1750	122,500	70.00

Usage charges begin when the user's password is transmitted and end when the user's telecommunications link is disconnected.

1002e	Electronic messaging	Not Available
1002f	Document delivery order transmission	Not Available

1003 OUTPUT CHARGES

1003a	Online display/print	See 1002
1003b	Offline transmission charges (Off-line/hardcopy print)	

The charge for offline transmission, including printing, downloading and use of WESTPRINT, West's print and mail service, shall be $.02 per line. Communications charges as set forth in 1001 and usage charges as set forth in 1002 shall apply to offline transmission to attached or stand-alone storage devices.

1003c	Offline transmission charges (Computer-readable output)	See 1003b
1003d	Report generation/reformatting	Not Available
1003e	Rush delivery of off-line products	See Below

For use of WESTPRINT, a $15 handling charge per individual user per day shall be charged.

"Use or disclosure of data contained on this sheet is subject to the confidentiality statement contained in the cover sheet of this submittal."

1004 SUPPORT SERVICES/PRODUCTS CHARGES

1004a Training onsite or at vendor facilities

Each of Subscriber's personnel who will use WESTLAW must complete a WESTLAW basic session. Basic training shall be provided to Subscriber at a charge of $70 per trainee with a minimum training charge of $280 for the initial session. The maximum training charge to be paid by Subscriber for basic training shall be $2,100. For each trainee, Subscriber shall receive up to one hour of free use of a database which must be used by such trainee within 15 days of such trainee's basic training session. Communications charges shall also be waived for such use.

1004b Documentation

1004b.1	WESTLAW Reference Manual	1st copy/agency - No charge add'l copies - $9.95 each
1004b.2	WESTLAW Topical Research Manuals (Bankruptcy, Securities, Tax)	$5.95 each

1004c Vendor search software

1004c.1	WESTMATE Software		
	Personal Computer Software -	*Site License	$100/site
		Subscription Service	$25/site
	Minicomputer Software -	*Site License	$500/site
		Subscription Service	$100/site
1004c.2	WESTCheck Software - (IBM or IBM compatible only)	*Site License	$159.95/site
		Subscription Service	$25/site

* A site includes all personal computers and minicomputers (including networked systems) at a single location or a single networked system at different locations. A networked system means any combination of two or more terminals that are electronically linked and capable of sharing the use of a single software product.

1005 DISCOUNT SCHEDULE

1005a	Network Level Discounts	Not Available
1005b	Network Level Prepayments	Not Available

1006 OTHER CHARGES

1006a	Gateway Access	See Lot 3

"Use or disclosure of data contained on this sheet is subject to the confidentiality statement contained in the cover sheet of this submittal."

1006b Dedicated Service (for leased line access)

Installation and Maintenance Charges.
Subscriber shall pay an initial installation charge of $1,200 and a monthly maintenance charge of $500 for each telecommunications line and modem. West shall provide all telecommunications lines and modems. Subscriber shall provide all other necessary equipment and modem cables which must be certified by West as compatible with WESTLAW.

1006c **WESTCheck Automated Citation Checking Charges**

Content Verification	$0.50/citation

Stock Snapshot - $1.25 per issue
Directory - (Issue Lookup) $0.25 per search

Tracking Service has a monthly account fee of $8.00.

Fidelity Investor's Express has a monthly account fee of $12.00, but no per minute charges for access.

MCI Mail has no per minute charges for access. There is a $25.00 annual mailbox fee. Charges for sending a letter vary depending on the type of delivery. See//FYI for details and how to register for MCI Mail.

"Use or disclosure of data contained on this sheet is subject to the confidentiality statement contained in the cover sheet of this submittal."

LOT IV
STANDALONE ELECTRONIC FORMAT DATABASES

4001 CD-ROM PRODUCT CHARGES

4001a	CD-ROM Product, firm order	Not Applicable
4001b	CD-ROM Product, subscription	

4001b.1 WEST CD-ROM LIBRARIES -	Monthly Subscription Charge (by location)
a. BANKRUPTCY LIBRARY	
1st Subscription	$220
Each Additional Subscription	$190
b. DELAWARE CORPORATION LAW LIBRARY	
1st Subscription	$125
Each Additional Subscription	$100
c. FEDERAL CIVIL PRACTICE LIBRARY	
1st Subscription	$190
Each Additional Subscription	$165
d. FEDERAL TAXATION LIBRARY	
1st Subscription	$375
Each Additional Subscription	$165
FEDERAL TAXATION SETS	
i. Code and Regulations	$125
ii. Administrative Materials	$125
iii. Letter Rulings	$150
iv. Cases	$175
e. GOVERNMENT CONTRACTS LIBRARY	
1st Subscription	$205
Each Additional Subscription	$185

Subscribers with 25 to 49 current subscriptions to the same Library are entitled to a 10% discount with respect to such Library and those with 50 or more current subscriptions to the same Library are entitled to a 20% discount from the above charges with respect to such Library. For purposes of determining eligibility for these quantity discounts, subscriptions for the Library in question from all of Subscriber's locations may be aggregated.

4001b.2 TAX MANAGEMENT PORTFOLIOS -	Monthly Subscription Charge (by location)
a. 1-24 SUBSCRIPTIONS	
1st Subscription	$280
Each Additional Subscription	$85
b. 25-49 SUBSCRIPTIONS	
1st Subscription	$267.50
Each Additional Subscription	$76.50
c. 50 or more SUBSCRIPTIONS	
1st Subscription	$255
Each Additional Subscription	$68

"Use or disclosure of data contained on this sheet is subject to the confidentiality statement contained in the cover sheet of this submittal."

Lot IV (Continued)

For purposes of determining Subscriber's total subscription, subscriptions from all of Subscriber's locations may be aggregated.

Subscriber is entitled to a $155 discount from the monthly subscription charge for its first subscription at a location for each month in which Subscriber subscribes to The Bureau of National Affairs ("BNA") Tax Management Portfolios print publication ("TM") at such location. During the term of this Agreement, Subscriber's status as a TM subscriber and the locations for which such subscriptions are entered will be verified on an ongoing basis by BNA, and Subscriber's monthly subscription charges will be adjusted as necessary.

4001c CD-ROM Product LAN or Multi-User License Fee

4001c.1 WEST CD-ROM LIBRARIES -	Monthly Subscription Charge (by location)	
	For up to 4 concurrent users	For 5 or more concurrent users
a. BANKRUPTCY LIBRARY	$410	$790
b. DELAWARE CORPORATION LAW LIBRARY	$225	$425
c. FEDERAL CIVIL PRACTICE LIBRARY	$355	$685
d. FEDERAL TAXATION LIBRARY	$540	$870

"Use or disclosure of data contained on this sheet is subject to the confidentiality statement contained in the cover sheet of this submittal."

AMEND. NO. 1

Company Name: The H.W. Wilson Company **Service ID:** WI

Service Name: WILSONLINE, WILSEARCH and WILSONDISC **Contract #:** H74025BOA

Service Description: Online Retrieval and CD-ROM Information Service.
WILSONLINE - the retrieval system for direct online access to the Wilson indexes. WILSONLINE's features offer the ultimate in online search capabilities, including multifile searching, automatic switching to preferred subject headings and an online thesaurus of subject headings. Wilson databases are updated twice a week to provide the most current bibliographic data on more than 500K articles appearing in the 3500 periodicals indexed annually, as well as the more than 60K books cataloged each year.

WILSEARCH - a personal computer software package designed to be used by anyone, regardless of search experience. WILSEARCH formulates searches automatically and provides access to the same data available through WILSONLINE. Currently, hardware specifications for the WILSEARCH software include an IBM PC, AT, XT, PCjr. or compatible computer, a Hayes modem and a DOS (2.0 or higher). WILSEARCH is also available for the Apple IIe personnal computers.

WILSONDISC - a CD-ROM retrieval system that gives you all the options for fast, easy, affordable electronic information retrieval. WILSONDISC offers you the ability to search its databases in two important ways: 1) search each database on a separate compact disc which is updated and cumulated quarterly. Four search modes from novice to expert now make information retrieval accessible to everyone. At the touch of a button, you can update your CD search online. 2) for access to the most current data, subscribers to each WILSONDISC database receive unlimited online search time in that database. You pay only the nominal WILSONLINE hourly telecommunications rate - no additional charge.

Pricing Description:
(Pricing is identified on attachment 1)

Account Type: Transfer Pay Only

Marketing Representative: Jon L. Clayborne

Address: The H.W. Wilson Company
950 University Avenue
Bronx, New York 10452

Telephone: 212-588-8400 or 800-367-6770

Notes: You may contact H.W. Wilson and request descriptive literature as well as a copy of their basic ordering agreement with the Library of Congress.

Order of Precedence: If there is any discrepancy between the information on this data sheet and the basic ordering agreement, the basic ordering agreement will prevail.

Company Name: Western Library Network **Service ID:** WL

Service Name: WLN Library Support Services **Contract #:** H74036BOA

Service Description: The Western Library Network offers a wide variety of computer services to libraries in the Western United States and across the world. The primary library services available are as follows:

Bibliographic	Interlibrary Loan
Batch holdings	Acquisitions.

Independent of use of the major subsystems, users may elect to access WLN for search only purposes via Telenet or direct dial access.

WLN has also released a CD-ROM version of its WLN database, called LaserCat, which gives the library the ability to search a major part of the WLN database without a direct link to the Network. Also available from WLN is a CD-ROM entitled PolarPac which includes bibliographic records relevant to polar research topics and a list of polar serials. PolarPac covers holdings of thirty-four libraries in Australia, Canada, Denmark,England, Finland, Greenland, Italy, Sweden, and the United States.

Pricing Description:

Pricing pages are attached

Account Type: Optional Pay - Transfer or Direct **Carryover:** NO

Marketing Representative: Gwen Culp

Company Name: Telex-Verlag Jaeger+Waldmann GMBH **Service ID:** YW

Service Name: International Directories/Data Base Software **Contract #:** H74002BOA

Service Description: Telex-Verlag Jaeger+Waldmann GMBH offers the following publications:

International Telex and Directory - nine-volume reference book is compiled and revised annually in close cooperation with postal administrations and telecommunications companies, and is based on the most up-to-date information received. The complete directory contains all the necessary data required for the smooth handling of telex and teletex communications, clearly arranged for effortless and quick use in three sections, alphabetical, answerback code section and classified trades section.

International Telefax Directory of European Subscribers - the 6TH edition, 1991, contains the subscribers of almost 150 countries having officially introduced telefax service. The reference book is compiled annually in close cooperation with postal administrations and telecommunications companies on the basis of the latest information received. The directory contains all the necessary information required for the smooth handling of the telefax traffic, clearly arranged for effortless and quick use. The telefax subscribers are arranged alphabetically within each country. The individual entries cover full company name and address as well as complete telefax data (machine group/operation, international area code and call number). At the end of the corresponding country sections, public facsimile service data are given.

Data Base Software - The master tape consists of 11 files according to the 11 regions. Depending on the file size, this can also be a multi-volume file. The individual data tapes are uniquely marked on their labels. Each master tape contains the editorial situation as at the date it was produced. This means that its contents do not correspond to the current JAEGER+WALDMANN directory issue. Every year after directory publication, a new (replacement) master tape is required as the individual data record keys have to be "rebuilt". The subsequent amendments consequently refer to these keys. This type of tape is called Renumbered Data Base (RDB). The ideal updating is on a monthly basis ensuring continuous data handling. Each update tape contains data records referring to records already existing and/or having already been changed.
